IN WEDDING PARTY

Miss Ann Ashcraft of Evanston will be bridesmaid, and Henry E. Cutler of Winnetka, James A. Younglove of Glencoe and Curtis Dawes of Evanston will be ushers at the wedding of Miss Jane Cochran and Edwin Maurice Aschraft, III of Evanston, which will take place Thursday evening, September 6, at Trinity church, Williams Port, Pa.

Mrs. Charles W. Beardley, 174 Sheridan road, and Mrs. Grace E. Drake, 411 Fullerton Parkway, Chicago, left yesterday to motor through the South stopping two weeks at Sligo Plantation, the home of Dr. and Mrs. E. J. Hoskins in Leland, Miss.

Mr. and Mrs. Devroe E. Getman and family returned to their home at 1324 Asbury avenue last Saturday after a month's motor trip in the East. They drove up the Massachusetts coast into Maine and Canada.

DEDICATE HUGE SEWAGE TREATMENT PLANT SOON

Sanitary District Invites Officials of Neighboring States to Inspect Project

With October 3 definitely designated as the date for starting operations, The Sanitary District of Chicago is putting the final touches on its mammoth North Side artificial sewage treatment plant at Howard and Kedzie avenues, preparatory to placing in active service this largest plant of its type in existence.

Dedication of the huge project, the first and fore-runner of others of similar magnitude in The Sanitary District's program, will be made the occasion for a fitting celebration, at which thousands of spectators are expected to be present.

Invite Health Experts

Not only guests living within the boundaries of the district will be present, but invitations are to be sent to the officials of neighboring states, as well as to leading sanitary engineers and health experts throughout the country. During the course of its construction, the plant already has attracted international interest, and has been inspected by eminent scientists from a number of foreign nations.

Costing \$31,000,000 with its vast system of large-size intercepting sewers, honeycombing twenty-one miles of the area to be served by the plant, this project also is the first of three similar units involved in the mandatory five year program required by provisions of the federal permit under which the District is authorized to flow water from Lake Michigan. Completion of the plant has been achieved under the administration of President T. J. Crowe and Trustee James M. Whalen, chairman of the district's committee on engineering.

Affects Entire North Shore

This project will handle the sewage of the entire territory from Fullerton avenue north to the Cook-Lake county line, now supporting a population bordering upon one million persons.

The plant covers 70 acres of a 100 acre site fronting upon McCormick road. The additional acreage has been provided to permit future expansion when increasing population demands amplified facilities. Tests are now under way to gauge the machinery and other operating equipment to insure full efficiency when the big plant begins its continuous task of sewage purification.

The capacity of the North Side works is 400,000,000 gallons of sewage daily, treated in three batteries each containing twelve activated sludge tanks 420 feet long. The activated sludge principle of treatment will be applied here, a bacteriological process differing from the Imhoff tank method employed in other Sanitary District plants now under operation, in that compressed air is used to oxidize the sewage in the tanks and to keep it agitated.

RETURN FROM VISIT

Miss Cynthia and Miss Suzanne Kohlsaas, daughters of Mr. and Mrs. Edward C. Kohlsaas of 777 Bryant avenue, and their brother, Edward, returned last week from a trip to Louisville, Ky. They visited Miss Alice Humphrey and Miss Virginia Harcourt, Vassar classmates of the girls, who entertained them at many parties.

J. J. Gallagher and daughter, Alice, of Zamboango, Philippine Islands, are the guests of Mrs. S. F. McKenney of 752 Foxdale avenue. Mrs. McKenney, Mr. Gallagher and Miss Gallagher left last Thursday for a two weeks' trip to New York and other eastern states.

"A Home Bank For Winnetka People"

The End of VACATIONS

Summer is almost over . . . so are most of our vacations. Now we will settle down to greater business activities and give more thought to the more serious things of life.

Persistent saving we believe, is one question of vital interest in all our lives, for with it, anything is possible. Without it, little can be accomplished.

Come in and see us when you have an opportunity and let us tell you of the facilities at your disposal in our Savings Department.

Deposits made in our Savings Bank on or before September 10th—will receive interest as of September 1
