## "Our Gang" Returns to Appear Six Days on Norshore Stage

When "Our Gang," Hal Roch's young screen comedians, appeared in person at the Chicago theater recently many who wished to see them were turned away because the theater could not accommodate the enormous crowds. For that reason Balaban & Katz have persuaded Farina, "Fatty" Cobb, Wheezer, Jean Darling, Mary Ann Jackson, Harpy Spear, and Pete, the dog to return to Chicago for another appearance. They will be at the Norshore beginning this Saturday, September 8, for six days.

Roberta Nangle, of the Chicago Tribune staff, has said of them: "Hal Roach's famous youngsters are as funny and lovable in this personal appearance as they have been on the screen. It's refreshing to learn that working under Kleig lights has not spoiled these children and that the studio atmosphere, instead of taking the bloom off of their childish charm, has been conducive to preserving it."

### "The First Kiss" on Screen

The screen attraction at the Norshore beginning this Saturday will be "The First Kiss," with Gary Cooper and Fay Wray. The plot is a variation of the old theme of the penniless youth who loves and is loved by an heiress.

Mr. Cooper plays Mulligan Talbot, one of four brothers who are the last of a long illustrious line of ship builders. The glories of the Talbots' past had dwindled into a hopeless present, and Mulligan alone of the four boys has any desire to restore the family name to its former position of esteem. Milligan, too loves Anna Lee, daughter of one of the town's best families. One day he kissed her, and though Anna Lee looked very much as if she wanted to be kissed, she slaps his face with an indignant "How dare you! You poor white trash!" That was enough to make Mulligan resolve that the Talbots should never be poor white trash, and when the picture ends, the Talbot name is once more the pride of Maryland.
