

FALL PLANTING IS BEST

Fall-planted trees and shrubs become firmly settled in the ground. With the coming of warm spring days they are all set to go.

Take advantage of these warm October days and allow us to plant the trees and shrubs necessary to beautify your grounds.

Show Garden and Nursery South of Deerfield on Waukegan Rd.

Now is the time you'll need landscaping experience

THERE'S no better time than early October for setting out new shrubs and new sod on the lawn. If you will call on us, we shall be glad to furnish our estimates and specifications on this or any other kind of landscaping work.

Remember that experience costs no more than lack of experience in the original expenditure. In fact, in the long run, experience is the only true economy.

R. H. GAULT RETURNS

Psychology Professor Finishes Studies of Soviet Education System

Dr. Robert H. Gault, professor of psychology at Northwestern university, has returned from a summer in Russia where he studied the organization and operation of the system of education under the Soviet regime.

Dr. Gault was one of a commission of educators made up by the Institute of International Education for the purpose of the Russian study. He has been on leave of absence from the university during the past four years while conducting special psychologic research under the auspices first of the National Research council, and more recently the Carnegie institution of Washington.

He returns to the chair he formerly occupied here, and has brought with him his laboratory equipment and staff to work under his general direction.

Dr. Gault is remembered for the tests he devised for taxi-cab drivers and his experiments with hearing by touch. He has written several works in his field.

Mrs. Gault was with Dr. Gault in Europe and has returned with him now to their home in Evanston.

Baker Brownell, professor of contemporary thought in the Medill School of Journalism of Northwestern university, is instructing the contemporary thought class which will bring experts in the fields of science, society, art, religion and philosophy to lecture during the winter. The first of the series was given this week by W. Lee Lewis, research professor of chemistry at Northwestern. The lectures, given both on the Evanston and McKinlock campuses, are open to the public. They are also broadcast over WIBO each Wednesday evening at 7.

BRITONS CUT AUTO PRICES

For the first time in almost fifteen years American automobile manufacturers are faced with serious price competition in the English market with the manufacturers of British made cars. The reduction of English car prices is the cause.

Albert Linaburn of East Orange, N. J., is visiting his daughters, Mrs. F. F. Parson, 518 Hawthorn lane, and Mrs. John E. Lutz, 460 Hawthorn lane.

Fall Planting Days Are Limited - - - Plant Now

No matter how fine or mild the weather is, the fall planting days are limited. There is still time for you to plan fall planting, an early call will assure completion of your work while the time is right.

In our Nurseries, consisting of over 300 acres, we have thousands of fine Evergreens, Trees and Shrubs. Why not drive out to our Nursery before placing your order. Nowhere else can be found more perfect specimens.
