## Nature's Reminder for a full coal bin

**C**OLD— isn't it? But this can't last! No doubt you heard these words many times during our September cold snap.

Just because we are in the coal business we won't be pessimists (maybe you say optimists). Indian summer is ahead as yet, but our premature cold weather was just a gentle reminder of what is coming to stay very soon. Just a gentle reminder to look over the coal bin and see if there isn't room in it for a few tons of our CERTIFIED fuel. No time like the present—mercury's going down!

*Do you heat your home with oil? We supply CERTIFIED fuel oils for your heating plant. Every drop is CERTIFIED just as every lump of our coal is CERTIFIED. We're ready to make very prompt deliveries.*
