Morris Captures Tennis Honors at High School

Morris hurdled the greatest obstacle between himself and the Fall Tennis Championship of New Trier High school by defeating MacLean, 8-6, 6-1, last week. MacLean gave the former Senn player a scare when he ran away with the first game and continued to hold the edge over his rival until the score stood 6-6. Then Morris pulled himself together and, after winning the next two games and the first set, held MacLean down to only one game in the second set. The winner between the underclassmen, Kavanaugh and Hoffman, will play Morris for the school championship. While they are both good players neither of them would have any chance against MacLean's conqueror.

"Roof of the World," Museum Lecture Topic

"On the Roof of the World," a free illustrated lecture describing the exploits of the famous Mount Everest Expedition of 1924, will be given for the general public Saturday, October 20, at Chicago Field Museum of Natural History. Captain John B. Noel, of London, who was official photographer of the expedition, will be the lecturer. He will show stereopticon slides made from the pictures taken on this expedition to reach the summit of the highest mountain in the world, which is also the most difficult to ascend. The lecture will begin at 3 o'clock, and will be given in the James Simpson theatre of the museum.

POSTPONE EDITION

The New Trier News, student newspaper of New Trier Township High school, suspended publication temporarily last week. The paper will appear in the future as a four-page weekly instead of a two-page semi-weekly, according to Robert Carpenter, faculty advisor of the publication.
