**Perfect refrigeration is such a comfort!**

Planning menus, marketing, entertaining—these three duties of the home-maker are vastly simplified when she has a General Electric Refrigerator.

And more important is the pleasant feeling of security—the absolute knowledge that her family's food is always fresh and wholesome. Even in winter, scientifically correct refrigeration is vital. Kitchens are warm all the year round, and food, to be wholesome—to be safe to eat, needs to be kept constantly at a temperature below 50 degrees.

The General Electric Refrigerator is different from all others—it is truly "years ahead" in design. All its mechanism is sealed in an air-tight steel casing, which is up on top, forever safe from dust and difficulties. It never even needs oiling.

The General Electric Refrigerator is guaranteed to give you perfect refrigeration—quietly, automatically and economically! Come in and see this most modern of all refrigerators. You may buy yours either for cash or on deferred payments.
