

You may not see Winter approaching with its sleet and snow, but it's coming with the same certainty that the sun rises and sets. Why delay getting ready? Now is the time to see that the furnace is in shape, the coal bin filled, do any repairing, decorating, plumbing, etc.

Your FURNACE!—

Is it in need of cleaning, repairing or reconditioning to give you a most efficient service—if so—phone us—we'll attend to it in a most proper manner—

EXCELSO WATER HEATERS

TESTED AND APPROVED BY THE GOOD
HOUSEKEEPING INSTITUTE

PREPARE NOW FOR WINTER—BE
ASSURED OF HOT WATER AT ALL
TIMES OF THE DAY AND NIGHT

for every bath, kitchen and laundry need

BURNS NO FUEL

By the Excelso method the same fire that you must burn in your boiler or furnace heats your domestic hot water supply. You save both the bother and cost of separate fire and fuel.

THE EXCELSO INDIRECT

Installed on the *outside* of any old or new steam or vapor heater. Both heating connections below the water line give correctly tempered hot water alike in mild or zero weather. Brass connections and coil for hot water circulation eliminate rust.

COMFORT! A never failing supply of hot water, during the heating season, and a saving of the bother and cost of separate gas or other fuel. **ECONOMY!**
