

Under the direct supervision of T. J. Crowe, president of the Sanitary District of Chicago, co-operating with Trustees James M. Whalen, chairman of the engineering committee, and Henry A. Berger, chairman of the Federal Relations Committee, the Sanitary Board has recently successfully placed

T. J. Crowe

in operation the world's largest project for the treatment of sewage. It is electrically controlled and has scientific basis throughout. The plant is at McCormick Road and Howard Street and now takes care of the needs of approximately a million people, north of Fullerton Avenue and beyond the limits of the city of Chicago, including Evanston and other large suburban municipalities. Furthermore, the great plant, built at a cost of \$32,000,000, is inoffensive, being practically odorless.

While this marvelous example of applied scientific sanitary practice, on an unprecedented scale, establishes Chicago and areas beyond its confines within the jurisdiction of the Sanitary Board more firmly as the world's most healthy metropolitan district, it has achieved much more. It has the added significance of being the major part of the job involved in redeeming Chicago's pledges made to the United States government in 1925 when the war department at Washington granted a permit authorizing the diversion of 8,500 cubic feet per second from Lake Michigan through the main drainage canal.

James M. Whalen

It has given much satisfaction to north and northwest residents to visualize the general program adopted for the comfort and health of their respective communities. These embrace Evanston, Wilmette, Kenilworth, Winnetka, Glencoe, Northfield, Niles Center, Morton Grove, Park Ridge, Des Plaines, Glenview and Northbrook. Obviously, these improvements in behalf of sanitation go far towards increase in property values and communal advancement.

Henry A. Berger

These improvements have been completed under Democratic trustees of the Sanitary District and in that connection it is important to recall that Ald. Ross A. Woodhull, prominent in the affairs of the Chicago City Council during twelve years, always has worked harmoniously with the trustees in every undertaking designed by them for the public benefit. Together with Messrs. T. J. Crowe, Whalen, and Berger, he is a Democratic candidate for election as Sanitary Trustee, having been nominated to fill the vacancy on the drainage board.

Ald. Ross A. Woodhull

CAMPAIGNS

Mrs. Frank Schaedler made a trip to southern Illinois towns this week on a speaking tour for the national Republican committee. She spoke for Herbert Hoover and the candidates on the state and county Republican ticket.

MOVE TO CALIFORNIA

The Welton Stallsmith family of 523 Essex road, Kenilworth, is moving to Los Angeles, Cal. The two children, John and Polly, who have been in the fifth and third grades respectively, at the Joseph Sears school, will enter school there.

A personal note to voters concerning

JOHN W. JARANOWSKI

Republican Candidate for RECORDER OF DEEDS

The Welfare Association of the Recorder's Office of Cook County, an organization comprising all the employees of the Recorder's Office and formed for the purpose of relieving distress and caring for the sick and needy of that office, ask the voters of Cook County to consider carefully the following facts concerning the election of a Recorder of Deeds on November 6th.

John W. Jaranowski

For the last five years the office of the Recorder of Deeds has returned a profit on earned fees to the taxpayers of Cook County of over \$400,000.00 annually or more than \$2,000,000.00 in all. This two million dollars profit made by the Recorder's Office has meant a decrease of two million dollars in general taxation. There is not a taxpayer in Cook County who has not reaped the benefit of the efficiency in the Recorder's Office.

To obtain that two million dollars saving a trained, efficient organization has been necessary. Under Joseph F. Haas that organization was built up until delegations from all over the United States came daily to see how the work was performed.

John W. Jaranowski has pledged himself publicly to retain that organization. A change in that organization means decreased efficiency. Decreased efficiency means a loss in profits and perhaps changing the office from an asset of the taxpayers to a liability. It means higher general taxes. This can be prevented and the present profit maintained each year by electing John W. Jaranowski as Recorder of Deeds.

We know John W. Jaranowski and we believe in him. He is an experienced business man who has made a success in private business. An inexperienced man, no matter how honest his intentions, can produce disastrous results in the Recorder's Office.

We who constitute the working force of the Recorder's Office personally appeal to every voter to cast his or her vote for John W. Jaranowski for Recorder of Deeds at the coming election.

WELFARE ASSOCIATION OF RECORDER'S OFFICE

Christian Science Churches

"Doctrine of Atonement" was the subject of the lesson-sermon in all Churches of Christ, Scientist, Sunday, October 21.

The Golden Text was from 1 Corinthians 1:18, "The preaching of the cross is to them that perish foolishness; but unto us which are saved it is the power of God."

Among the citations which comprised the lesson-sermon was the following from the Bible: "O Lord, open thou my lips; and my mouth shall shew forth thy praise. For thou desirest not sacrifice; else would I give it: thou delightest not in burnt offering. The sacrifices of God are a broken spirit: a broken and a contrite heart, O God, thou wilt not despise" (Psalms 51:15, 16, 17).

The lesson-sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Wisdom and Love may require many sacrifices of self to save us from sin. One sacrifice however great; is insufficient to pay the debt of sin. The atonement requires constant self-immolation on the sinner's part" (p. 23).

Mrs. M. F. Pardee and Miss Mary Pardee, mother and sister of Mrs. J. B. Beardsley, 560 Elm street, have left for New York to sail for Panama. Mrs. Pardee and her daughter have been visiting Mrs. Beardsley for the past month.

Subi Wooten, small daughter of Mr. and Mrs. King Wooten of 949 Spruce street, is entertaining her young friends this afternoon at a Hallowe'en party celebration of her birthday.

Ancestral Home Provides Stones for New Mansion

Mr. and Mrs. Roy F. Best of 1121 Lake avenue, Wilmette, are bringing the recollection of childhood days back on the farm and the old flour mill right down to date and into their nine-room residence being constructed by Bills Bros., Inc., on Ramona road in Indian Hill Estates.

On a special vacation trip made this summer, Mr. and Mrs. Best procured several of the stones from the old wall on the ancestral farm in Pike county, Ohio, which has been owned by the great grandfather of Mr. Best. Likewise, one of the most well-worn stones of the "Ole Swimmin' Hole" was secured, together with some of the foundation stones of a flour mill which the great grandfather of Mr. Best operated for one of the earliest Pike county settlements in the pioneering days of the 60's.

Mr. Best is also working out a studio of timbered beaming and with an elevated fireplace in the center and two large posing platforms, which he plans to utilize in his work of commercial art, for which Mr. Best is far-famed.

This is the third new home to be started in Indian Hill Estates in the past two weeks.

HOLD ANNUAL MEETING

The annual meeting of the Wilmette Golf club will be held at the club house Wednesday evening, November 7, at 8 o'clock. Directors will be elected and other business transacted at this meeting, it is announced. William J. Marshall is president of the club.
