

CANADIAN FARMERS BUY CARS

One of the political issues is what can or will be done to help the American farmer. Apparently from the way they are spending money for automobiles and trucks, the farmers of the Canadian northwest, especially throughout Manitoba, need no assistance. They are buying motor vehicles as never before. Sixty per cent of all automobiles distributed in Manitoba this season have gone to farmers, or residents in the farming districts.

TIRE SHIPMENTS ON RISE

Shipments of all types of pneumatic

automobile casings in August amounted to 6,302,258 units, an increase of 1,507,087 units, or 31 per cent over the same month of last year, according to the report just issued by the Rubber Association of America, Inc.

ALCOHOL STOCKS DECLINE

On-hand stocks of industrial alcohol continue to show a marked decline, as evidenced by the September 1 figures which total 17 per cent less than those for the corresponding period of 1927, of 2,543,452 wine gallons, according to a statement issued by the Industrial Alcohol Institute.

TO CUT AUTO PRICES IN BERLIN

A considerable reduction in automobile prices is anticipated in the coming exhibition in Berlin, beginning in November, bringing all small cars down to 2,000 marks which automatically must be followed by manufacturers of bigger cars, including the Americans.

BRIGHTER COLORS FOR CARS

The tendency toward brighter colors and a more elaborate decoration of cars, already noticed last year, was more accentuated than ever at this year's Automobile Salon.
