Banker Buys Acre for Residence in Estates Section

Bills Realty, Inc., announce from their Indian Hill Estates offices the sale of \$40,000 more of lawns in the Estates during the last week.

George Kremm, vice-president of the Old Dearborn State bank in the loop, has purchased an acre Estate on Romona road, just opposite the large stone residence now completed for Fred G. Becker, vice-president of the Container Corporation of America. R. R. Daily of Bills Realty, Inc., negotiated the transaction.

George Gonsalves of Winnetka has acquired two large lawns for the purpose of building two large Colonial homes on order, one being located in the wooded section on Blackhawk road. The other lawn is situated at the end of Mohawk Lane, opposite the two houses of W. M. McKnight and Marley Halvorsen, which they are occupying this week.

H. A. Clasen, head of the Manual Training Department of Lane Technical High school, has acquired a lawn on Iroquois road in the 40-acre addition to Indian Hill Estates. Mr. Clasen is planning the construction of a pipe organ of his own design and creation in a seven-room English house of which construction is planned in the early Spring. John Pomeroy of Bills Realty, Inc., negotiated the sale to Mr. Clasen.

WILMETTE CONTINUES HIGH SPEED BUSINESS

(Continued from page 57)

month" is provided by the permits issued for residences. One new residence is to cost \$80,000. This palatial house which is to be the home of Chester F. Erickson is to be built at 1220 Locust road in what is known as the first Kenilworth addition. It is to be constructed of stone veneer. The builder is Thomas Gory and R. S. Walcott was the architect.

But that is not all. The recently opened Canterbury Court section to the east of Sheridan road and practically on the lake shore will soon boast another handsome residence. A permit was issued for a home which is to cost \$50,000 and which is to be located at 16 Canterbury court. It is being built by A. C. Atherton for C. B. Hazelwood. The architect was Edwin H. Clark.

Other residence permits were as follows:

Brick veneer residence for Roy F. Best, on Romona road in Bills Brothers' Sinclair acres, \$17,000.

Brick veneer residence for Miles B. Geringer at 998 Michigan avenue, \$15,000.

Summing up the distribution of permits it is found that six were for residences for a total of \$180,000, thirteen for garages for \$7,780, one for a school for \$80,000, three for business houses for \$25,000 and two for alterations for \$4,500.

Weird Ideas

some hold, about OIL HEAT

ONE is that an oil burner, once installed and started, should require no further attention (*What mechanical device made by man could operate on any such basis?*) Another is that burning oil should vastly reduce heating bills. (*The real purpose of oil heat is to give greater comfort for your money—although a good burner will never run much higher than coal—and often less.*) These and other misconceptions rob many families of great comfort every winter.

Important progress in oil heat has been made by KLEEN-HEET (and other leaders). Price, as an obstacle, is largely removed. You should know of these things—now.
