 "Adam and Fallen Man" will be the subject at the services of the First Church of Christ, in Winnetka. Sunday morning, November 11, at the 11 o'clock services. Sunday school convenes at 9:35 o'clock.

**New Trier Holds Parents' Day at School Thursday**

The second Parents' Day of the 1928-1929 school term will be held at New Trier High school Thursday, November 15, when parents of the junior and senior students will visit the school and attend classes with their children. The program for the day will be similar to that of the Parents' Day for mothers and fathers of the freshman and sophomore students held on October 25.

Classes will convene at 1:45 o'clock in the afternoon and the full schedule will be run through during the afternoon and evening. At 9 o'clock parents and teachers will gather in the auditorium of the high school for a program of speeches and discussion. Miss Elizabeth E. Packer, dean of girls and acting principal, will speak on "Junior and Senior Interests." Frederick A. Kahler, dean of boys will discuss "The Proposed Financial Budget for New Trier Student Activities."

Freshmen and sophomore students will be dismissed for the day next Thursday, and no classes will be held in the morning for the upper class students.

Mothers and fathers wishing to eat dinner at the high school lunch room on Parents' Day will have opportunity to do so between 5:30 and 7:30, it was announced this week.

Mrs. N. C. Thayer of Wilmette was hostess at a bridge club luncheon entertained at the Georgian Nov. 1.

**SUBURBAN LEAGUE MEN DISCUSSES SCHEDULES**

**Board of Control of Newly Organized High School Body Plan Big Sports Program**

Members of the board of control of the recently organized Suburban High School league, which includes the New Trier, Evanston, Deerfield, Oak Park, Morton and Proviso high schools, met at the Harvard-Yale-Princeton club in Chicago last week to discuss plans for this season's program of indoor track and swimming activities.

No official indoor track schedule was drawn up, but several dual and triangular meets among members of the league will be held, according to Frederick A. Kahler, chairman of the board of control, who also represented New Trier at the meeting. These meets will be arranged by the coaches of the six league schools. At the close of the season an official indoor track championship meet will be held, probably at the new Oak Park field house, according to Mr. Kahler.

**PLANS SWIM MEETS**

The swimming activities of the six league schools will consist of a double round robin of dual meets, according to tentative plans of the board of control. Each school will meet every other school in the league twice. The schedule will begin about January 16. Mid-week swimming meets will be held in the afternoon for neighbor schools, while the week end dual meets will be for teams that have to travel a considerable distance. The complete schedule of swimming meets cannot be announced yet on account of conflicts and previous engagements with schools not members of the league.

In connection with the indoor track championship meet at the close of the track season, officials of the league are planning an individual swimming meet to which all of the league schools will send representatives.

**DISCUSS OTHER SPORTS**

The baseball and outdoor track schedules are expected to come up for discussion at the next meeting of the board of control of the suburban league the first week in December. The football schedule for next fall probably will be decided at that time also. Tentative schedules have been mailed to the different schools.

At the meeting last week it was suggested that every boy be compelled to take part in some sports activity, a method followed at Oxford. The average records of the six league schools would then be compared at the close of the school year. No definite action was taken on the proposition.

Members of the suburban league board of control who attended the meeting were: Frederick A. Kahler, New Trier, chairman; William Wiebe, Morton, secretary; C. M. MacConnell, Evanston; H. G. Pertz, Deerfield; E. L. O'Brien, Oak Park; and H. E. Carr, Proviso.

**N. U. Students Rank High in Psychological Tests**

Students at Northwestern university rank far above students of 67 other American universities which gave the same psychological entrance tests to freshmen, Dean Raymond A. Kent, of the college of liberal arts at Northwestern university, announced this week.

"The median score made by 16,554 students in 68 American universities was between 110-119," said Dean Kent. "The median made by Northwestern students was 149.55."

All freshmen at Northwestern are required to take a comprehensive intelligence test before being admitted.

*the modern view about OIL HEAT*

No good maker of oil burners—KLEEN-HEET or any other—wants people to believe anything but the truth about oil heat.

From the very first, oil burners have accomplished exactly what they were designed to do: that is, to provide a more satisfactory means of heating homes than coal—and a more economical means than gas. Don't expect good oil heat to cost you less than coal heat—although it will not cost more.

There has been steady progress in oil heat equipment, for years, just as there has been in automobiles or any other modern convenience.

A good oil burner is just a good mechanical device—which needs some attention, just as a good car does. Compared with coal heat, it is very little attention indeed.

These are the facts about oil heat. We can tell you a lot more about KLEEN-HEET—which is admitted to be one of the finest of all oil burners. And right now we can show you two great developments—which could mean a lot more comfort in your home this winter.
