

North Shore Youth Gains Scholastic Honors at Antioch

William Lloyd, son of Mr. and Mrs. L. M. Lloyd, 455 Birch street, Winnetka, has won recognition for scholastic work of high quality at Antioch college, Yellow Springs, Ohio. Lloyd graduated from New Trier High school, and entered Antioch in 1927.

This college is attracting the attention of the whole educational world, and its students come from all over the United States and from foreign countries. Antioch's aim is to examine critically traditional methods, to determine what kinds of knowledge are most necessary for effective living, what are the most universal experiences for which young men and women should be prepared both as individuals and members of society, and to arrive at a well-balanced distribution of time and effort among these issues.

Lloyd is employed during alternate five-week periods this year in the Cincinnati Milling Machine company shops. Through the guidance and counsel of members of the Personnel department of the college, through whom these positions are secured for students, and advice of other faculty members, the practical work done by Antioch students becomes a great educational experience.

Antioch students are employed in 175 firms in eleven states. These positions, offering varied experiences to the students, are an invaluable resource in building character and personality. Upon graduation each student has had a thorough introduction to a wide range of cultural subjects to fit him or her for more intelligent living, is professionally trained and has gained a fundamental working acquaintance with real life in various callings.

Add Luxurious Equipment to North Shore Line Trains

Two additional dining cars and one parlor-observation car ordered by the Chicago, North Shore and Milwaukee railroad from the Pullman Car and Manufacturing corporation have been delivered and are now in regular service between Chicago and Milwaukee.

This makes a total of eighteen new all-steel cars that have been placed in high-speed passenger service by the North Shore line on the main line this year. Fifteen passenger motor-cars embracing all the latest modern devices for the comfort and safety of passengers, including the new "easy chair" type seats upholstered in grey Byzantine plush, were delivered by the same company recently.

TO DANCE AT NORTH SHORE

Phi Omega Pi, Northwestern sorority, is entertaining at a dance at the North Shore hotel tomorrow evening.

"The WASTE FAMILY"?

OLD MAN CLINKER

Makes work for everybody. He's a tough customer and gets caught in your grate. Burn Koppers Chicago Coke —then he's out of the picture!

PA BENTBACK

rides on heavy shovels to make lifting harder. Burn Koppers Chicago Coke, lighter to lift, yet more heat ton for ton than hard coal!

SMOKY JIM

—only the cleaners like him! Soils walls, curtains, draperies, jeopardizes health. Burn Koppers Chicago Coke and you're through with him forever.

JOE HEAVYASH

always making extra work around the basement. Reduce his weight. Burn Koppers Chicago Coke—little ash deposit — none worth sifting.

SAMBO SOOT

is another vagrant—the grimy fellow who keeps you busy cleaning up after him. Throw him out. Burn Koppers Chicago Coke—it's sootless—a clean fuel!

TROUBLESOME fellows! Don't shelter them another winter. Burn the *genuine* Koppers CHICAGO Coke and eliminate these parasites.

Genuine Koppers CHICAGO Coke is the full-burning fuel; without smoke or soot, it saves your walls and ceilings, curtains and drapes from the necessity of constant cleaning and expense.

More heat in Koppers CHICAGO Coke, ton for ton, than any other fuel; quicker to take hold, easier to regulate. You save when you buy it, you save when you burn it.

Order today from your regular fuel dealer. Insist on the
