**TO SPEAK AT MEETING**

Dr. Ralph C. Hamil, 666 Spruce street, will give an address at the annual dinner meeting of the Illinois Society for Mental Hygiene Wednesday evening, November 21, at the Medical and Dental Arts club.

M. and Mrs. C. F. M. Miller, 936 Elm street, are leaving shortly to spend the winter in the west. They will stop enroute in St. Louis, Memphis, High Springs, Fla., New Orleans, El Paso, and Los Angeles and will then be in San Francisco until May 1.

**Skeeter Battlers  
Near Finish of Job  
for Current Season**

Tuesday marked the completion of work for the season by the North Shore Mosquito Abatement district.

The Chicago Sanitary District, however, plans to continue the work in which it is engaged, that of opening the main ditch with a drag line. Continuation of favorable weather for a few more weeks will permit a completion of these plans, it is said.

William Edwards, superintendent of the North Shore Mosquito Abatement district, will return next Monday from Asheville, N. C., where he has been attending a national convention of "mosquito fighters."

He will submit a report of this meeting and also his annual review of work done the past year, at the November session of the Abatement district, Thursday evening, November 22.

**Pupils Entertain Mothers  
With Program, Tea Party**

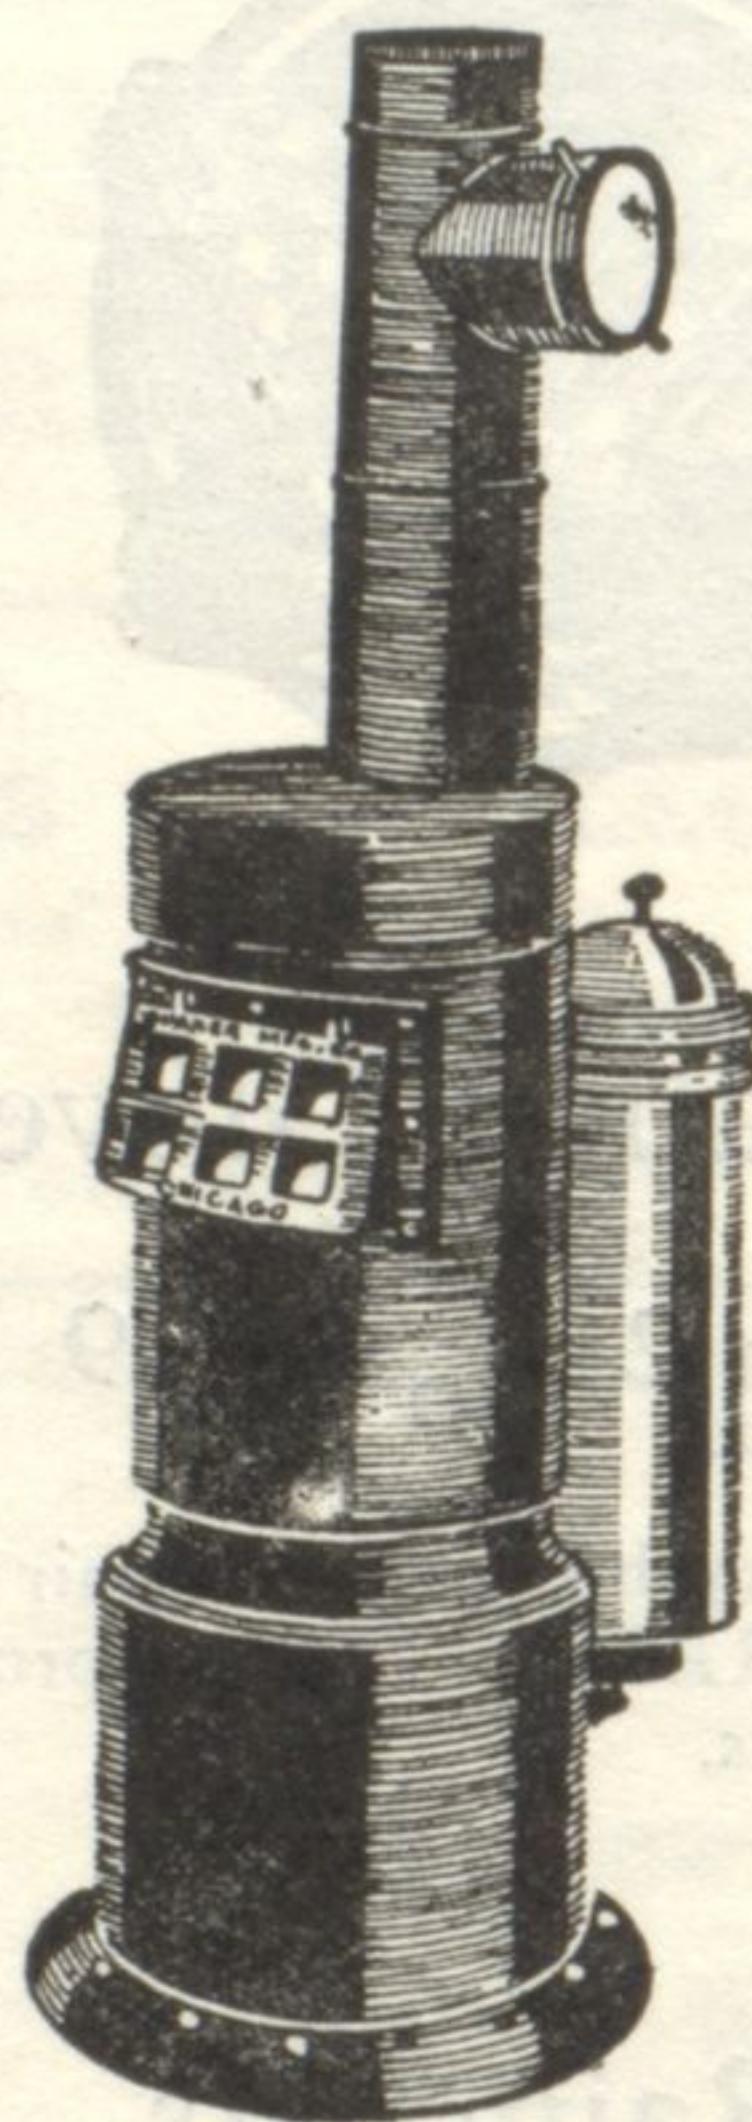

The third grade pupils of Miss Esther Wetzel at the Hubbard Woods school entertained their mothers in the school room Monday afternoon with a program followed by a tea party. Miss Helen Totten, educational counsellor for the Hubbard Woods building, answered questions chosen at random from a questionnaire which had been sent out to the mothers concerning child problems in relation to the school.

**WATSON LECTURE MONDAY**  
"Modern Architecture" is to be the theme of the next lecture Dudley Crafts Watson is giving under the auspices of the North Shore Art league. His talk occurs Monday evening, November 19, in Matz hall, Community House, Winnetka.

**Oil Heat—  
All Purposes**

**H**ERE is an entirely new method of heating for small homes, buildings, stores, filling stations, garages and wherever a coal stove can be used. It is no longer necessary to carry coal or ashes nor to be "half froze" at home or in the store. Work around your car in zero weather and know that in the morning a warm motor starts instantly.

One lighting of a fire for the winter season. Just turn on the oil and drop a lighted match into the combustion chamber. Turn the little dial to the degree of heat desired and then all you have to do for the rest of the winter is fill the tank once a day. Nothing more to it—a most simple and safe operation. Used with an outside storage tank this heater is the last word in heating convenience.

**New QUAKER Heater**  
*Extremely Economical*

**T**HE new All Purpose Quaker Oil Heater features the Quaker perfected combustion chamber making an oil heater absolutely noiseless and safer than any other known means of heating. Burning low priced furnace oil this popularly accepted heater has put new life into the word economy—it puts oil heating within the reach of everyone. There are no wicks or moving parts to get out of order.

**"ALL Purpose"** means just what it says—an all purpose Oil Heater that can be depended upon to give you the comforts, pleasures and conveniences in heating requirements that should be yours. Don't put it off but come in and check into the details and uses of this new heater. Comparison will more clearly show and prove the commendable features and advantages of oil heating embodied in the New All Purpose Quaker Oil Heater.
