

Mrs. Benjamin Payne of Atlantic City is the guest of Mrs. Lawrence Wade of Evanston, a former resident of Wilmette. During her stay she is being entertained by a number of her

friends. Mrs. Munroe Cole of Winnetka gave an informal luncheon in her honor Friday of last week. Mrs. Payne was Miss Lucille Metzler, formerly of Wilmette.

CHILDREN'S MOVIES

A moving picture of a journey from England to South America will be the feature of the free Raymond Fund entertainment for children at Field Museum of Natural History, Saturday, November 24. Other films to be shown are "Preparing for a Garden," "Palace of Honey," and "Golden Fleeces." The pictures will run continuously from 10 a. m. until noon in the James Simpson theatre of the museum. Children from all parts of Chicago and suburbs are invited.

Mr. and Mrs. Victor Elting of 830 Mt. Pleasant court, returned Thursday from a visit in the east with their two sons who are in school.

Mr. and Mrs. H. K. Snider, formerly of Wilmette, have returned from Cape Cod to their home in "Woodland Park," Deerfield.

Automatic Safety Devices Installed by North Shore Line

A new type of automatic electrically-operated safety gate, which is said to have proved highly successful in practical tests at three locations on the Chicago, North Shore and Milwaukee railroad, will be installed at twenty-six additional crossings on that road between Niles Center and Racine, it is announced by John R. Blackhall, general manager.

The following towns on the Shore Line route will receive this additional crossing protection: Lake Bluff, Fort Sheridan, North Chicago, Waukegan, Zion, Kenosha and Racine. In addition the following crossings on the Skokie Valley route will be equipped with the automatic gates: Main street, Niles Center road, Glenview road, Willow road, Dundee road Deerfield road and Deerpath avenue.

"These automatic safety gates furnish as nearly perfect crossing protection as human ingenuity has yet made possible," said Mr. Blackhall in announcing this move to increase the safety of North Shore line grade crossings. "The approaching train itself operates the gates by closing an electric track circuit, which is arranged so that warning is given by both bells and lights at least 35 seconds ahead of a train at the highest speed operated. In our practical tests the circuit was completed by approaching trains when 2,200 feet from the crossings.

"Failure of a vehicle to stop will not result in these gates being destroyed when the arms are down, as the barriers swing around parallel to the road when struck. Springs in the gate posts then automatically return the arms to normal upright position. Possibility of power failure was the only obstacle to overcome. This is guarded against by having two and in some locations three sources of power available. The North Shore Line management is confident that these automatic gates will greatly increase public security by eliminating grade crossing hazards wherever they are installed."

Capt. MacMillan Speaks at Field Museum Today

Captain Donald B. MacMillan, noted Arctic explorer, and leader of the two Rawson-MacMillan Subarctic Expeditions of Field Museum, in 1926 and 1927-28, will give a free illustrated lecture, "Under the Northern Lights," Saturday, November 24, at Field Museum of Natural History. The lecture will begin at 3 o'clock, in the James Simpson theatre of the museum, and the public is cordially invited by Stephen C. Simms, director. Captain MacMillan will tell of the adventures and the work accomplished by the second of the expeditions sponsored by Frederick H. Rawson, which returned to this country in September after spending more than fifteen months in northeastern Labrador and Baffin Land. In addition to this appearance for the general public Captain MacMillan will repeat his lecture Sunday at the same place and hour for members of the museum. Seats unoccupied by members at the Sunday lecture will be available to the public, free of charge.

CHRISTIAN SCIENCE SERVICE

"Soul and Body" will be the subject at the services of the First Church of Christ, Scientist, in Winnetka, Sunday morning, November 25, at 11 o'clock. Sunday school convenes at 9:35 o'clock.

Two class parties are to be held at New Trier High school this week. The juniors planned to hold their party on Friday night and the freshmen on Saturday night.
