With the sale of Indian Hill Chateau to Kellogg Logsdon, sales manager of the Chicago office of Spencer Trask and Company, ten of the thirteen estate-homes ranging in price from \$34,000 to \$51,000 have been sold by Bills Realty, Inc., these homes having been constructed by Bills Bros., Inc., during the year 1928, the total volume of residential sales being in excess of \$400,000 on this property.

Eighteen more homes have been built by private owners and are now occupied.

George F. Gonsalves plans to begin two new homes on Seneca road in the near future, one to be in the Colonial—the exterior to be of stone and the other to be in English—the exterior to be of brick, the houses to be eight and nine rooms, respectively.
