

A CORRECTION

In a paragraph appearing in the Women Voters' column of last week's issue of WINNETKA TALK concerning a talk on "School Revenue" by the superintendent of the Chicago Heights

schools, it was stated that \$40 is spent for the education of each child in Winnetka per year. The correct amount is \$140. The superintendent's name is Floyd Goodier instead of Goodyear.

And How Much does the Electricity Cost for Electric Timekeeping?

"IS it expensive to own and operate?"—our interested customers are asking about the Telechron, the modern electric timekeeper.

They have been agreeably surprised to learn that this marvelous time service costs but a few cents per month in electric light current, and the original cost of the Telechron is about the same as any good spring-wound clock—from \$17.00 up.

The Telechron gives you accurate Observatory Time through your electric light wires. No special wiring required. No winding—no regulating. No oiling or cleaning. Why delay? \$17.00 will deliver one to your home. If you wish, you can see a complete display of Telechron Clocks, both with and without chimes, in the office of Water & Light Department.
