Buster Keaton Acts Well in Movie at Varsity Now

Buster Keaton comes across with some great acting in "The Cameraman," now showing at the Varsity theater in Evanston. He plays a reformed tintype photographer this time, trying to break into the newsreel service all because his heart aches for the office stenographer. He takes his famous poker face through fire, water and jail for the type-writing lady, and gets all tied up in hard knots trying to scoop a Tong War. If you care for good laughs, "The Cameraman" is highly recommended.

Louise Brooks and Richard Arlen play a trouble-beset pair and win your sympathy in "Beggars of Life," coming to the Varsity next Monday. The picture is a tale of tramp life and one that probably will linger long in the memories of those who see it. Arlen plays the part of Jim, a non-professional tramp trying to beat his way to Canada. Miss Brooks is Nancy, who kills a man to get away from him and then attempts to skip the country by accompanying Jim as his "kid brother." The third of the principals in the cast is Wallace Beery in the role of Oklahoma Red, a real vagabond.

Famous Dog Movie Star Will Appear At Alcyon

Lone Eagle, the famous dog movie star named after Col. Charles A. Lindbergh, will make a personal appearance at the Alcyon theater in Highland Park on Thanksgiving day next Thursday, November 29, appearing at both the afternoon and evening shows. This dog has amazed scientists throughout the country by his remarkable display of intelligence. The picture for Thanksgiving day will be Buster Keaton in "The Cameraman."

Next Friday, November 30, the Graeme Players will bid Alcyon patrons farewell for the season. Their final performance is billed as a surprise show. Past performances of these players assure those who plan to see their final production that, whatever the surprise play may be, it will provide an evening of first class entertainment. The picture for the evening will be "Caught in the Fog," starring Conrad Nagel.

The Alcyon also announces that its installation of perfected vitaphone, movietone, and talking picture equipment will be completed very soon, making it possible for the theater to show all-talking and sound pictures exactly as presented in loop theaters.
