**A Word to the Men—  
Don't Wait Until Xmas  
to Give This Present**

The washing must be done—the family must have clean clothes even if your wife does have to give a precious day each week in doing or supervising the work. If that's a weekly story in your home, for your wife's health, change it.

You will appreciate the difference. For we will relieve her, not merely of the washing and ironing, but of all the strain of supervision. She will just bundle the clothes together, the Washington Laundry Man will call for them—washday will be over before it has begun. The day will become a holiday—free from humdrum tasks.

52 holidays a year—surely, a gift your wife will appreciate. And for your information this is an inexpensive gift—each week the family bundle will be returned at a figure lower than it could be done for at home.
