GIVE CONCERT DEC. 9
The next Georgian musical will be held December 9 at the Georgian hotel in Evanston. The new Swigart instrumental quartet, including George and Estelle Swigart of Wilmette, will play. On December 23, a male quartet, under the leadership of Arthur Ranous, will give a Christmas program.

SHOW JOLSON MOVIE

"The Jazz Singer" Is First of "Greater Movie Month" Pictures at Community House

Next Tuesday, December 4, will be the opening day of "Greater Movie Month" at the Community House in Winnetka. Residents of the north shore will have opportunity to see and hear Al Jolson, the famous stage entertainer, in "The Jazz Singer." The picture is to be shown with complete Phototone accompaniment.

"The Jazz Singer" was Jolson's first picture and it is said to have broken many records for theater attendance. In it the well known entertainer plays a Jewish rabbi's son who dances and sings in cabarets, much to the displeasure of his religious father, and who later wins fame on Broadway.

The second of the "Greater Movie Month" pictures will be "Steamboat Bill, Jr.," to be shown next Friday night, December 7. It is a Buster Keaton comedy whose setting is along the Mississippi river. Ernest Torrence as "Steamboat Bill" does some good acting, and Marion Byron, Mr. Keaton's little new leading lady, is cunning and has a good sense of the ridiculous.

Paul Whiteman and others will entertain on the Phototone from 7 o'clock to 7:15 preceding the showing of the picture next Friday night.

**Illinois Leads Way
in Battle to Drive
Away the Mosquito**

That the state of Illinois is looked upon as a leader in warfare against mosquitoes, as it is also in road-building, was revealed by a report of Superintendent William Edwards to the monthly meeting of the North Shore Mosquito Abatement district last Monday evening.

Superintendent Edwards attended the twenty-second annual meeting of the Southern Medical Association at Asheville, North Carolina, November 12 to 15, inclusive.

The importance which physicians attach to the eradication of mosquitoes was evidenced by the large number of officials from state and county boards of health and mosquito abatement districts who were invited to meet with the Southern Medical association, and the devotion of much of the time of the convention to discussion of the mosquito pest, his effect on health and the best method of getting rid of him.

The Illinois mosquito abatement law was held up as a model of its kind, and was proclaimed by the physicians, state and municipal health officers as a great forward step in the movement, Superintendent Edwards reported.

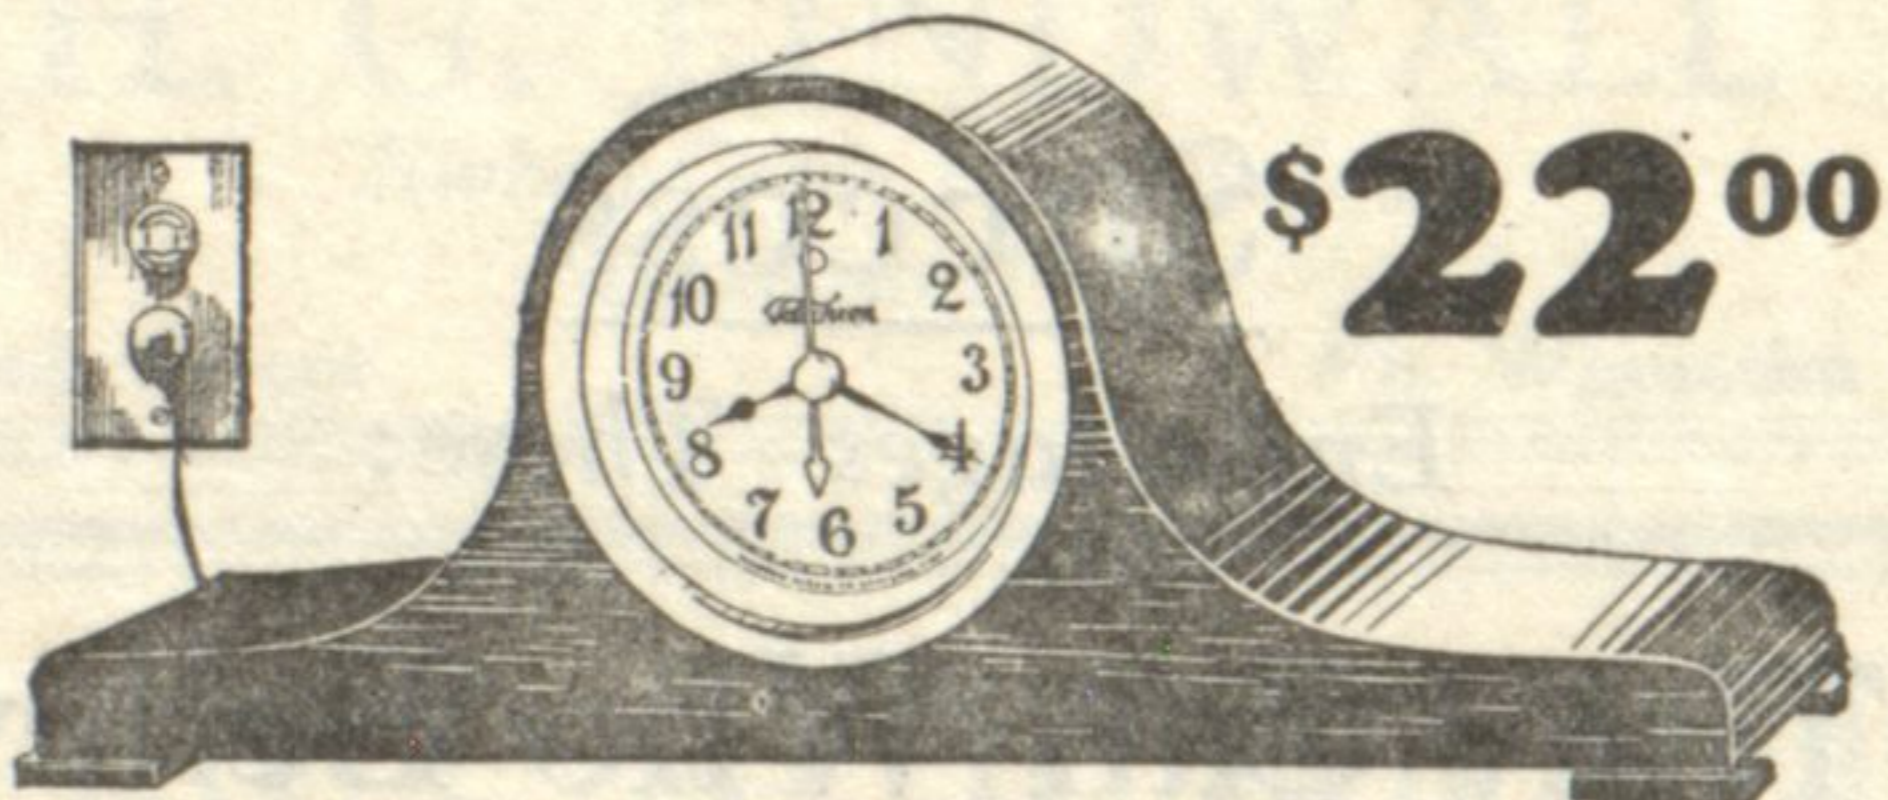

In the south, particularly, he said, there has been so much work of this character, but it has been done in a haphazard sort of way, without accomplishing the material results.

**Eliminate Guessing
from Timekeeping**

When you look at a Telechron, you KNOW that the time you see is the CORRECT time. Telechron is always right for it is regulated by our master timekeeper, which is checked with Observatory time.

Telechron
The ELECTRIC CLOCK

Popular Model

Handsome enough for any mantel and accurate always, this model Telechron is popular wherever it is seen.

HERE'S HOW

Time service by electricity in your home or office is possible because of the special instruments which we have installed in our generating station to keep our great turbines running at 100% accurate speed. These instruments are checked daily with radio time signals.

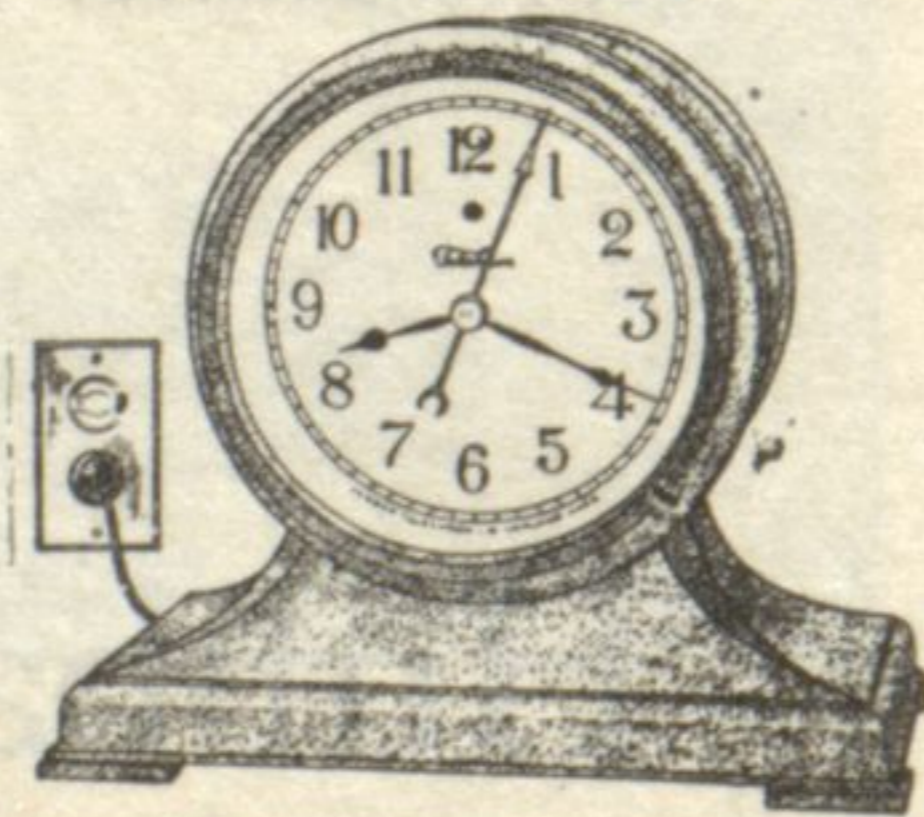

The Telechron is an extremely accurate electric clock operated by a tiny motor that keeps "in step" with the speed of our big turbines. By keeping our turbines running at the correct speed, we cause your Telechron and every other Telechron on our lines to keep exact Observatory time — whether five or fifty thousand of them!

**Commercial
Telechrons**

Wherever you need a large clock, we have the Commercial Telechron. It has a 12-inch dial, mounted in a durable hardwood case.
