HOOVER

**Give the Best!**

Naturally you want to give the best, particularly so when the gift is a vacuum cleaner which will last a lifetime.

Eight women out of every ten have chosen the Hoover as the "best"—that's sufficient proof of its probable success as a Christmas gift, isn't it?

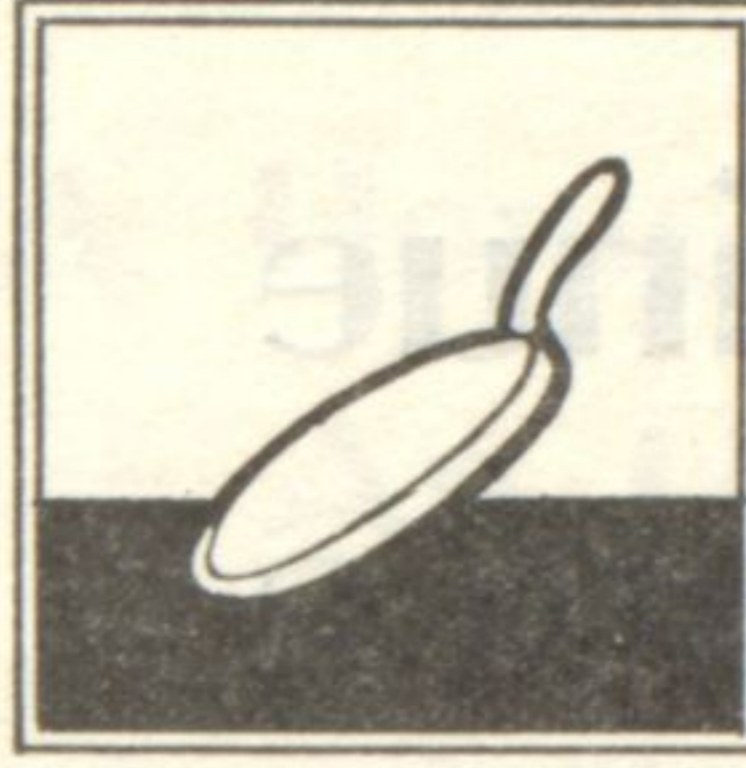

*If you already have a Hoover in your home, see our Hoover man about an inspection of it—free of charge.*

**Note These Savings in Our Housewares Room**

**Oval Waste Basket, \$1**

A shiny lacquer-like finish with modernistic design in gay colors. An inexpensive Christmas gift!

**Aluminum Griddle, \$1.19**

Heavy aluminum griddle which requires no greasing! Large enough to bake six cakes at one time.

**Colored Waage Irons, \$6.75**

A standard size iron of the famous Waage make. Can be regulated to medium, hot or very hot degrees of heat. In red, green, blue, yellow or plain nickel finish.

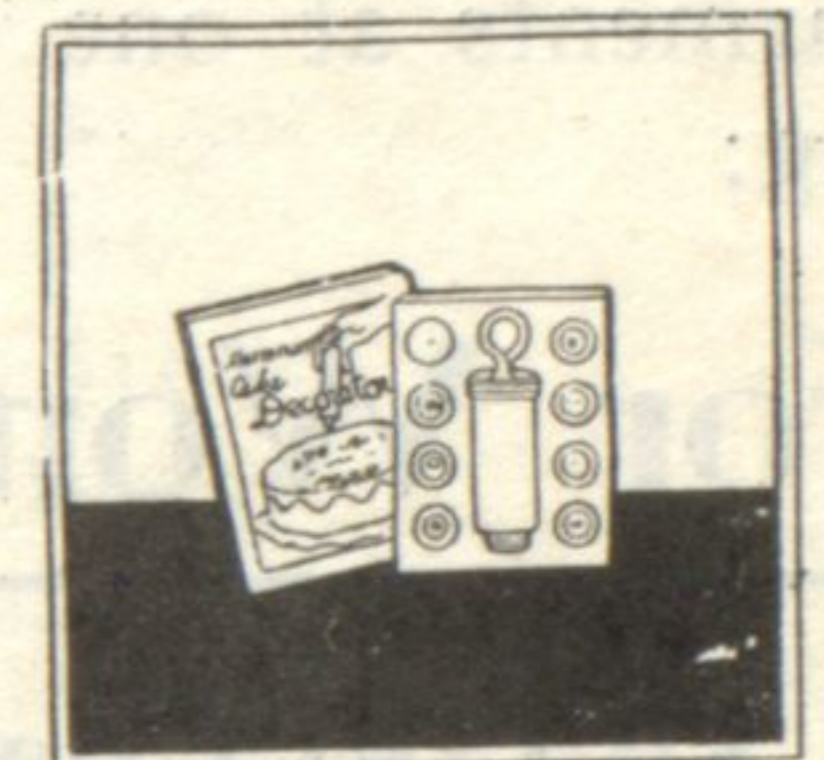

**Dessert Mold Set, \$1**

One large aluminum ring mold and six small ones for jello, frozen desserts of all kinds—and fancy cakes, too.

**Skillet and Cover, \$1**

A small pan of heavy aluminum with a tight fitting cover. The pan has colored handle to match your chosen kitchen color.

**Cake Decorator, 50c**

To make your cakes especially attractive for festive occasions during the holidays. Six different designs and a pastry tube.

**No Unwashed Dishes in A Home Where There's a Conover**

There's no need to stack the dishes and leave them until morning if you own a Conover. For they're washed, rinsed and dried in less than one half the time it takes by any other process.

This Conover process is not only a rapid, but also a scientifically efficient method of dishwashing.

Pots and pans, too, can be washed in a special Conover rack that is furnished with the machine.

Come in and inquire about the 21-Meal trial demonstration!

**Note these Features**

Approved by the Good Housekeeping Institute. No new plumbing required. Machine rolls back into the corner when not in use. An attractive addition to any kitchen.
