Bradleys Report Seeing

Chewink Last Wednesday

Mrs. C. W. Bradley, 174 Sheridan road, reports an interesting occurrence of last Wednesday. She and other members of her family saw a chewink on their grounds. Mrs. Bradley explained that the chewink usually is seen in this region only between early spring and midsummer. It is a bird about the size of a robin with red, black and white markings. The Bradleys are able to keep several mi-

gratory varieties of birds nearby all winter by buying a wide variety of seeds.
