Women Voters' News

The December meeting of the Winnetka league was held last Monday at Community House. After reports from Mrs. R. C. McNamara and Mrs. E. P. Bartlett, two of the delegates to the state convention at Moline, were heard the meeting was turned over to Mrs. A. J. Boynton, chairman of the Committee on International Relations.

Mrs. William Gold Hibbard, who serves as state chairman of the Department of International Co-operation, described briefly the steps which have to be taken before any document becomes accepted as a treaty under the laws of our country.

Professor David M. Maynard of the Department of Political Science of Lake Forest university explained in detail the steps already taken to make the Multilateral Treaty an accepted part of our international laws. This treaty, he pointed out, is the second peace plan the United States has offered Europe. The first one, which has found expression in the League of Nations, was accepted by Europe only

to be rejected after such acceptance abroad by our own Senate. After such an experience Europe has learned her lesson and while the majority of nations have signified their willingness to make the treaty a law, this time they are all playing the game of watchful waiting until they find out what the United States Senate intends to do with it.

Mr. Maynard stressed the point that the treaty has little legal value and depends for its worth on the moral interpretation put upon it by the peoples of the various nations including our own.

Mrs. George Friestedt and her workers from the Seventh precinct were the hostesses at luncheon at the Monday meeting.

By the audience of several hundred persons who heard Will Durant's lecture on, "Is Democracy a Failure?" last Friday at the Skokie school, the evening was called a great success. Dr. Durant talked for an hour and a half with such keen wit and entertaining a manner that his listeners were sorry indeed that there had to be an end to his brilliant discourse on what is wrong with our municipal and state governments. He advocated extensive and thorough theoretical and practical training and experience for the men who manage our public affairs before becoming eligible for public offices as the best solution for doing away with our crime ridden, corrupt departments of public affairs.

Mrs. A. Montague Ferry, president of the local league, and Mrs. H. L. Raclin, its treasurer, attended a luncheon conference of local league presidents and treasurers in Chicago, Thursday, December 13, at which Mrs. Walter S. Benson, of Winnetka, treasurer of the State League, presided.

The Chicago Forum of the Cook County leagues held a meeting Saturday, December 8, in the Florentine room of the Congress hotel. Between three and four hundred people listened to the presentation of both sides of the problem of the conduct of public utilities and joined in the open discussion after the speakers had finished. The State League Chairman on Living Costs, Mrs. W. Norman Graham, told the history of public utilities from the days of the Roman road and aqueduct building down to the present day problems and conditions.

W. S. Vivian, director of public relations of the Midwest Utilities cor-

ICE CREAM for CHRISTMAS

oh -- yes!

Witty's

Wherever our Ice Cream is eaten  
People admit it cannot be beaten.

In purity and flavor it is simply delicious.
