

**NORTH SHORE'S NEWEST SCHOOL**

Residents of New Trier Township who will gather at Skokie Playfield Wednesday for the annual New Trier outing will observe the construction nearby on the new Winnetka Upper Grade Public school building.

This structure was made possible by public subscription in a Fund campaign in which the people decided, in a thrilling school election, to have the modern educational center located in the Skokie at West Elm street.

The building will cost approximately \$350,000 every cent of which was obtained by free-will contributions ranging from very modest sums to donations of many thousands of dollars.

**First Trolley Car.**

The first street car in the world operated with a wire suspended overhead, commonly known as a trolley wire, was in Kansas City, May 1, 1885, on a line south of Westport, an extension beyond what was then known as the "Westport Horse Car Line."

**Ancient Roman Elections.**

Ancient Pompeians had both primary and general elections, similar to those we have in every town and city each spring. They were in the midst of an exciting local election, it is indicated, when Pompeii was destroyed in 79 A. D.

**Somewhat Overnamed.**

While the majority of parents are content with one or two Christian names for their children, there are others who must have a long string of them. Thus there was living in England a short time ago a woman who had a name for every letter of the alphabet, from Anne Bertha Cecilia to Winifred Xenophon Yetty Zeus.
