¶ When the cave man wanted help or a wife he strode forth, tapped one on the head, and dragged he or she to the tribal habitat.

¶ Civilization has placed certain restrictions and limitations about us which prevent this beautifully simple method.

¶ But it has given us the want ad, which costs but a few cents, and no physical effort.

Fastest Star Can't Be Seen.
The fastest star travels through space at a speed of about 300 miles a second. This celestial racer is invisible to the naked eyes, but has a number of other means of identification for the convenience of astronomers.

Dream Lore.
To dream of nets indicates that your lover or partner in life is not so fondly attached to you as you wish. To dream you are entangled in one denotes a wary and powerful enemy who will endeavor to use you for a tool.
