## THE GOLFERS MECCA: SCENE AT SKOKIE PLAYFIELD

Winnetka's Skokie Playfield in the Skokie, where north shore folk are to picnic next Wednesday, possesses one of the finest golf courses in the vicinity of Chicago. Golfing is the principal pastime at Skokie Playfield.

## "L" Road Tries Out Two-Guard Train Plan

Experiment To Economize on Operating Expenses of "L" Road; Two Guards for Five Cars

Northwestern "L" officials last week tried out the plan of having two guards on trains travelling through to the Linden avenue terminal. The idea is part of a program of economy in operating costs, it is said.

Britton I. Budd, head of the elevated system, said a number of experiments would have to be made before any final decision could be reached.

A system in the New York subway that has appeared to give satisfaction and reduced operating expenses, is based on mechanical operation of the train doors and a semaphore signal scheme. Using this plan a ten-car train has been operated with two guards.

"We have only begun to experiment in a small way," said Mr. Budd. "What the result may be cannot be foretold. In our test we used only two guards on a five-coach train. These stood between the first and second and the fourth and fifth coach gates. The two middle gates were locked. This meant that passengers could only enter at the front or rear doors."

### PRIZE LEGION TOWN

More than one-eighth of the population of Radcliff, Ia., is enrolled in the American Legion. The town has 156 ex-service men out of a population of 800 and every one of them is a member of the local Legion post.

## MANY NEW ROADS PLAN OF HIGHWAY BOOSTERS

Good road enthusiasts throughout the state are showing much activity in the "boosting" of local improvements according to highway builders and they report that more roads will be built in Illinois. According to highway statistics there are more than 95,000 miles of roads in Illinois and there is agitation on foot to make some improvement on every mile in the state.

Some of the roads, it is said, can be filled in sufficiently for travel during a good many months of the year, while others will be so improved that there need be but cessation of travel only during the worst winter months. Some of the mileage will be completed as permanent highways.

Most of the through route highways will be completed sufficiently to serve as "all the year round" roads. Organization of a number of trucking corporations to make regular schedule trips between towns has been completed and charters have been asked for at Springfield. A far reaching benefit is predicted as the result of the road improvement activities by shippers, merchants, and automobile organizations.

### This "Earth" Largely Water.

A trifle more than seven-tenths of the surface of the globe is covered by the waters of the oceans. The total area covered by the latter exceeds the total area of the lands of the world by 83,000,000 square miles. Reckoned in terms of quantity, the oceans contain 324 cubic miles of fluid, or 14 times the bulk of all the lands in the world above sea level.

## WOMEN AT LEGION MEET

More than 160,000 women, members of 3,400 units, will be represented at the first national convention of the Women's Auxiliary of the American Legion to be held at Kansas City simultaneously with the third national convention of the Legion October 31 to November 2. The Auxiliary has completed departmental organizations in more than thirty states. At the coming convention it will select a national headquarters and perhaps a new name. Wilmette boasts one of the first Auxiliaries organized in the United States.

### So There!

A woman writing in answer to a housemaid's advertisement received this missive: "Madame—You have a good name and address, but you write on a meesly half-sheet of paper, which shows me you are no lady, and as such and considering the paper you write on the place would not suit me, being accustomed to things being different."—Miami Herald.

**Wanted to Rent—6, 7 or 8** room home, preferably unfurnished. Phone Winnetka 879, or Wabash 9198.
