

Do We Agree?

"Real motor car value" is proved by Character and Permanency of Dealer---Serviceability of car---Service convenience---Popularity---Production volume---Scarcity---Used car value---Satisfied Owners.

Notwithstanding

A production volume too large to comprehend, more satisfied owners than that of all other cars combined, and ten times more used cars than any other car can boast---

New Ford cars are scarce and good Used Ford cars are not to be had except by reservation, from a Responsible Dealer.

The Reason

I cannot hold a "used car show" nor advertise used cars extensively because we sell them as fast as they are traded in. The good ones are spoken for before we get them. The others go to Chicago Used Car Dealers. If you want a large car, we can get one for you from buyers who wish to trade for a New Ford.

May we assist you? Ford cars sold on 12 months' time.
