SILLOAM.

FATAL ACCIDENT.—One of the saddest and most shocking accidents it has ever seen our painful duty to report, occurred last Wednesday, Dec. 5th, in Mr. T. H. Eckhardt's bush. Four young men, Arthur, Job and William Oldham and Thomas Wallace were cutting wood for Mr. Eckhardt. The Oldham boys were cutting down trees and cutting them into convenient lengths for drawing to the skid-ways for the purpose of cutting them with the sawing machine, while Wallace was cutting the limbs into cordwood. Shortly after dinner the Oldhams were cutting down a leaning maple about 28 inches in diameter, one chopping on the front side and the other two sawing on the other side. The sawyers cut about two inches past the heart while the chopper cut about seven inches on the other side, consequently the tree split, the part remaining attached to the stump tapered outward until about 15 feet above the stump, so that by the time the top of the tree had reached the ground the butt was elevated about 25 feet being balanced on the sliver and being shot back at the same time about 12 feet, now came crashing down on the side on which Mr. Wallace was standing looking on striking him on the back part of the head, killing him instantly. His skull was so badly broken that part of his brain fell out upon the ground. A carriage was procured to take him to his home which was about a mile away and his parents notified immediately.

On Friday his mortal remains were taken to Silloam Methodist Church, followed by 67 carriages and a large number of people who occupied every available inch in the building, while a number had to stand outside. A touching and appropriate sermon was preached by Rev. Mr. Wilkinson of Goodwood, after which the remains were again placed in the hearse and the procession slowly wended its way to the Goodwood cemetery where they were deposited in their last resting place. Deceased was of a quiet and kind disposition and was respected by everybody. He leaves an aged father and mother, five brothers and two sisters to mourn his untimely end.

The Methodists intend holding their Annual Sabbath School Christmas Tree on December 21st. A programme consisting of singing and dialogues will be given by the school. Admission 15 cents.

Cane's Factory is partly shut down this week, and a number of men are engaged taking stock while the machinists are taking advantage of the stoppage to attend to some repairs. They expect to put on all hands again Monday morning, but in the meantime a good many men are having a week's holiday.

The Wm. Cane & Sons Mfg. Co. has two large gangs of men at work in the woods getting out next years supply. The pine timber will come from the 6th of East Gullinbury and the Paul and clothspin timber from the Old Survey of King. As soon as the snow comes they expect to commence rolling it in and fill up the vacant lots again.

SUNDAY SKATING.—Some half-dozen boys who were amusing themselves on the pond Sunday, were too lively to be caught by the Constable, but their names were handed to the Inspector, and if seen there again, will be summoned before the Mayor at the Police Court. If they are too thoughtless to have any respect for themselves, they should have some consideration for the feeling of their friends and not thus disgrace them.—Era

MOUNT ALBERT.

Messrs Arnold Shuttleworth and Peterson have arrived safe from the north after a few weeks hunt they report deer getting scarce they brought home five fine ones with them and had three very large ones destroyed by wolves.

Some of our young gents from our Model School threw some stones at the Assistant-teacher and broke the glass in the cover of her mothers buggy and one of them struck her in the face; we hear the master has to march them home like soldiers. Think it would be a good act to march some of them to the lockup, a thing Mt. Albert badly needs.

Three gentlemen staked town from Coldwater and have arrangements with Mr. Alexander Fletcher to make tracks on the east end of his farm. May success attend them.

Mr. Brook is building a fine residence on the hill. Guess Earnest means to splice soon.

GOODWOOD.

There has been organized in this village a Mutual Improvement Society with Mr. Geo. Dowell as President and Mr. A. B. A debate was held on Monday night on the respective merits of city and country life and was decided in favor of the negative side. Next Monday evening the great question is marriage a failure will be discussed the affirmative side being led by Mr. Surby and the negative by B. S. Davidson. We look forward to an interesting debate on this subject.

CATARHS.

CATARHS. DEAFNESS. HAY FEVER.

A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact and the result is that a simple remedy has been formulated whereby catarhs, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N. B.—For catarrhal discharges peculiar to females (white) this remedy is a specific. A pamphlet explaining this new treatment is sent on receipt of ten cents by W. H. Dixon & Son, 303 West King Street, Toronto, Canada.—Scientific American.

Sufferers from catarrhal troubles should read the above carefully.

CHRISTMAS NUMBER OF THE GLOBE.

A word to the wise is sufficient they say. To those whom it may concern we would tender the friendly advice that if they think of securing copies of THE CHRISTMAS GLOBE mentioned in our advertising columns, the safe plan is to get the order in early. Any news agent will take orders or they may be sent to THE GLOBE direct. The promise is given by THE GLOBE management that this number will be an improvement upon anything of the kind hitherto issued, and those who know THE GLOBE's record—as what Canadian does not—need not be told that this promise will be kept. The features of the edition will be as to mechanical make up, new type, beautiful illustrations, fine paper, printed on a new press by the most skillful work in the Dominion; as to literary merit, contributions in the form of verse, fiction or sketches from the best native writers; and as to artistic qualities, a profusion of fine wood-cuts illustrating the literary matter from designs by the best artists; and also three magnificent colored presentation plates, the principal one a view from Vancouver Park B. C., by Mr. L. R. O'Brien, the leader in this branch of art in Canada. The price of the whole is only 25 cents, so that this splendid paper is within the reach of all.
