

DISTRICT NEWS.

ATHA.

The people in this locality, as well as the rest of the world, are looking forward for sleighing.

The Christmas Tree on Thursday evening and the examination on Friday afternoon, held by the Public School, were well attended.

Our worthy teacher, Miss Maggie Irwin, left on Saturday morning to spend the holidays with friends at Chatham.

NEWMARKET.

On Saturday last as Wilnot Lehman was driving Robertson's bread-waggon up to Dale's store at the north end of the town the horse took fright at a robe that was being hung out in front of the store, and ran away throwing Wilnot out, striking his head on the hard road. He was brought home in an unconscious state and on Drs. Bentley and Widdifield examining him they found no bones broken. He has lain unconscious almost ever since, but is now quite rational and hopes are entertained of his recovery.

Many people have called and much sympathy is felt for the sufferer.

BLOOMINGTON.

Mr. Byron Jones and Mr. and Mrs. Hartman Jones are home for the holidays.

The Sunday School social on Thursday night Dec. 20th. was not so well attended as is usual, but those who were present spent an enjoyable evening. Plenty of good viands were provided by the ladies, speeches by Rev. Messrs. Brown and Wilkinson music by the choir and recitations, readings and dialogues by the scholars. The door receipts were about \$24.

At the annual school meeting on Tuesday, the usual routine business was transacted and Mr. M. Rae was re-elected trustee.

CLAREMONT.

Friday December 21st will be long remembered with mingled feelings of pride and pleasure. During the day a public examination was held in the school. Messrs. C. N. Callender, T. A. Brown and W. J. Stark assisted in the examination and the pupils gave strong evidence of the good work, which the teachers, Mr. S. G. Brown and Miss H. Smith have been doing during the past year. At the conclusion of the examination Mr. Duncan McNabb was appointed chairman, and by the way, Mr. McNabb makes an excellent chairman. A short time was spent in hearing addresses from the clergy men, teachers, trustees and others who were present. There seemed to be but one opinion regarding the teachers and that was very flattering to the teachers.

In the evening a concert was held in the town hall under the auspices of the school and seldom have the public an opportunity to attend so good a concert outside the walls of a city. The singing of "The Fishermen" by Miss Baker and Dr. Halliday was especially worthy of praise and the enthusiastic audience recalled them again and again. Miss Leelan, elocutionist from Toronto and Miss Smith, teacher in Claremont, earned hearty applause, and in fact all who contributed to the programme, acquitted themselves to the entire satisfaction of the audience. After the concert Mr. Brown gave an oyster supper at the Queen's to those who had taken part in the proceedings of the day and evening and availed himself of the opportunity to thank those present for their assistance. Dr. Halliday in behalf of the guests made a happy reply. The company then separated carrying with them pleasant recollections of their day in Claremont.

JUDEX.

How to Cure Headache - Some people suffer untold misery day after day with headache. There is rest neither day or night until the nerves are all unstrung. The cause is generally a disordered stomach, and a cure can be effected by using Parmelee's Vegetable Pills, containing Mandrake and Dandelion. Mr. Finlay Wark, Lyander, P. Q., writes, "I find Parmelee's Pills a first-class article for Bilious Headache."

PALESTINE.

Scarcely had the dark sable death cloud withdrawn which so recently overshadowed our thriving little town, scarcely had the bereaved mourners recovered their accustomed cheerfulness, when death returned and claimed as its victim, the youngest one of the number. Up to the time of its sudden departure, the deceased was of a vigorous constitution, giving evidence of an extended life of usefulness. But alas! Disease had fastened its deadly fangs upon her and threatened her speedy destruction. Dr. T. was peremptorily summoned who soon located the disease, but thought it useless to prescribe, being confident that the patient would die. However it was thought best to call in another physician, with a view to a consultation. Dr. Jones was, accordingly, speedily summoned, who after a careful diagnosis of the case agreed with Dr. T. that the trouble was in the throat and required speedy treatment or the patient would soon die of strangulation. The medical gentlemen while agreeing in their diagnosis of the case, differed widely in their manner of treatment. Dr. T. thought the only way to give relief to the sufferer, was to force a rod down its throat, thus forcing the accretion to return back to the place of entrance. In the meantime Dr. Johnson happened to drop in and gave his advice, and immediately proceeded to treat the case, by lifting the patient in his arms and giving it a vigorous shaking with its head downwards, offering as an apology for such barbarous treatment, that urgent and dangerous cases require heroic treatment. Now whether it was the disease or the treatment that caused the death of the patient I am unable to state. It is safe to conclude however, that if it was not the treatment, it must have been the disease. At all events after about thirty hours of intense and almost indescribable agony death came and put an end to its sufferings. Dr. Jones in order to satisfy himself as to the actual cause of death held a post-mortem. To his astonishment and surprise he found the alimentary canal perfectly clear and in its normal condition. The lungs were perfectly sound and healthy affording ample security against that fell destroyer, consumption, which had been the fruitful cause of the removal of other members of the family. After a careful examination of the digestive organs, Dr. Jones was of the opinion that the real cause of death was not obstruction of the alimentary canal, but congestion of the Renet.

CATARH.

CATARRHIAL DEAFNESS—HAY FEVER.

A NEW HOME TREATMENT. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose, and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated whereby catarrh, catarrh, deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N. B.—For catarrhial discharges peculiar to females (white) this remedy is a specific. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. DIXON & SON, 1393 West King Street, Toronto, Canada. Scientific American. Sufferers from catarrhial troubles should read the above carefully.

The First Symptoms

Of all Lung diseases are much the same: feverishness, loss of appetite, sore throat, pains in the chest and back, headache, etc. In a few days you may be well, or, on the other hand, you may be down with Pneumonia or "galloping Consumption." Run no risks, but begin immediately to take Ayer's Cherry Pectoral.

Several years ago, James Birchard, of Darien, Conn., was severely ill. The doctors said he was in "Consumption," and that they could do nothing for him, but advised him, as a last resort, to try Ayer's Cherry Pectoral. After taking this medicine, two or three months, he was pronounced a well man. His health remains good to the present day.

J. S. Bradley, Malden, Mass., writes: "Three winters ago I took a severe cold, which rapidly developed into Bronchitis and Consumption. I was so weak that I could not sit up, was much emaciated, and coughed incessantly. I consulted several doctors, but they were powerless, and all agreed that I was in Consumption. At last, a friend brought me a bottle of Ayer's Cherry Pectoral. From the first dose, I found relief. Two bottles cured me, and my health has since been perfect."

Ayer's Cherry Pectoral, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.
