A circular from the Educational Department states that the next entrance examination to High Schools and Collegiate Institutes will be held on the 4th, 5th and 6th of July next. It is expected that henceforth there will be only one examination in each year and that in July.

"I saw your new play last night, Charlie," remarked a friend, "and I was delighted with it, save one thing. You kill your characters all off in the last act."

"Well," answered the young playwright, "what could I do?"

"Why, kill them all off in the first act." —The Epoch.

Somebody has been abusing an editor you may bet when he breaks out in this manner:— "It is astonishing what terrible insults some people can find in a newspaper, when they get their back up at the editor and commence reading between the lines. The editor's sins of omission are then transformed into crimes committed."

Mr. Thos. Conant of Oshawa received from the United States Fishery Department at Washington, a fine lot of healthy carp, which he has placed in the bay at the Port, and for which the thanks of the community are really well-earned. The fish were strong and lively, measuring about four inches in length, and give promise of food and fun for anglers, who may be clever enough to catch them.

A correspondent of the Aurora Banner writes:—"The sad intelligence reached your correspondent last week that a poor unfortunate had suicided. Upon making inquiries we found it to be too true. The unfortunate referred to had lived in this vicinity for some years, but still had scarcely passed the prime of life. He was lacking in intellectual powers, has been seen pursuing birds and butterflies, and sometimes it was necessary to tie him up. He was of Scotch descent, and was known by the name of "Scotty." The poor fellow was tied in the barn at the place where he had been living, and wishing to get loose, and no one coming to his relief, he jumped over the barn door and hung by the neck until he died. No doubt his hide would make a good pair of dog-skin mitts, if properly tanned.

For the restoration of faded and gray hair to its original color and freshness, Ayer's Hair Vigor remains unrivaled. This is the most popular and valuable toilet preparation in the world; all who use it are perfectly satisfied that it is the best.

DOMINION PARLIAMENT.

As was intimated in the speech from the throne the new Franchise Bill has been introduced in the House of Commons. We clip from the Globe the following summary of the proposed scheme:

The list now being printed (which are those of the last revision, in 1886) in the Government printing office will be sent to the respective revising officers, who will use them as the basis of the new list. After the first of June each revising officer will make up a supplementary list from the assessment roll, electoral list, and such other information as is available to him, as provided for under the present franchise law and as was supposed to be done on the only occasion when lists were prepared under the Act. This supplementary list shows both those to be added to and those to be struck off the lists, as well as corrections to be made. These being returned to the Queen's Printer, changes will be made accordingly, and the lists, thus preliminarily revised, sent to the revising officer again, by whose direction they will be posted up and a day fixed for hearing parties who wish to be heard at the final revision. The changes made at this final revision will be sent to the Government printing office and the lists corrected accordingly, and thus corrected they will be final. Another provision of the bill was to establish polling sub-divisions, each one containing not more than 250 votes, instead of 300, as at present. In other respects Sir John promised that the present law will be materially simplified and the cost of its administration reduced.

Other bills to be considered refer to Commercial Law, to assimilate the laws of the different provinces on the subjects of bills of exchange, checks and notes, to prevent frauds by tree peddlars and other fakirs who prey upon farmers.

Rev. J. B. Huff, Florence, writes:—"I have great pleasure in testifying to the good effects which I have experienced from the use of Northrop & Lyman's Vegetable Discovery for Dyspepsia. For several years nearly all kinds of food fermented on my stomach, so that after eating I had very distressing sensations, but from the time I commenced the use of the Vegetable Discovery I obtained relief."

To Save Life

Frequently requires prompt action. An hour's delay waiting for the doctor may be attended with serious consequences, especially in cases of Croup, Pneumonia, and other throat and lung troubles. Therefore, no family should be without a bottle of Ayer's Cherry Pectoral, which has proved itself, in thousands of cases, the best Emergency Medicine ever discovered. It gives prompt relief and prepares the way for a thorough cure, which is certain to be effected by its continued use.

S. H. Latimer, M. D., Mt. Vernon, Ga., says:—"I have found Ayer's Cherry Pectoral a perfect cure for Croup in all cases. I have known the worst cases relieved in a very short time by its use, and I advise all families to use it in sudden emergencies, for coughs, croup, &c."

A. J. Ellison, M. D., Middletown, Tenn., says:—"I have used Ayer's Cherry Pectoral with the best effect in my practice. This wonderful preparation once saved my life. I had a constant cough, night sweats, was greatly reduced in flesh, and given up by my physician. One bottle and a half of the Pectoral cured me."

"I cannot say enough in praise of Ayer's Cherry Pectoral," writes E. Bradson, of Palestine, Texas, "believing as I do that, but for its use, I should long since have died."
