

THE TRIBUNE,

STOUFFVILLE, AUG. 2, 1889.

The marriage of the Princess Louise of Wales to the Duke of Fife was celebrated with due ceremony in the royal chapel on Saturday last. The match appears to have been a regular love affair and not dictated by any diplomatic arrangement.

MATTERS in connection with the Behring Sea Seal fisheries appear to be reaching a crisis. The British schooner Black Diamond was seized on July 11th by the U. S. Revenue cutter Rush. The Americans evidently entertain a desire to possess the heavens and the earth and the waters that are under the earth, especially the latter. On one side of the continent they think a three-mile limit too wide, but on the other they object to setting any limit whatever.

LEAN PORK THE BEST.

The cheapest foods make the best pork. The reason is, it is the leanest. Lean pork then being the best, we should try to make it. Confinement in pens tends to increase the fat. Exercise develops the muscles. The muscular part is the best food. The fat is largely waste. We make fat to throw it away. People buy hams, not for the fat, but for the lean. When the fat is wasted it makes the lean cost just so much more. Reduce the fat and increase the lean.

Can this be done? Certainly. In this way. Keep the pigs all their lives in the pasture. Feed skim-milk and bran. Keep corn away from them. Give them vegetables and apples with the bran. When the bodies or frames are grown, give them oatmeal or rye, ground entire, mixed with bran, putting in twice as much bran as rye. Keep up the vegetable and apple diet and allow them during this time to eat all the grass they will. A little corn may be fed towards the end. Pork made in this way will have more lean, and will be tender and juicy. At Kirby Homestead, with our breed of hogs, and using turnips, we have produced hams seventy-five per cent lean. The fat is something more than mere lard—animal oil. It is meat, with the substance and grain of meat. To get such pork is worth trying for, as it is in demand. The sausage and the other food products made from such pig meat are superior in quality and taste. There is a tenderness and flavor which enhances the value. Pigs should not be fed so much or gorged to such an extent that they will not go out to pasture.—American Agriculturist for August.

Why suffer from disorders caused by impure blood, when thousands are being cured by using Northrop & Lyman's Vegetable Discovery? It removes Pimples and all Eruptions of the skin. Mr. John C. Fox, Olinda, writes, "Northrop & Lyman's Vegetable Discovery is giving good satisfaction. Those who have used it say it has done them more good than anything they have ever taken."

One of the regulations recently issued by the inland revenue department contains a paragraph which reads thus: "The operation of 'mashing' shall only take place between the hours of 8 a.m. and 5 p.m., and at the time when the officer in charge has been notified, by entry in the notice book that such mashing is to be made. Such notice to be given at least 24 hours previous to commencement of operations." The uninitiated reader might infer from the foregoing that Mr. Foster, our minister of finance, had constituted himself an oracle on the subject of courtship and marriage; and having settled the great question as to the remuneration of government charwomen, had undertaken to restrict the prosecution of the flirtation or mashing business; but on inquiry it has been ascertained that the regulation quoted applies to the business of making malt vinegar. And everybody knows that no vinegar is used in the ordinary "mashing" business.—Ottawa Free Press.

Fever and Ague and Bilious Derangements are positively cured by the use of Parmelee's Pills. They not only cleanse the stomach and bowels from all bilious matter, but they open the excretory vessels, causing them to pour copious effusions from the blood into the bowels, after which the corrupted mass is thrown out by the body. They are used as a general family medicine with the best results.

PICKERING COUNCIL.

The township council met in the town hall, Brougham, on Monday, July 22nd. All members present; Reeve Mackey in the chair. Minutes of last meeting read and approved.

Communications and accounts were handed in from various sources.

History of British Columbia

From the earliest period to the present time.

By HUBERT HOVE BANCROFT. Now ready, complete in one volume, with sectional maps, plans, and index. A book full of startling incidents and thrilling romance. A matchless work, by an author of great repute, and is also the only history of this section extant.

Agents Wanted Everywhere. The immense area covered by this volume is rapidly filling up with intelligent and enterprising settlers, who are making here their homes. They all want to know the history of the country as well as their friends, and those who have business connections with them who do not go there. Here is a country as large as the United States, and this volume must ever constitute the foundation of its history.

FROM \$5 TO \$20 A DAY can be made by agents. Every one of the hundreds of thousands of people interested in this country, and in the history of the world, one part with another, will buy this book. It is wholly unbiased, and though full of startling detail, it is thoroughly sound, practical, and philosophical.

Good earnest workers desiring territory should apply immediately, and in order to secure it instantly send \$1.35 for a complete canvassing outfit, and name choice of territory. Extra liberal terms guaranteed. No experience or capital required, as the book will sell itself if properly presented and we give our agents thirty days' time in which to deliver and collect.

Address, THE HISTORY CO., 723 MARKET ST. SAN FRANCISCO CAL.

The extent of the popular opposition to any further additions to the burdens in maintaining the royal family is greater than the recent vote in the British House of Commons would indicate. It cannot be supposed that the tenant farmers who are subject to American competition in their own markets, or the manufacturers who see their rivals in Germany, Belgium and France always becoming stronger, look with pleasure on the prospect of seeing their burdens increased by an extravagant provision from the public purse for an indefinite number of the Queen's grandchildren. The murmurs of the discontented have been restrained to a certain extent by the personal virtues of the reigning sovereign, but even if that influence could exist forever it would prove insufficient some day to prevent the repressed feeling from finding vent.—Telegram.

The great lung healer is found in that excellent medicine sold as Bickle's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passages, and is a sovereign remedy for all coughs, colds, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

This is unhappily an age of skepticism, but there is one point upon which persons acquainted with the subject agree, namely, that Dr. Thomas' Electric Oil is a medicine which can be relied upon to cure a cough, remove pain, heal sores of various kinds, and benefit any inflamed portion of the body to which it is applied.

The funeral of Mr. T. World and his daughter Lily, who were drowned in Toronto Bay on Saturday, while boating was very largely attended, and much sympathy is felt for the bereaved. The body of young Woods who was drowned in the Bay on the same day, has been recovered.

A lad of six years, named Vincent McMahon was drowned in Rice Lake on Tuesday. He fell off the hurricane deck of the steam yacht on which a party from Port Hope were pleasuring, and his body was not recovered. On the way home the party was tumbled over the embankment and the rest of the party more or less injured.

The Huntsville temperance camp meeting broke up Wednesday. The event has been such a success that the grounds will be purchased and the camp meeting be made a yearly affair.

At Fergus on Tuesday night a young man named Patrick Haley stabbed a young lad six times so that she will probably die. A dance was being held after a barn-raising at Mr. Elam Ellis's and it is supposed that Haley's motive for the crime was jealousy. It is thought that Haley will be lynched if captured.
