**\$500,000 TO LOAN.**—At lowest rates of interest by Taylor & Sangster, Barristers, Daley's Block, Stouffville.

**MYSTERY.**—Some startling hand bills with the above heading are being extensively circulated in and around the village this week announcing a marvelous display of skill and magic in Daley's Hall on Friday and Saturday evenings this week. If the show is as good as announced it is certainly worth seeing. The admission prices being only 15 and 10 cents.

Don't forget Spofford's Grand Complimentary Concert, Dec. 13th. See adv. on last page.

**PEGGING AWAY.**—D. Stouffer & Co. have five shoemakers; as busy as busy can be. This speaks for itself with reference to the popularity of their home made work.

**SNOW.**—The two days of snow have produced a very fair article of sleighing and a great many bells-jingled in our streets on Thursday. Another not so pleasant feature of the weather is the necessity for shoveling snow. Our citizens are very faithful in doing this duty and are not backward in mentioning it to a neighbor if he should be a little late in keeping his walk clean.

**HUNTERS.**—We are indebted to Mr. John Bartholomew for a very generous and juicy piece of venison. He, in company with Messrs. Jas. Mustard and J. H. Hamer, returned from a trip to Longford where in three days they bagged four fine deer. They returned on Saturday last. Another party of which Lewis Bartholomew was one, had even better success, capturing six, one of which was an exceedingly fine specimen of the antlered tribe.

**TENNESSEIANS.**—The famous company of Jubilee singers gave a concert on Thursday evening of last week. The audience was fairly large considering the state of the weather and thoroughly appreciative. "Mr. Pro Phundo Basso" rolled out his low notes like the grumbings of distant thunder. There were a few disturbers of the peace among the crowd who ought to know better than spoil their neighbors enjoyment of the music.

**SALE.**—On Saturday Dec 7th, there will be offered for sale at the Queen's Hotel here, a valuable farm in the Township of Uxbridge, a part of the estate of the late R. Knill. The farm comprises the west half of Lot No. 20 in the 1st Con. Uxbridge. The terms are easy and will be made known on day of sale. Further particulars may be had of Fred W. Hill, Solicitor for administratrix, or from Jas. O'Brien, Auctioneer.

Spofford has a great handkerchief sale going on. He is selling 4 for 5c. worth 4c. each, 6 for 25c. worth 10c. each, and 2 for 5c. worth 6c. each. Just go and see them, he has 500 dozen.

**PAY UP PLEASE.**—"Times are hard" is pretty much of a chestnut, and par-takes of the nature of the remark, "Snowing, aint it?" when a fellow's eyes are so full of snow so that he can't see the crank hit him. But "hard times" is no joke around a newspaper office. If you want to see a heavenly smile illumine the editor's emaciated countenance just drop in and pay him the little balance you owe him for the last year or two's subscription. Several have done so recently and received smiles(?) for dollar every time. We have a large stock of grins and receipt books on hand and shall be glad to see you. Take a look at your address label and see if you are in arrears.

## ROUND ABOUT US.

**NOTES GOT BY HOOK OR BY CROOK WITH SCISSORS OR PEN IN HAND.**

It is said that the Quebec Legislature will be called for the despatch of business on January 15th, the same day as the Dominion Parliament.

The superintendent of the Savings Bank branch of the Dominion Post-office announces that the Department of Justice has decided that under the special circumstances the losses arising out of the frauds committed by the late Assistant Postmaster Burns, of Kingston, should be made good to the depositors.

Rev. Dr. O'Reilly, treasurer of the Irish National League in America, who has been on a visit to Ireland, said that he regretted since his last visit, 22 years ago, to find "the best, the noblest, and most intellectual of the Irish people imprisoned behind bars like wild beasts simply because they had made constitutional efforts for the regeneration of their country."

A Yarmouth (N. S.) paper is responsible for the following: "A respectable gentleman went to the cars one day to see his favorite daughter off. Securing her a seat, he passed out of the cars and went round to her window to say a parting word. While he was passing out the daughter left her seat to speak to a friend, and at the same time a grim old maid took the seat and moved up to the window. Unaware of the important change inside, he hurriedly put his face up to the window and said, 'One more kiss, sweet pet!' In another instant the point of a cotton umbrella was thrust from the window, followed by the pious injunction, 'Seat, you grey-headed wretch!' He scattered."

## WHEN SHALL WE GET BETTER MEAT.

1st. When we have better bred animals. Cattle and sheep not kept principally for milk and wool, but for beef and mutton.

2nd. When we stop starving our calves and lambs, and feed liberally from the start to the end.

3rd. When we feed better grass. Our pastures are often disgraceful. If land is too rough to plow and too poor to grow white beans or buckwheat, we keep it in pasture; or if it is naturally rich, alluvial land, we let the water drown out the valuable grasses, and weeds, rushes, and coarse grass take their place.

4th. When we make a regular business of fattening a few cattle and sheep every winter.

5th. When people are educated sufficiently to know good meat from bad—especially to know fat from tallow.

6th.—We will not say that we shall have better meat when people are willing to pay for it. In all conscience the butchers charge is enough now! People are willing to pay a good, even an extravagant price for good meat; if they are certain of getting it. But the truth is that we pay big prices for poor meat.

Mutton sold for fourteen cents per pound that, as compared with good, well-fatted beef, is not worth five cents a pound. From sixty to seventy per cent of it is water. After deducting the water, the bone, the tough skin, the hard sinews, gristle and tallow, how much tender juicy, nutritious flesh and fat are there left? A friend of ours, who is somewhat hasty in temper, was carving such a piece of beef, when he suddenly jumped up, taking the beef with him on the carving-fork, and rushing to the butcher shop threw it at the head of the man who sold it to him. We could almost wish that every butcher who sells such stuff could be served in the same way—or, better still, we wish people knew what good meat is, and would stop buying poor lean meat at any price.

Let the sausage-makers have it, or the manufacturers of fertilizers.

7th. We shall have better meat as soon as we learn that putting butter on a dinner table is neither "stylish" nor economical. This practice of having butter at dinner, "joined with the inability to tell tallow from fat," is one of the chief reasons why many people object to fat meat. They do not know that fat is fully as nutritious as butter, and far more palatable than poor butter.—American Agriculturist for December.

**Out of Sorts.**—Symptoms, Headache, loss of appetite, furred tongue, and general indisposition. These symptoms, if neglected, develop into acute disease. It is a trite saying that an ounce of prevention is worth a pound of cure, and a little attention at this point may save months of sickness and large doctor's bills. For this complaint take from two to three of Parmelee's Vegetable Pills on going to bed, and one or two for three nights in succession, and a cure will be effected.
