J. W. SHANKEL, PROP

Markham Tp. Council

Council met at Unionville on Tuesday, Oct. 13th, with all the members present.

After the minutes were read and adopted, the Clerk read these communications;—

From W. L. Smith, secretary of the Fairmers' Association, re taxation.

From A. G. Brown, Clerk of Stouffville, re repairs to stone crusher.

From Frank A. Reesor, relative to bridge broken on con. 11—re Samuel Reesor, damages to traction engine.

Francis—Hoover—that the account for work and repairs to Yonge po[illegible] be paid—$60.74.

On motion Councillor Morrison was appointed to repair culvert on 5th concession, lot 6.

Francis—Harper—that Messrs. Morrison and Hoover be a committee to interview Mr. Samuel Reesor, re damages sustained by breaking through bridge on 11th concession, and report at next meeting.

Hoover—Harper—that the tollgate house on Yonge street, at lot 33, be sold to best advantage, and that Mr. Francis be commissioner to sell the same, along with commissioner appointed by Vaughan, if the township agrees to sell.

Hoover—Francis—that Mr. Morris be commissioner to repair the bridge at lot 5, con. 8, and bridge on same lot 8, con. 9, and culvert between cons. 9 and 10, south townline, also culvert on 11th con. opposite lot 10, amounts to be on his order when work is completed.

Harper—Morrison—that the reeve be appointed a delegate to act with delegates from other municipalities in reference to the Pettypiece bill.

Harper—Francis—that Mr. Morrison be commissioner to cut down trees at railway crossing, con. 9.

Harper—Francis—that Frisby Bros be paid for roadwork $81.30.

Council adjourned until Nov. 10th.

Stouffville Council

A special meeting was held on Monday evening, members all present, the Reeve in the chair.

The matter relating to Mr. Arnold's children was considered and steps taken to endeavor to have them sent where they will be properly cared for.

Mr. J. H. Ratcliff appeared in behalf of The Stouffville Brass & Steel Works asking for the submission of a by-law with the view of the corporation giving a loan of $12,000 to the company for the extension and improvement of their business. After the matter had been discussed for a time, Mr. C. Russell Fitch, solicitor for the corporation, pointed out that according to Statute the Council could loan only a sum, the annual interest on which together with the annual amount required for the sinking fund, would amount to ten per cent. of the general taxation. The amount of taxes levied for the current year is about $5,600, therefore $560 would be about the largest sum that could legally be raised in any one year to meet the payments on a bonus or loan. Should the loan be $12,000, as asked for, the annual interest would be about $500 thus leaving only $60 to be applied towards the sinking fund. It was decided that no action be taken on the proposition in its present shape.

A number of by-laws, which had been revised and amended, were brought up for consideration, and after receiving several readings were finally passed.

GREATEST THING IN MAPS.

While the whole country has been calling for a new up-to-date map of Canada and all the Provinces showing projected Transcontinental Railways with Alaskan boundary and the lines claimed by both countries, it has been left to the publishers of that great national newspaper, the Family Herald and Weekly Star of Montreal, to give the world what it has been looking for. These maps, it will surprise the country to hear, are printed on fine paper, beautifully engraved, every boundary actually traced, being at once the finest map of Canada yet produced. It is timely and of inestimable value. We understand no copies will be sold under $2.50 each, but each yearly subscriber of the Family Herald and Weekly Star will receive the great map together with the autumn premium pictures. New subscribers and renewals will get the maps as soon as they are out of the engravers' hands, but every one will be served exactly in the order in which they subscribe or renew. The Government of Canada will have the use of a set of these Family Herald Maps.

GENERAL NEWS

Hon. Edward Blake is seriously ill at Florence, Italy. He is suffering from nervous breakdown.

The Standard Oil Company of the United States has this week raised the price of coal oil another cent per gallon. This is expected to affect Canada also.

Horse distemper is epidemic in the county of Thornhill, and several animals are under treatment by the local veterinary. The disease is said to have been brought there from King.

While operating a shaper last week at the Lount Brush Handle factory, Markham, one of the employes, Master Gowland, had the end of his thumb taken off. This is the second accident at that factory inside of a week.

A couple of gentlemen were in Bradford last week to examine and secure specimens of peat from the marsh. A carload of waggonloads were obtained and taken to Beaverton to be dried in the new drying machine there. The object of these gentlemen is to test this peat to see if it is suitable for the manufacture of cardboard. If so, it is said that a large factory will be erected at Bradford in the near future.

The Bible Society is the great ally of all branches of the church in Foreign Mission work. No application for a grant of Scriptures has ever been denied, every request to print the Word in a new tongue has been granted.

The Bible Society has issued more than 180 million copies in whole or in part in 370 different languages and dialects, and at a cost of 68 million dollars. Two hundred and sixty-three languages and dialects were added to the Society's list during the reign of Queen Victoria—the noblest achievement of that glorious reign.

The Bible Society knows no denominations as such, the Society is the willing servant of all. Its unalterable policy from the beginning has been to give the Word without note or comment, in the language of the people, to all the nations of the world.

Half a million telephones have been installed on the farms in the United States in the last five years. In business and social intercourse they are found a great convenience. It is now a common practice for the country doctor to give directions by telephone for curing for the patient, both diagnosing and prescribing. In Illinois the speeches of a recent political convention were listened to by the farmers on a rural system as they sat in their homes from sixteen to thirty-six miles away. Being in speaking distance of his neighbor, not only does the farmer feel a new sense of personal security, but he knows that his belongings are safer from molestation than they ever were before. The telephone has been instrumental in causing the arrest of many horse thieves and outlaws, and in some districts the farmers have almost broken up chicken stealing and petty larceny by telephoning the police and commission merchants of their losses, and thus enabling prompt arrests to be made.

Now that the United States has succeeded in excluding us from Yukon by way of the ocean, excepting by passing through inlets and over territory which we must now acknowledge as belonging to the United States according to the award, we presume that a railway to Yukon from British Columbia will be projected almost immediately. Necessarily we must have such a railway, because as it is the United States may harrass our commerce at any time with all sorts of customs vexations. This has been the experience of our merchants and shippers already, and there is no reason to expect that matters will improve now that the United States has a clear title to the ports. Of how much importance this is to Yukon, and how much more important Yukon is than Alaska are shown by the fact that the output of gold from Alaska to the United States last year amounted to only $3,279,255, while the Canadian gold exported to the United States from Alaskan ports amounted to $10,013,280. Under these circumstances, pooking, building a railway, is there anything to prevent the Canadian Government offering to purchase from the United States an ocean right of way into our Yukon territory? The United States purchased Louisiana and Alaska as well, and is there any broad reason why she should not sell us just a tiny little piece of the latter? Now that she has won such a signal victory over us, it would seem to be the ideal time to make a bid. We know that your Uncle Samuel has got been used to obliging friends and relations but it is never too late to mend, and unless we give him an opportunity he will not be able to refuse us. Now or never is the time to try him.

The latest thing in which the farmers wives are being imposed upon is a dilutied cream separator. They come from the United States and are sold at from $2.50 to $18. The same thing can be had from any local hardware dealer at $1 They are not recognized by the government as a cream separator.

A County of Kent farmer, whose chattels were about to be distrained by the bailiff for rent not yet due, resisted the seizure by locking up the bailiff in his barn, for which act he was made defendant in an action at law and the case went against him; but he carried it to the Court of Appeal and the decision was that the resistance was justifiable as the seizure was illegal, and an appeal from this decision was not allowed.

Cattle poisoning, a method of revenge seldom resorted to, has made its appearance in King Township. On Thursday of last week, William Ireland, farmer on lot 8, concession 6, of said township, turned out 26 head of cattle to pasture and next day the dogs rounded up only 21 animals, and Ireland, searching for the missing animals found them dead. A quantity of Paris green scattered about told the tale, and now County Constable Burns is on the trail of the man who distributed the potato bug killer.

Mr. Oscar Wade, liquidator of the Markham Pork Packing Company of Stouffville, has issued a writ at Osgoode Hall against the company, and the individuals composing it, Jas. Pakenham and the Standard Bank of Canada, for an account. The amount involved is $40,777.04. The circumstances of the action are these. The manager of the company was examined recently and has alleged that the result indicated that certain agreements had been entered into by members of the limited company, some of whom had been interested in the old company, in consequence of these alleged agreements and now it is charged that the company assumed liabilities of from $50,000 to $70,000 which they ought not to have borne. These agreements, the plaintiff asserts, were ultra vires and contrary to the stockholders' wishes and instructions. From all appearances there is room for a good-sized lawsuit.

Mr. Sam. Lapp, of Markham, met with a peculiar experience on Saturday night of last week which came nearly ending his existence there and then. He was walking towards Main street along Joseph street and hearing a sputtering noise inside the fence back of T. B. Reive's store, looked over to see what it was. He saw what he took to be a lighted fuse and thinking that someone had set a charge to blow up the store, he put his hands on the fence to spring over and stamp it out. No sooner had he placed his hands on the fence than he was thrown backwards with terrific force, his head striking a post rendering him semi-conscious for a minute or so. He was not sure whether some hidden desperado had struck him or not but struck a match and investigated, and found that what he supposed was a fuse was a live electric light wire and that in attempting to get over the fence one hand had come in contact with it. Had he taken hold of it with both hands he would almost surely have been killed. A careless carpenter working at Michael's new livery barn had cut the wire that afternoon and said nothing about it.

"O woman!—Just as nature is said by the school-books to abhor a vacuum, so the buyers of butter and eggs dislike a deficit. For some weeks one or another of the Toronto buyers has discovered that he has not had as many eggs when he came to pack them as had been paid for. As prices have of late been too good to make buying simply a luxury, the buyers on Friday devised a simple plan by which the offender was located. When they bought any produce on the market, the number of pounds or dozens was placed on the tickets with an indelible pencil. In the afternoon one of the buyers found himself thirteen dozen of eggs short. On looking over his cashier's tickets, he found that the number of eggs credited to a Beach woman, with an ordinary black leadpencil. When confronted with this evidence, the woman acknowledged her guilt, and wanted to carry back the money she had stolen, amounting to between three and four dollars. She may think herself very fortunate if proceedings are not taken against her. This sort of crime is detected once every two or three years, and takes the form of putting potatoes in butter, etc.

Uxbridge Journal.

About five inches of snow fell in New York State on Monday, while we had but a trace. Last year the first snow fell on Nov. 26th. It is probable that owing to the coolness of the past summer 'Old Boreas' may let us off this winter with a moderate amount of snow and cold weather.

At the Ontario bye-elections on Tuesday, A. Mahaffy, Conservative, was elected for Muskoka by 178 majority; and C. N. Smith, Liberal, for the 2co, with 120 majority. The standing of the parties in the House is now Liberals 50, Conservatives 46, with North Renfrew vacant, leaving the Government with a majority of four.

The question of regulating the waters of Lake Simcoe and Couchiching for the relief of the owners of flooded lands in Mara and other lake-front townships, which has been agitating the public mind for several years, was brought to a climax recently, when a grant of $2,500 was placed in the supplementary estimates by the Dominion Government. The vessel owners have always opposed the project, believing it would interfere with navigation. The engineer who was recently sent up to make a report, and upon whose plans the work will be done, emphatically states that the water will not be lowered below the proper level, but gates will be put in for carrying off the spring freshet, preventing the backwash which does so much damage to Mara lands. Land that is under water in the dry season of the year it is not proposed to reclaim. After the spring freshets is gone, stop logs will be put in and the water kept at a high level than it is in the dry weather of August.

William Frisby, of Unionville, one of the best-known threshers in York County, and who has been absent in Manitoba for the past six months, returned home on Tuesday evening. Mr. Frisby during the greater part of the time was employed on a large farm in Forrest, near Brandon, but has since the close of the harvest been engaged in managing a threshing outfit for a wealthy New Zealand farmer. Mr. Frisby is very favorably impressed with the possibilities of the great West. Wheat around Brandon is averaging from 20 to 25 bushels an acre, and while slightly frosted in the stook, is perfectly free from injury as regards its milling qualities. One of the farmers for whom Mr. Frisby was engaged in threshing realized 11,500 bushels of No. 1 wheat, while in some instances as high as 35 bushels per acre has been secured in some parts of Manitoba. The weather during the past fortnight has been delightful, greatly facilitating the work of threshing and shipping. Mr. Frisby accompanied his nephew, Herbert Robinson, who is ill on his trip home, and subsequently placed him in the General Hospital, Toronto. Mr. Frisby will take charge of one of his threshing outfits the remainder of the season, and will return to Manitoba in the spring.

BIBLE.

The annual exchange of pulpits in behalf of the Stouffville Branch of the Bible Society will take place (D. V.) on Sunday, Nov. 8th, 1903, as follows:—Christian church, 10.30 a. m., Rev. J. R. Aikenhead; at 7 p. m. the Pastor. Presbyterian church, 10.30 a. m. and 7 p. m., Pulpit Supply. Baptist, 10.30 a. m. Rev. F. J. Scott; 7 p. m., the Pastor. Methodist, 10.30 a. m., Rev. C. H. Hallnet; 7 p. m., the Pastor. Mennonite, 3 p. m., the Pastor. Bloomington Christian, 10.30 a. m., Rev. Geo. Washington. Bloomington Methodist, 2.30 p. m. Rev. B. A. G. Willoughby. Ratcliffe Baptist, 10.30 a. m. Rev. Mr. Wallace. 9th Line Baptist, 3 p. m., the Pastor. Baker Hill, 7 p. m., the Pastor. Dixon's Hill, usual time, the Pastor. Hallentrae, 11 a. m., Rev. Willoughby. Lemonville, 3 p. m., the Pastor and Rev. J. C. Willmott. Bethesda, 7 p. m., the Pastor and Rev. J. C. Willmott. Ringwood, 2.30 p. m., Rev. J. R. Aikenhead. Melville, 2.15 p. m., Pulpit Supply. Glasgow, 2.30 p. m., the Pastor. Altona, 7 p. m., union meeting, both pastors.

On the following Tuesday evening, Nov. 10th, at 8 o'clock, the annual central meeting will be held in the Christian Church, Stouffville, at which the Rev. Bernard Bryan (Anglican) will give the address of the evening and which everybody should hear.

The resident ministers will be present, and in view of the approaching Centenary of the Society, this ought to be the most interesting meeting ever held in behalf of the society.

Let us show our interest in the Bible by supporting this most effective agency for its dissemination.

A FEW
—OF—
RUBBER.

Our fall stock of rubber goods is here and they are the kind of goods that everybody wants—the kind you always pay for whether you get them or not.
