KNOCKOUT BLOWS.

There Are Many Vulnerable Points In Man's Anatomy.

An impression prevails that there is only one blow—that on the point of the jaw—which really constitutes the knockout blow, says a writer in the British Medical Journal. This is an error. The temple is a very vulnerable part of the head, the lesion usually produced being laceration of the brain substance, with hemorrhage. A blow on the ear may cause rupture in the membrana tympani and collapse. Dangerous points are over the carotid and on the larynx, the danger lying in the concussion conveyed through the large nerve trunks which run down the neck. A blow on the larynx with the bare fist may cause instant death, as may one on the chest well over the heart. Diaphragmatic blows are not so dangerous to life, the shock being temporary. Brick rubbing and the use of stimulants is the most satisfactory mode of treatment. Blows over the kidneys may cause rupture and hemorrhage, with intense pain and shock. The most dangerous and insidiously painful form of knockout blow is that on the "mark," an area of the abdominal wall corresponding to the xiphisternal articulation above and a line joining the bony ends of the seventh ribs below. Behind this lies the pyloric end of the stomach. A blow here constitutes the "solar plexus" blow, but in reality it is the stomach which receives and transmits the shock.

Aristocracy of Wealth Not Probable.  
Whatever the tendencies of wealthy Americans of the present day, it is extremely improbable that an aristocracy of wealth should ever come into being. It has been seen that an aristocracy depends chiefly upon two conditions—the continued possession and exercise of power and the consequent unity of aims and ideals.  
The aristocratic body in England, for instance, is self-conscious; its members are united by mutual understanding. They acknowledge certain well recognized laws of life and manners. They depend upon each other to uphold these laws. Individually wealthy Americans may be both self-conscious and self-assertive, but collectively they are antagonistic to one another. The accumulation of wealth implies struggle, and struggle does not bring forth the kind of qualities which make of the gentle and stately men and women of Vandyke's canvases one great family.—Anna McClure Sholl in Gunton's Magazine.

All Timekeepers Are Inaccurate.  
The capacity of a watch for keeping good time is very much governed by its construction and its more or less perfect finish. It cannot be expected of the best horizontal watch that it should always keep good time and even less so of the inferior make of machine made watches. The changes of oil, the variation in temperature, the diversity of humidity of atmosphere, all greatly affect the going of a watch. Indeed, it is only the most perfect finish which neutralizes the adverse influences to the greatest degree. As a matter of fact, no watch keeps perfectly correct time, and even the best chronometers used in observatories and on board ships must be regulated according to tables which are kept to fix the variations to which all watches are liable.

Fatal Plans.  
She—I believe every man is the architect of his own fortune.  
He—Yes, but the trouble is most men spend so much time on the plans that they have none left for building.

ALTONA.  
Mrs. D. Taylor, of Bracebridge, is visiting friends at Altona.  
Mr. Geo. Robinson brought home 21 head of fine cattle last Thursday evening, which he purchased back of Fenelon Falls. Mr. Robinson is a model farmer and believes a number of stock as in so doing he keeps his land in the best condition for growing grain.  
Mr. Asa Millard and Mrs. Robinson visited friends in Newmarket on Sunday last.  
Mr. Grovo was in town looking for a home in which to locate.  
Mr. H. Stover has moved from Altona to Almira.

HOLY BONDS.  
There was a very pretty wedding at the home of Mr. H. L. Vanzant last Thursday evening when his eldest daughter, Ida, was united in marriage to Mr. Leonard W. Hutchinson, a well to do yeoman of Aurora. The ceremony was performed by the Rev. Dr. Nixon, a former pastor of the bride, at 6 o'clock, the guests being confined to the nearest friends of the young couple.

The bride was given away by her father. She wore a travelling suit of navy-blue broadcloth with hat to match and carried a large bouquet of orange roses and maiden hair fern. The decorations were of chrysanthemums, smilax and carnations, and were very pretty and artistic. After the congratulations had been offered, an elaborate luncheon was served, the table decorations being carnations and smilax.

The bride was born and reared in Stouffville and has always been a favorite with her companions and friends. The groom is a highly respected young man from the town of Aurora, and only son of Mr. John Hutchinson.  
Mr. and Mrs. Hutchinson took the 8 p. m. train for Toronto on their wedding trip and on their return will reside in Aurora. The bride received a number of useful and handsome presents.

Among the guests in attendance were Dr. and Mrs. B. L. Free, Mr. and Mrs. J. J. Hutchinson, Aurora and Mrs. Nixon.  
We feel confident that the bride will make an excellent help-meet and with her husband will have innumerable good wishes for a happy married life.  
CURTIS-ALLIN.—At the residence of the bride's parents, 5th line Whitechurch, on Wednesday, Nov. 4th, by Rev. G. Washington, M. A., Mr. P. Curtis, of Bracebridge, to Miss Annie S. Allen, of Toronto.

CIDER MILL.  
The undersigned intends to open his mill on TUESDAY, SEPTEMBER 15th and FRIDAY the 18th of the same week, and on the following week on TUESDAY, WEDNESDAY and THURSDAY, and for the remainder of the season every day except SATURDAY AFTERNOON, up till November 14, when he will close.  
JOSEPH RAMEL.  
The Farmer.  
The farmer ought to be the cleanest man in his neighborhood, both as to his person and in his character; the gentlest of all gentlemen, the most prompt to meet every obligation, financial and otherwise; the most ready to see and help the neighbor who is in trouble, on time in all his farm operations, ready to take a hand in straightening out any crookedness in the public affairs of his community and of the larger field in which he happens to live, kind in his family relations, positive in all his convictions, yet not self-assertive enough to drive men from the truth. Why should the farmer be all this? Because he has been blessed in having a home so near the heart of nature that he ought to catch something of nature's sweetness, strength and uprightness.  
Farm Journal.

WOOL! WOOL!—The highest price in market, or 2c per lb. more in trade, for any quantity of wool delivered at the Almira Woolen Mills.  
S. B. LEHMAN & SONS.  
The last of a few Flancy Grain Grinders can be had at a bargain to along out the stock; one portable threshing engine, entirely overhauled—a good chance for the farmers. STOUFFVILLE BRASS & STEEL WORKS.
