Prohibition to be Effective September, 40 German Planes Brought Down

A despatch from Toronto says: Prohibition will be put into force in Ontario on September 16 next. The ref. '..m on the prohibition will be taken on the first Monday in June, 1919. This means the Province will be "dry" until that date. The liquor license act now in force in the Province will be repealed when the Ontario temperance act (prohibition) goes into effect. If when the referendum is taken the people vote against prohibition, present licenscholders will probably get their licenses back, but districts where local option is now in force will remain "dry." In other words, the situation will be just as it is at present. The Government is considering the case of licenseholders and, above all, reasonable, were unwho have long leases on their hands.
