

THE GERMANS ARE NOW WAKING UP

THEY CANNOT HOLD OUT MUCH LONGER.

A Changed Tone is Noticed Regarding the Possibility of Victory.

"The end of the war is perhaps in sight, but it is not the end of the German hope," says Mr. A. Fitzmaurice in the Paris Figaro, commenting on the changed tone in the Reichstag. "The German horizon is growing darker every day. The masters of the deputies—for these so-called representatives of the people are only servants of those in power—have tried in vain to prolong the illusion of possible victory.

"The lightninglike victory on which the Kaiser counted having escaped them, they resigned themselves to a war of wearing down, and by the voice of the Chancellor, Dr. Von Bethmann-Hollweg, and that of the Minister of Finance, Herr Helfferich, they declared they would hold out to the end. But the moment has arrived when they understand that they can no longer hold out, and in spite of the privations they have imposed on the German people, they must some day admit they are at the end of their resources. Now they want to end it any way.

Would Quit, But Can't.

"The Cologne Gazette recently declared: 'We must finish with this war.' They would like to, but they cannot. They sought the end of the war in the Orient and were stopped by the allies at Salonica, and Roumania rises before them, resisting their offers as well as their threats. Turkey, on whom they counted to aid them in Europe, cannot even find troops enough to resist the Russian torrent which is flowing over Asia Minor on a front from the Black Sea to Lake Van, and is extending toward Bagdad to join the British in Mesopotamia. The Egyptian expedition is a vanished dream.

"The great scheme of Von Tirpitz, submarine war, without mercy, on which the Germans counted to terrorize England and force her to loosen the grip of her blockade, is embroiling Germany with the United States without even shaking British confidence, which, far from being fearful, awaits with impatience their latest menace—the sortie of their Hochseeflotte, of which Prince Henry of Prussia has just taken personal command.

What of Liebknecht?

"So the war must go on and Dr. Von Bethmann-Hollweg cannot draw from Verdun an argument permitting him to promise the Reichstag the approaching end of the war. 'What lies will they be able to invent to answer the women who are hungry?' Will it be necessary to threaten, as they did a little while ago in the Prussian Landtag, with using against them the Krupp guns which had been destined to bombard from Calais the coast of England? And what will Herr Von Bethmann-Hollweg answer to the implacable Liebknecht and to all the Liebknechts, who will soon number legions? 'Defeat will break the ties that bind all these servile socialists, who will be all the more violent in their retaliation the more they feel themselves disgraced by their long servility.'

WORLD'S RICHEST MAN.

Czar of Russia Has Income of \$550,000 a Day.

The distinction undoubtedly belongs to the Czar of Russia, of whom it has been said that he has so much money no body can count it. And it is a fact that the wealth that is his as controller of the Russian Church, and as ruler of all the Russias, including that of the members of his extremely wealthy family, would certainly be too great to count, including as it does all the wealth of Russia, which is estimated at \$35,000,000,000.

The Czar's personal wealth, according to one statistical genius, works out at \$550,000 a day, and should Russia get down to its last cent—or rather kopeck—in the royal exchequer, Nicholas, singlehanded, could keep the entire Russian army in the field several weeks.

Most of the Czar's wealth is derived from landed possessions, of which he has nearly 150,000,000 acres, three quarters of which is rich timber and yielding big rentals. The other quarter in mining land. Siberia's mines are owned by the Czar, while his jewelry and art works are of fabulous worth. The Czar's State income is about \$10,000,000 out of which, however, he has to provide for the expenses of his household, which includes the upkeep of more than a hundred palaces, to say nothing of the Russian Court, with its 30,000 servants, 230 automobiles, 5,000 thoroughbred horses, and an army of several thousand soldiers and detectives.

Teacher—Wait a moment, Johnny. What do you understand by that word "deficit"?

Johnny—It's what you've got when you haven't got as much as if you just hadn't got nothing.

Some business men fail because they waste their time fooling with trifles that they could hire a boy to attend to for \$1 a week.

SPRING BLOOD IS WATERY BLOOD

How to Get New Health and New Strength at This Season.

Spring ailments are not imaginary. Even the most robust find the winter months most trying to their health. Confinement indoors, often in overheated and nearly always badly ventilated rooms—in the home, the office, the shop and the school—taxes the vitality of even the strongest. The blood becomes thin and watery and is clogged with impurities. Some people have headaches and a feeling of languor. Others are low-spirited and nervous. Still others are troubled with disfiguring pimples and skin eruptions; while some get up in the morning feeling just as tired as when they went to bed. These are all spring symptoms that the blood is out of order and that a medicine is needed. Many people take purgative medicines in the spring. This is a serious mistake. You cannot cure yourself with a medicine that gallops through your system and leaves you weaker still.

This is all that a purgative does. What you need to give your health and strength in the spring is a tonic medicine that will enrich the blood and soothe the jangled nerves. And the one always reliable tonic and blood purifier is Dr. Williams' Pink Pills. These Pills not only banish spring weakness but guard you against the more serious ailments that follow, such as anaemia, nervous debility, indigestion, rheumatism and other diseases due to bad blood. In proof of this Mrs. D. E. Hughes, Hazenmore, Sask., says: "About a year ago I was badly run down, my nerves were all unstrung, and I could not go up stairs without stopping to rest. As I was a long ways from a doctor I determined to take Dr. Williams' Pink Pills and in the course of a few weeks I felt like a new person. As an all round restorative I can heartily recommend this medicine."

If you are ailing this spring you cannot afford, in your own interest, to overlook so valuable a medicine as Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

FRENCH PRAISE FOR BRITAIN.

The English Soldier Is Highly Praised by Them.

There can be no fear that the French will underestimate the value of the British troops' support in the present campaign, for their most famous generals in the past have testified to the fighting abilities of Tommy Atkins.

Napoleon once said that the British troops "stood like stone walls," and he added: "England is the most constant, the most powerful, the most generous of my enemies." In the Peninsular War Marshal Soult once wrote to Napoleon: "Curse these English! They never knew when they are beaten." For I pierced their center, I turned both flanks, I had them at my mercy—and still they did not run!" Beaugrand, one of Napoleon's generals, once declared, "The English infantry is the best in the world; it is fortunate there is no more of it." General Foy wrote after Waterloo that "nothing could shake the immovable British squares. One would have been tempted to believe that they had struck roots into the earth if the battalions had not swept majestically forward a few minutes after the going down of the sun and given to Wellington the most decisive victory of the age."

The same general once also sighed: "Ah, the English soldier possesses the most precious of all qualities in war—calmness in the midst of excitement."

HANDY HUSBAND.

Knew How to Get Part of the Breakfast.

"I know one dish I can prepare for breakfast as well as any cook on earth," said my husband one morning when the cook was ill and he had volunteered to help get breakfast. He appeared with his dish and I discovered it was Grape-Nuts which, of course, was easy to prepare for it was perfectly cooked at the factory, but it was a good illustration of the convenience of having Grape-Nuts about. "We took up Grape-Nuts immediately after returning from a five years' sojourn in a hot country. Our stomachs were in bad condition and we were in poor health generally. "In a day or two we liked Grape-Nuts better than any other kind of food on the table. We both gained steadily in health and strength, and this was caused by Grape Nuts and Postum."

"A friend of ours had a similar experience. She was seriously ill with indigestion and could find nothing to eat that would not give her heartburn and palpitation, especially at night. "She found that a small dish of Grape-Nuts with cream made her a satisfactory supper and gave her a comfortable night's rest. In a short time she gained several pounds in weight."

"There's a Reason." Name given by Canadian Postum Co., Windsor, Ont.

"Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest."

GROW YOUR OWN MEDICINE.

Some Drugs Are Now Worth Their Weight in Gold.

What has become of the family medicine-chest, stocked with the products of the herb-garden? It has gone the way of most old-fashioned customs, but its revival is imminent. The drug-markets of Germany and Austria are now closed, and in consequence of the very large proportion of drugs which were yearly imported from these countries, we are now paying the price in more senses than one. Cod-liver oil is sixty per cent. dearer than formerly, astropine fetches from \$35 to \$40 an ounce, bromide is ten times as dear, and aspirin has realised a figure unheard of before hostilities commenced. Certain drugs are now worth their weight in gold. When you plan out your garden this year, have an eye to the practical as well as the picturesque. Rosemary is not only a pretty plant, but makes a most effective hair-wash, and a good sweetener. Pennyroyal was patronized by Queen Elizabeth, who is said to have bought herself penny packets of the herb. Agrimony is an excellent tonic; camomile flowers and camomile tea make an excellent spring medicine. Rue, betony, cummin, hyssop, horehound, and comfrey should all be given their chance.

ELECTRIC LIGHT ON THE FARMS

Assists in Keeping Young People at Home.

The Hydro-Electric Power Commission of Ontario, in its Seventh Annual Report, gives some interesting data on the advantages and cost of installation of electric lighting in farm homes and outbuildings. The report says: "The farmers in the districts that are being served greatly appreciate the improved condition on their places by reason of having electric light in the house, barn, drive shed, and yard. With previous forms of lighting, the dull appearance of the place from the road and from the yard had a depressing effect. The attractive contrast that is the result of installing electric light will probably be beneficial in keeping the young people on the farm. The decrease of fire risk on the premises due to the absence of coal oil lanterns and lamps is another feature that is usually considered by the farmer in arriving at a conclusion regarding the installation of electric service on his premises.

"Installations in barns are now being made in conduit, as this method is found necessary for the protection of the wires and fittings. The cost of installation varies according to conditions in the different districts. The open wiring varies from \$1.25 to \$1.75 per outlet and the concealed wiring from \$1.50 to \$2.25 per outlet. Conduit installations in the open, that is, in barns and farm buildings, vary from \$3.25 to \$4.50 per outlet. The outlet in each case is the opening for either fixture or switch; it does not include (except where drop cord is used) the fixture, but does include the switches."

KEEP CHILDREN WELL.

To keep little ones well the bowels must be kept regular and the stomach sweet. Nine-tenths of childhood ailments are caused by derangements of these organs. Baby's Own Tablets never fail to regulate the stomach and bowels—that is why thousands of mothers would give no other medicine to their little ones. Concerning them Mrs. Chas. A. Turner, Marie Joseph, N.S., writes: "We have been using Baby's Own Tablets off and on for the past year and a half and have found nothing to equal them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

1,200,000 MAKE MUNITIONS.

Germany Has Huge Army Turning Out War Supplies.

Germany now has 1,200,000 men making munitions, according to Senator Charles Humbert, in an article in the Paris Journal, in which he says: "Krupps employed 42,000 hands at Essen before the war. This figure has now reached 115,000, but Essen is only the principal factory. At other works the number of workers has risen from 6,000 to 15,000; from 14,000 to 30,000; from 6,000 to 30,000; from 9,000 to 27,000; while the Bochum and Gelsenkirchen works now employ 25,000 hands instead of 10,000 in time of peace.

"There also exist in Germany two other enterprises exclusively devoted to the making of artillery, namely, Thyssens, which employ 80,000 men and the Ehrardt works, which employ 100,000, instead of 30,000 and 40,000 formerly. "Thus over 420,000 men on the other side of the Rhine are turning out war material, without counting the innumerable necessary work shops employing more than double that number in the manufacture of rifles, cartridges, shells, explosives and asphyxiating gases—or a total of over 1,200,000 men employed in various war industries, without including men who work in the factories for the production of raw material."

Wearied Will—Yes, mum, I'm a roads scholar.

EXPENSIVE REPAIRS.

How the Village Blacksmith Repaired a Lamp Chimney.

In order to stimulate his trade, the village blacksmith hung out a sign that read, "Whatever It Is, I Can Repair It." On the morning of April Fool's Day, the town wag' showed his way through the usual crowd that was collected round the door, and handed the blacksmith the parts of a broken lamp chimney.

"I'd like you to put this together for me as soon as you can, John," he said, winking toward the crowd. The smith took the ragged bits of glass, examining them carefully while the idlers looked on with considerable amusement. Then he went into the room in the rear of the shop. Stepping across the alley to the grocery store, which was out of sight of the crowd, he bought a ten-cent lamp chimney exactly like the broken one. How everyone laughed when he stepped out of his little room a moment later and put the whole chimney into the astonished wag's hands with the dry remark: "I'll have to charge half a dollar for that job."

Can Do My Work Pain is All Gone

MISS DOLLIE McCLAIN TELLS OF DODD'S KIDNEY PILLS

Alberta Lady Tells of Quick and Complete Cure Through Using Dodd's Kidney Pills.

Ferguson's Flats, Alberta, April 10th (Special).—"Yes, I am very glad I can say that I have tried Dodd's Kidney Pills and found them all that is claimed for them." So says Miss Dollie McClain, an estimable lady residing here.

"I was troubled with a sore back that made me almost helpless. I took one box of Dodd's Kidney Pills and my back is all right. I can do my work and the pain is all gone." Thousands of women in Canada are suffering daily tortures from pain in the back. Thousands of others like Miss McClain are doing their work without an effort because they took the advice of others and cured their backache by using Dodd's Kidney Pills. Every woman should use Dodd's Kidney Pills. They are the finest tonic in the world because, acting directly on the kidneys, they tone up those organs to do their full work of straining all the impurities out of the blood. Pure blood means new strength for all parts of the body. New strength means new cheerfulness. That is why so many women so cheerfully testify to the benefit received from using Dodd's Kidney Pills.

THOUGHTS FOR THE DAY.

We can hardly hate anyone that we know.—Hdzitt. One example is worth a thousand arguments.—Gladstone. Thought is the wind, knowledge the sail, and mankind the vessel.—J. C. Hare.

A tactful man can put a stinger from a bee without getting stung.—G. H. Lorimer. It is hard to fail, but it is worse never to have tried to succeed.—Theodore Roosevelt.

To the mean eye all things are trivial, as certainly to the jaundiced they are yellow.—Carlyle. There is always the sun, only we must do our part, we must move into it.—Clara Louise Burnham. It is best to love wisely no doubt; but to love foolishly is better than not to be able to love at all.—Thackeray. There is nothing expresses a man's particular character more fully than his letters to his intimate friends.—Steele.

MINARD'S LINIMENT FOR SALE EVERYWHERE

A Clerical Submarine. Church service was over, and three prominent members of the congregation walked home together, discussing the sermon.

"I tell you," said the first, enthusiastically, "Dr. Blank can certainly die deeper into the truth than any preacher I ever heard."

"Yes," said the second man, "and he can stay under longer."

"Yes," said the third, "and come up drier."

I consider MINARD'S LINIMENT the BEST Liniment in use. I got my foot badly jammed lately. I bathed it with MINARD'S LINIMENT, and it was as well as ever next day.

Yours very truly, T. G. McMULLEN.

No Kick Coming. Mabel—So you asked papa for my hand? Did he give you any encouragement?

Arthur—Well, no, but he gave me a drink and a cigar, so I had no kick coming.

Minard's Liniment Cures Dandruff

Make Your Body Tingle with life and energy for the day's work by eating foods that contain real nutriment—that do not use up all the vitality of the body in an effort to digest them.

Shredded Wheat Biscuits supplies the greatest amount of body-building, energy-creating material with the least tax upon the digestive organs. It is a real whole wheat food, ready-cooked and ready-to-serve, containing the life of the wheat grain—nothing added, nothing taken away. Start the day right by eating Shredded Wheat with hot or cold milk. Serve it for luncheon with sliced bananas or other fruits.

HOW GERMANS STOP WASTE.

Smallest Metal Trifle is Saved and Sent to Government.

Every British newspaper at the present time is appealing to its readers not to waste certain things, as old newspapers, medicine and other bottles, wood, and so on.

In Germany the appeal was made many months ago and the greatest care has been taken of everything which could possibly help the German armies to continue their fight against the world.

Perhaps the most amazing example of economy of a nation is the way metal of all kinds is collected by the Huns. Not only are such obvious things as copper kettles, pans, door-knobs, handles, and fire irons collected, but everything in the metal line. When a tube of toothpaste is empty it is not thrown away, but sent for the use of the Government. The tin-foil paper in which tea is put up is kept carefully, and the same with the "silver paper" around chocolate.

In Germany the various town councils advertise regularly for old metal of all kinds. From all towns the collection passes to the great German Government foundries at Mulden, where it is melted down and distributed to the ammunition factories to be transformed into shells and bullets.

Filial Observation.

"When I was a boy I didn't dance till 1 or 2 o'clock."

"Well, paw," replied the young man who was being reproved, "maybe if you had you wouldn't be obliged to spend so much time and money now taking dancing lessons."

The Genius.

Johnnie—I wish I was Tommy Jones.

Mother—Why? You are stronger than he is, you have a better home, more toys and more pocket money.

Johnnie—Yes, I know; but he can wiggle his ears.

THERMOR Waterless Hot Bottle Remains Hot for 12 Hours

Hot Bottle Lasts a Lifetime

It is made of metal, nickel plated, of a convenient size. Simply boil the "Thermor" for ten minutes only (no longer) and it stays hot for full twelve hours at an even temperature of 125 deg. Recommended by physicians on account of the steady heat and sanitary metal case. No trouble—no filling—no danger of scalding the hands—no leaks—no expense and one purchase lasts a lifetime.

In sickness, such as Neuralgia, La Grippe, Rheumatism, Neuritis, Inflammation—in fact all aches and pains, the "Thermor" is invaluable. As a bed-warmer and a foot-warmer it has no equal.

"The 'Thermor' measures 8 1/2" across and is 1 1/2" thick, yet it weighs less than a filled two quart rubber bottle. The price is \$4.00 sent Postpaid anywhere and sold under an absolute guarantee from the makers.

TRAGIC FOLLY.

It will not be long before the fly season is again with us, accompanied by applications from the general press to "swat the fly." Simultaneously, the deadly poison fly paper, makes its appearance, with the possible risk of fatal poisoning wherever there are children.

For, during 1915 twenty-six cases of fly-poisoning were reported from eleven states. In 1914 forty-six children were innocent victims.

This record is in all probability incomplete as symptoms of arsenical poisoning are so similar to those of cholera infantum that even physicians of long experience are likely to confuse them, and the subsequent illness, is ascribed to cholera infantum.

The Michigan U.S.A. Legislature has already passed a law regulating the sale of poisonous fly papers. The question should be considered by every civic body of Canada and the States to stop infantum mortality from an absolutely unnecessary cause.
