WAR SCHOOLS NEAR FRONT.

Digging and Bombing. The spectacle of officers and diers playing at war within gunshot of operations which form a part of the greatest conflict in history might seem to be an unusual sight, and yet this is actually taking place daily back of the British lines, writes the Associated Press correspondent. One of these schools was for the training trenches was laid out just as though for battle. At this school any new ideas pertaining to this method of warfare are experimented with, each man learns numerous ways protecting himself from the German fire. At another point a group of men were firing from behind sandbags at siderable distance away. When a man sniping he is sent along to the front

The second school was one for experimenting in the building trenches. Trenches of all descriptions are carefully laid out, dugouts are built, and machine gun positions are constructed. Wire entanglements of different varieties also are experimented with.
