**Notes & Comments**

There should be a goodly number of entries from this vicinity in the Home Garden Contest being conducted by the Department of Agriculture under the supervision of their Representative, J. C. Steckley, of Newmarket. Like the Rural School Fair this contest should stimulate a greater and more intelligent interest in agriculture.

That a great deal can be made out of a small was proven by the action between Mrs. Brodie and the Township of Pickering. Many of the friends of the late doctor was of the opinion that when a man has the odor of alcohol on him he is under its influence. The Judge also took this view and also was of the opinion that the doctor's death and his going over a twenty-foot embankment was a coincidence the accident having nothing to do with causing his death. His Honor considered that the roadway was in a safe condition.

The Women's Institute are holding a concert for the benefit of our boys at the front, and it is hoped that there will be a large attendance. This is the first time the Women's Institute has appealed to the public to assist them since Flag Day which they held shortly after the war broke out, and when they collected \$155 which was sent to the Red Cross. Since then the members have not been idle, however, having met at the different homes each month, collections being taken sufficient to buy yarn which has been knitted and sent to the boys at the front or given to anyone asking for socks to send overseas. We think the ladies deserve a full house and no doubt those who attend will be fully repaid as the W. I. has been fortunate in securing the Khaki Follies, returned soldiers who come very highly recommended from the places where they have given their concert.
