NEPONSET ROOFS

NEPONSET PAROID ROOFING NEPONSET TWIN SHINGLES

A Roof Worthy of the Home

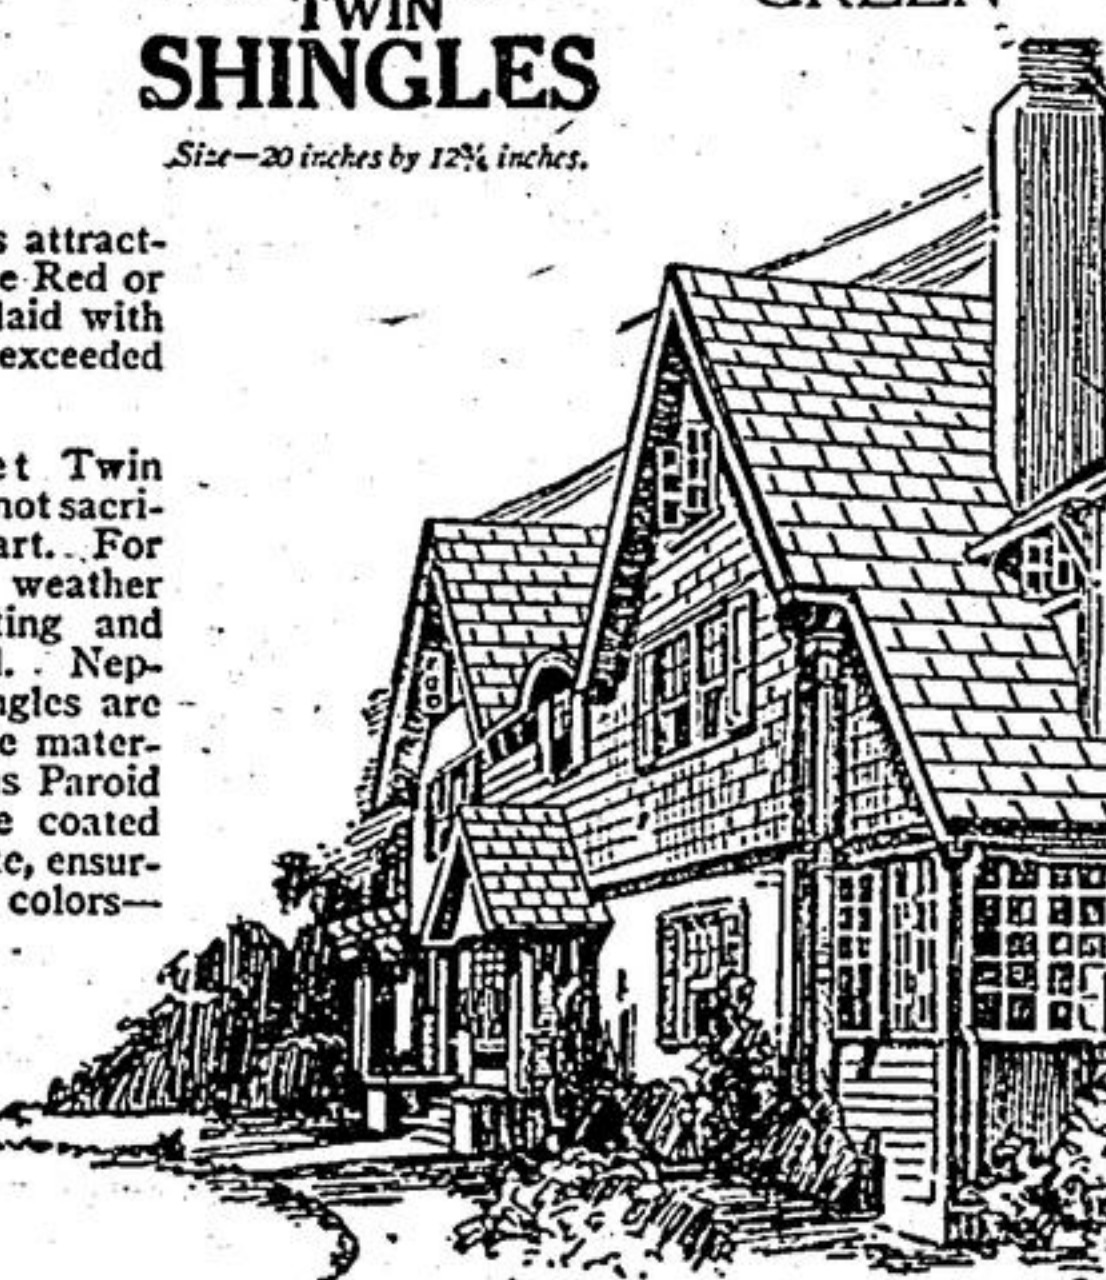

ONE third at least of the outside of your home is roofing. Does it add, or detract from the appearance of the house?

Unquestionably the home roofed with

RED **NEPONSET TWIN SHINGLES** GREEN
Size—20 inches by 12 1/2 inches.

owes much of its attractiveness to the fine Red or Green Shingles, laid with a precision never exceeded by slate.

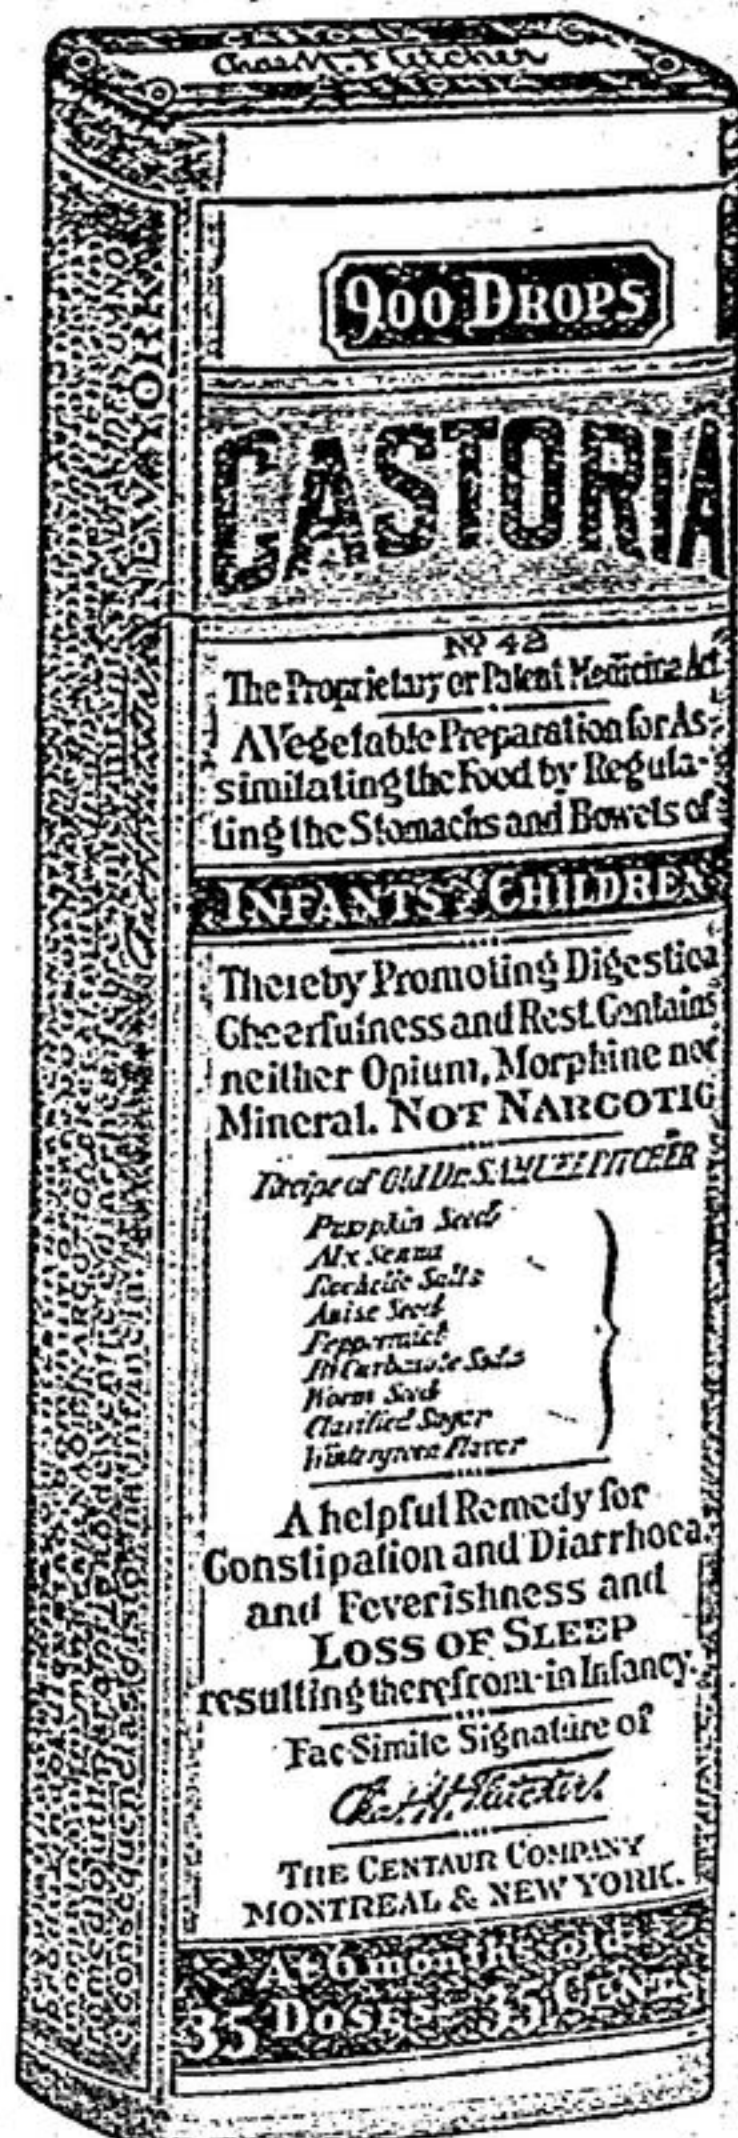

With Neponset Twin Shingles you are not sacrificing utility to art. For such a roof is weather proof, fire-resisting and very economical. Neponset Twin Shingles are made of the same materials as the famous Paroid Roofing, and are coated with crushed slate, ensuring permanent colors—Red or Green.

Insist on Neponset Twin Shingles for your new home.

Neponset Paroid Roofing is recommended for Farms, Factories, and Railroad Buildings.

The regulation making it necessary to carry papers is mighty inconvenient at times. When a man puts on his Sunday clothes and forgets his pocketbook he can borrow five dollars from a friend, sometimes but if he forgets his birth certificate or marriage lines it's not so easy to get out of the difficulty. A party of Stouffville motorists on their way to Sutton found it inconvenient when half way there one of their number found to his dismay that he carried no papers. In spite of the delay in returning for them, however, the party had a very pleasant time and report a splendid crop of strawberries at the lake.

A local motor party journeyed to Lake on Monday to fish and enjoy the scenery. They found lots of the latter.
