THE PASSING OF CECIL R. KLINCK

The following is taken from the Guelph Daily Herald.
At the General Hospital early Sunday morning, the death occurred of Cecil R. Klinck, of the O. A. C. Mr. Klinck was born, and brought up on a farm near Stouffville, York County, Ontario, and entered the O. A. C. as a student in 1903, receiving his B. S. A. degree in 1906. His brother Leonard, who is now president of the University of British Columbia, entered the O. A. C. in 1908, and received his degree in 1903. Immediately after graduation Cecil joined the staff of the Field Husbandry Department, where he has been employed constantly up to the time of his death, his position being assistant in plant breeding. He has done much work in the improvement of farm crops. Although he was not physically robust, his sudden death causes a great shock to those who have been with him constantly. He was in active service until a week previous to the time of his death, and did not enter the hospital until Thursday evening, after which time he sank rapidly, but retained his consciousness until about three o'clock, Saturday afternoon. The end came very peacefully about midnight.

A memorial service was conducted yesterday afternoon, in the Church of Christ, Norwich street, when the members of the church to which Mr. Klinck had been so faithful during all the years of his residence in Guelph, and the president, faculty and friends at the O. A. C. joined in

paying a loving tribute of respect to the one who has passed to the beyond.

The service was conducted by the pastor, Rev. P. A. Dickson. Dr. Zavitz, who had known Mr. Klinck so intimately, spoke of his worth to the College and to the Agricultural interests of the Province. He also spoke of Mr. Klinck as possessing three outstanding traits of character. He was most unselfish, living for others. His Christian character bore fruit in other lives. He was the servant of men, faithful to a fault, earnest and diligent. The church was represented by Amos Tovell, who told of Mr. Klinck's valuable service as a member of the Young People's Society, a teacher in the Bible School, the clerk of the church of the past half dozen years and a deacon, who performed his work well.

Mr. Klinck took a prominent part in planning the changes recently made in the church, and in carrying these into effect. He was as faithful to the church as he was in his College work. He was a kind and gentle Christian man.

The late Mr. Klinck's father and brother-in-law arrived in Guelph on Friday and accompanied the remains on the 9:47 Grand Trunk train Monday morning for Stouffville where the funeral will take place on Wednesday afternoon. Of the immediate family there remains to bear the loss the father and mother, Mr. and Mrs. T. W. Klinck, who live at Stouffville, one brother, Ross, on the old homestead at Victoria Square another brother, Harry, who is teaching at Redcliffe, Alta., and Leonard, President of the University of British Columbia and two sisters, Mrs. Rowbotham and Mrs. Clark.

The late Mr. Klinck was unmarried and passed away in the prime of his life, at the age of only forty-two years. He will be greatly missed, not only by the family, but by his many friends at the College and in the city. His was a noble Christian character, displaying a large amount of unselfishness, of excellent service in his chosen work of plant improvement, and of whole-someness in his quiet, earnest-exemplary life. It can truly be said of him that through his influence he left the world better than he found it.

The funeral of the late C. R. Klinck son of Mr. and Mrs. Thomas W. Klinck, took place at the family residence, Wednesday, March 1st. The service was conducted by Rev. Amos Tovell, former pastor of the church in Guelph of which Mr. Klinck was a valued member, assisted by Mr. Chas. Petch, Rev. R. Young and Rev. G. Washington. The funeral was largely attended by relatives and friends, showing the high esteem in which Mr. Klinck was held.

OBITUARY

A gloom was cast upon the citizens of Stouffville and surrounding community last Friday, Feb. 24, 1922 when the sad news came of the sudden and unexpected death of Mrs. (Rev.) W. M. McGuire, wife of the Mennonite Pastor and beloved daughter of Mr. and Mrs. Jos. McMillan, which took place at the Burnside Hospital, Toronto.

Mrs. McGuire came to Stouffville last October, with her husband, and in this short time had made many friends, she will be greatly missed by all who knew her, she leaves a sorrowing husband a baby daughter a loving and faithful father, mother, two sisters, a brother, and a host of friends, to mourn their loss, but what is their loss, is her eternal gain.

A short service was conducted Friday evening Feb. 24th, at the home of Mr. and Mrs. J. R. Good 553 Markham St. Toronto, Ontario, by Rev. E. Sievenpiper assisted by Rev. Mr. Franks, pastor of the Methodist church at Islington who had been a former pastor of the deceased.

The body was taken to Dundalk by C. P. R. train, where they were met by a large concourse of friends, hundreds of people visited the home on Saturday afternoon and Sunday to view the corpse and sympathize with the bereaved. The funeral was held on Monday afternoon, in the Bethel Methodist Church, Proton Township, no less than five Ministers took part in the service.—Com.

RE SEPARATOR TEST REPORT

By H. Langtree
Published in Tribune Feb. 23rd that a test was made at Levi Forsyth's between a Massey-Harris and a well known separator. The public would be led to believe that a real test did take place between two firms' machines and their representatives, and I seem to be one of those accused. I did not enter into any test nor was I there on the 8th of February 1922, or any other firm as De Leval are sold under guarantee.

GUARANTEE
The De Leval Company, Limited, guarantees that the machine hereby ordered, if operated according to the rules set forth in instruction manual sent with it, will enable the production of a greater value of cream and a greater quantity of butter of better quality than is possible with any other cream separator made and that (together with the saving in power and expense generally) it will afford the Purchaser a greater profit from the milk handled than any other system in existence; wherefore should the Purchaser, whose name is attached hereto, demonstrate within fifteen (15) days from

date this machine is set and started that EQUAL profit can be realized through the use of any other separator or creaming system, this order shall be null and void.
Is it any wonder over 2,500,000 in use—ten times as many as the nearest competitor.

DIVISION COURT.

At the sitting of the Second Division Court held at Stouffville on Monday, but one case was on the trial list, that of Rauph Conner against Joseph Alsop. Conner is a farmer, residing on the 5th concession, Whitchurch, Alsop is a truckster, residing on the 2nd of Uxbridge. The case had aroused considerable interest among the farmers of the section, who crowded the council chamber, where court was held. Conner sued Alsop for \$130.35 for six calves weighing 1,185 pounds at 11 cents a pound, which he claimed he had consigned by Alsop to J. H. Shields, a commission merchant at the stock yards, Toronto. Eleven cents a pound was said by Conner to be the top market quotation for the day. In his evidence, Conner, who was corroborated by his son, swore that he had arranged with Alsop in Goodwood on the previous evening, to deliver the calves to Shields, paying him at the time \$6 for cartage. Alsop swore that no such arrangement was made, that he had not even met Conner in Goodwood, but that he had been engaged by Conner over the phone to call at Conner's place in the morning and take six calves to Toronto for him, and in this he was corroborated by his wife, who answered the phone, and was in the room when the phone conversation was going on. He called as agreed on at Conner's the next morning for the calves, which he took to Toronto and sold to the Wm. Davies Company, getting six cents a pound. He sent his wife over to Conner's the next day with the money (deducting the cartage), and Conner refused to accept it. Alsop produced the weigh bill from the Wm. Davies Company, showing the weight and price paid, and also had Mr. Macdonald and Mr. Thomas, the buyer and weigher, as witnesses to corroborate him. Macdonald gave evidence that the calves, while big and rangy, were of very medium quality. Judge Widdifield gave judgment for the plaintiff for the amount (tendered the plaintiff, and) paid into Court (\$64.35), less the costs of the action and defendant's witness fees, which are to be paid by the plaintiff. In his summing up of the evidence, the Judge says: "I find that the evidence of the defendant is to be accepted in preference to that of the plaintiff. I have no hesitation in accepting the evidence of Mrs. Alsop as truthful. With this starting point I must find the plaintiff not truthful when he says no tender of money was ever made to him."

Standard Bank of Canada Reports Strong Position.

General Business of Bank Well Maintained—Policy Has Been Followed of Making Large Additions to Reserve and Contingent Accounts—Reserve Fund Now Stands at \$5,000,000 and Paid-up Capital \$4,000,000.

The strong position occupied by the Standard Bank of Canada is strikingly reflected by the manner in which it has been able to meet the changed conditions that prevailed in Canada during the past fiscal year.

General business was well maintained and profits were well up to the level of the previous year. As a result, the bank has continued its policy of adding steadily to its reserves and contingent account. The reserve fund now stands at \$5,000,000 as against a paid-up capital of \$4,000,000.

The ample profits also allowed of the payment of the usual dividends at the rate of 14 per cent. and after the appropriations to reserve and contingent funds, permitted of a balance being carried forward into the new year of \$112,492. These profits, which were computed after deducting expenses, interest accrued on deposits, rebate for interest on unmatured bills, Provincial taxes and making provision for bad and doubtful debts, amounted to \$725,014. The balance carried forward from the previous year amounted to \$378,644 and there was received from premium on new stock issued \$148,499, making the total amount available for distribution \$1,252,157. Of this amount there was paid in dividends at the rate of 14 per cent. \$565,115, war tax on note circulation \$39,549. Reserve for Dominion Income tax, \$20,000; contributed to Officers' Pension Fund \$25,000; transferred to reserve fund, \$200,000; transferred to contingent account \$300,000; balance carried forward, \$112,492.

The outstanding feature of the general statement of assets and liabilities as of January 31st is the strength of the bank's liquid position. Of total assets of \$83,293,004 the liquid, or immediately available assets amount to \$35,871,868. Of this amount actual cash on hand and Dominion notes and deposit in cen-

tral gold reserve total \$13,279,863, cheques on other banks \$5,151,513, balances due by banks and banking correspondents, elsewhere than in Canada, \$1,109,437; Canadian municipal securities, and British, foreign and colonial public securities other than Canadian, \$2,843,643; railway and other bonds \$1,202,475 call and short loans, \$2,809,230, and a particularly pleasing item is the large holdings of Dominion and Provincial Government securities amounting to \$9,029,521.

In a year of lessened industrial and commercial activity a smaller volume of current loans was to be expected. Current loans and discounts in Canada which represent the general business of the bank amount to \$45,069,127, a reduction of \$5,000,000 from the previous year, and which is in harmony with altered conditions and is an index to the general slackening of business throughout the country.

At the same time the general deposits of the bank have been well maintained. Deposits bearing interest stand at \$51,909,455, as compared with \$53,011,997 at the end of the previous year and deposits not bearing interest at \$13,211,260 against \$14,377,712, making total deposits of \$65,120,716, as against \$67,389,710, a reduction of only about \$2,000,000. This decrease is equal to only about 3 per cent, and would seem to indicate just how well the deposits of the bank are distributed throughout the country.

A Good Business School—here's why

Over twenty thousand young men and women have learned shorthand, typewriting and business methods in the Shaw Business Schools. Every student has received personal attention and individual help—that's the secret of our success. Eleven fully equipped schools. We have a chair and a desk for you. Start at any time.
