**ROADWAYS STORE** STOUFFVILLE

**MARKHAM TWP. NOMINATIONS**

Markham Township nominations were largely attended, and there is to be a contest for every office excepting the deputy reeveship. G.A.M. Davidson acted as chairman. The proceedings were quiet throughout. For reeve, George B. Padget and Stewart Clarry were nominated; for first deputy, Wesley J. Gohn (accl.) and council, J. S. Honey, Robert Smith, R. L. Stiver, J. R. Campbell, Robert Thompson, Allan McKinnon, C. Clubine and T. Beterman.

Messrs. Campbell, Thompson, Clubine withdrew, leaving three to be elected out of the 5 left. Reeve Padget is completing his eighteenth year in the township council and is this year the probable choice for the wardenship of York County assuming his election in the township.

Mr. Smith is the oldest man in the council, having served 4 years. R. L. Stiver, has served 2 years, Messrs McKinnon and Beterman are new faces in municipal affairs.

**UNBRIDGE TOWNSHIP**

Contrary to expectations there will be no election in Unbridge Township next Monday. The old council was returned by acclamation. A large crowd gathered at the township hall Goodwood, expecting an entertaining time, but as there were no new aspirants for the council, Mr. Roach withdrew from contesting the reeve-ship with Reeve Owen Davies. Some criticism was levelled at the old council for dismissing the former treasurer, Thos. Feasby, at a salary of \$135 and appointing another in his stead at \$200. The personnel of the council is: Reeve, Owen Davies; Deputy reeve, Wm. G. Cassie; Councilors, H. Roach, Isaac Catherwood, Charles Lee.

**CLAREMONT**

Thursday afternoon there was a fairly well attended meeting of rate-payers in the Claremont public school when the question of Consolidation was ably presented by Inspector R. A. Hutchison of Whitby. This was followed by quite a number of questions by those present and some discussion, all of which with the all-but unanimous vote which followed, revealed a surprise with the all-but unanimous vote a Consolidated school for this district, so soon as such a forward move for an up-to-date equipment could be brought about. There was only one vote of a contrary mind, and it is understood that the sentiment generally around here is strongly in favor of the proposition. From carefully prepared estimates based on reliable data furnished by the Department of Education, it was emphasized that the cost of a Consolidated school sufficiently large (with five rooms) for three schools uniting would be less in the rate by a substantial margin than if a regular Public school building were erected. And either the one or the other will have to be secured for this community at once, according to the decision of the Provincial authorities. On the other hand the increased efficiency of Consolidation would very soon advance this section to a foremost place as an attractive rural-educational centre, and added to such a school would quickly develop a fully equipped, up-to-date High School, outfit equal in advantages to the average town and city Institutes with the substantial added advantage of being in the country. It was also pointed out that if a Community hall were included in the Consolidated building, a grant of at least \$2,000 would be made by the Department of Education, a boon much to be desired for the self-education and the holding on the land the rising generation of this whole section. This would bring to the schools consolidating the substantial grant of approximately fourteen thousand dollars from the Department.

**BETHESDA**

Mr. Murray Bolander is visiting friends in Port Elgin over the holiday.

Miss Heaslip our popular school teacher, is spending the holidays at her home near Newmarket.

Miss Mary Steckley and Miss B. Bolander of Toronto spent Christmas with Miss Steckley's mother.

The Home of Good Groceries

**NO ROADS FOR WHITCHURCH CRITICS**

While there is no election in Whitchurch, it didn't prevent a real warm nomination meeting.

As anticipated Deputy-Reeve Baker aired his views on the action of York County Road Commission refusing to place a detailed statement of their road-building expenditure for 1922 before the county council "virtually saying," said Mr. Baker, "it is none of your business how we spend the ratepayers money." Mr. Baker again referred to the cost of stone when he said, "Mr. James, told the county council they were paying \$1.25 per ton for stone at the quarry. He later backed down, and said the cost was only \$1.10 when he went to his office," and added the speaker, "I am told they receive a discount of at least 20 per cent off this price. Where is the money going?" Mr. Keith told him the commission was an independent one, and county council had no right to know. He figured out the cost of a water bound macadam road on the commission's own figures for supplies, and he couldn't make the price per mile within five to seven thousand dollars of that charged by the commission. Further, Mr. James didn't show where the difference went to.

Clifford Piper of Markham township who built the roads in Whitchurch for the commission was present, and made some startling statements. He wished to tell the electors of Whitchurch to their faces that so long as they sent men to County council who would dictate to the Road Commission; Whitchurch need not expect anything in the way of good roads. "Why," said he, "I was building roads here last year, and I was moved clear out of this territory into a place where there was a reeve who had served for nearly twenty years; but who did not criticize the commission, and who was not making a laughing stalk of himself."

"A voice from the audience—'Isn't it spit work then, that we can get nothing done here?'" Mr. Piper was told that if Whitchurch was going to criticize the roads built in their township, no more roads would be built.

The eighth concession was referred to as a disgrace and a shame and the protests of the people who had to travel that way were unheeded.

When Deputy-Reeve Baker immediately replied to the plain talk of Mr. Piper, the ratepayers were highly excited. Mr. Baker declared he had done all in his power to have the 8th repaired. "What you have just heard shows how this Commission is holding a club over the people, making them keep their mouths shut, otherwise their municipality would get nothing." Mr. Piper told me if I wanted anything done, I must get into the circle or the bunch. Get into this bunch which tells me stone costs so much, and we find it is less later."

Mr. Piper—the commission isn't showing you all the accounts, and they are not going to." Baker—"Yes, they are, (applause). A big surprise was sprung by Reeve Crawford after he received an acclamation. During his remarks he was asked if he would support the resolution in County council, for a detailed statement on roads, showing the people where their money is spent. Mr. Crawford said, "I haven't quarreled with the commission, and do not want to. I think the township is getting a fair deal from the commission. We receive more from them than we pay in." A further demand from the audience for a yes or no answer, elicited no results.
