**Canada Has a Drug Problem**  
Dr. J. A. Amyot, Deputy Minister of Health, in a speech in Ottawa last week declared that Canada has between 12,000 and 15,000 drug addicts who constitute a serious menace to the Dominion. His department is at work combating the evil.

**No Ordinary Feller.**  
"Yes, my dear," said the old lady, "there's one thing I'm thankful for, and that is that my daughter Lizzie married a gentleman."  
"And 'ow do you know 'e was a gentleman?" said her friend.  
"Because I put 'im to the test," replied the old lady. "The first time my daughter brought 'im 'ome, I gave 'im a cup of 'ot tea, and when 'e poured 'it out into 'is saucer, 'e didn't blow on it like any ordinary feller, 'e fanned it with 'is 'at."

Live so that you beautify your name, even if it wasn't beautiful to begin with, making it stand in people's thoughts for something so lovely and pleasant that they never think of it by itself.—L. M. Montgomery.

**City in India**

**H. Stephens**  
The first remedy to be adopted, therefore, was to find a place where neither of these conditions would exist.  
As a first step in this direction, about 50 acres of agricultural land, with open ground all around it, was acquired on the outskirts of Bangalore, and this was laid out as a new plague-proof settlement. The roads and streets were made very wide for India, and were sunk about 18 inches below the ground level. Thus the building sites between the roads and streets were in the form of elevated platforms which kept the houses high and dry and free from dampness and moisture during the wettest season. Small detached houses for the poor were erected with open yards around each house. The site of each building was one-tenth of an acre, and was divided into three parts, only one of which could be built on, the other two parts being left as an open yard. This made the new town not only plague-proof, but also a particularly healthy and agreeable place to live in. The town has become very popular, and is financially a great success, spreading rapidly in every direction.  
Bangalore has now learned that plague is a preventable disease, and that its bitter experiences of the past could have been avoided if overcrowding had been checked and kept under proper control.  
Younger cities may learn valuable lessons from these experiences. Cities are going to expand more rapidly in the future than in the past, and if nature's laws are strictly observed, a healthier race of city population will come into being.

**Homesickness.**

Here the cloudy light  
Circles on crystalline peaks,  
And the soft fall of satin petals  
Stirs wide eddies of perfume  
In the emerald pools  
Of walled gardens.  
Here the delicate accent  
Of bright waters  
And the cadenced music  
Of a gentle tongue  
Float upon the air  
And curl themselves in silence  
As late sunlight  
Fades in deep rivers.

The grapes have purpled many times  
Against that wall,  
I know the fountain's legend now  
By heart;  
The story of this gracious land  
Is told.

Those harsh, time-eaten hills,  
Like peasant women, stooped and shawled,  
They crouch as though to warm themselves together;  
They wait as peasant women wait,  
For their own sons.

I must go back to them;  
I must go back.  
—Henry Bellamann.

**Tracing Cows by Nose Prints.**

You know that no two people in the world have finger-tips that are exactly alike. The arrangement of the little ridges and furrows of the skin differs in every case, hence finger-prints are the most certain method of identification that is known.

It has been found that a very similar method can be used for identifying cattle, but in this case the nose is used as the testing spot. The wrinkles of the tip of the nose are never duplicated in different animals.

Nose-prints are made by applying a thick ink to the soft skin between the nostrils, and then taking an impression upon a piece of soft, absorbent paper.

They supply an invaluable method of sorting out valuable cattle when, as sometimes happens, they become mixed up after a show. No one could safely steal a pedigree animal whose nose-print had been taken and "filed," for it would be impossible for the thief to remove the means of identification.

**Air Patrol Service Proposed.**

Banff, Alta.—A survey of suitable aerodrome and landing sites in connection with a proposed aeroplane patrol in Banff and Kootenay National Parks has been completed by the Acting Director of the Air Force and the Inspector of Canadian National Parks. An aerodrome site near Canmore in Banff National Park and eight other essential landing places were selected in the two parks, as well as a number of emergency and non-essential landing grounds.

With the opening of the Banff-Windermere motor highway across the Rockies, and the resulting increase in traffic through the parks the fire hazard will be considerably enhanced and it is believed that the establishment of an aeroplane patrol service will be of great importance in this connection. Owing to the mountainous nature of the country the regular warden service is handicapped in its patrol work and the feasibility of aeroplanes in augmenting the service has been under consideration by the Department of the Interior for some time.

**Hoot! Hoot!**

A raw Highlander was put on guard outside the commanding officer's tent. In the morning the colonel looked out, and though he prided himself on knowing all his men, the sentry's face was unfamiliar.  
"Who are you?" he asked.  
"I am fine, thank ye," was the reply. "Hoo's yerself?"

**ENGINEER MAKES 17 POUNDS GAIN**

**Old Time R. R. Man Says Tanlac Put Him Back on Job Feeling Fine.**

Oran Denne, a veteran railroad man, living at 53 Forest Ave., St. Thomas, Ont., has obtained remarkable results from the use of Tanlac. Mr. Denne wears a gold button given him by the Michigan Central, in recognition of his forty years continuous service to that road.

"A year ago," said Mr. Denne, "I had indigestion so bad I couldn't eat and was too nervous and miserable to sleep. I was almost wild with headaches and dizziness, lost weight rapidly, and thought I was about done for. After getting so weak I couldn't work I took a trip out West, thinking the change might help me."

"But I kept getting worse until my sister, whom I visited in Kallispell, Montana, got me to try a bottle of Tanlac. In a week's time I was a different man, and in seven weeks I had gained seventeen pounds and returned to my work in as good health as any man in St. Thomas. I never have any of my old troubles now. That's just how good a job Tanlac has done for me."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

**MOTHER!**

**Move Child's Bowels with "California Fig Syrup"**

Hurry, Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even a cross, feverish, constipated child loves its "fruity" taste, and mothers can rest easy because it never fails to work all the sour bile and poisons right out of the stomach and bowels without griping or upsetting the child.

Tell your druggist you want only the genuine "California Fig Syrup," which has directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

**No Monotony.**

According to the ten-year-old daughter of a certain clergyman, there are ways of making an old sermon seem almost new.

"Jane," said one of the friends of this young critic, "does your father ever preach the same sermon twice?"

"I think perhaps he does," said Jane, cautiously, "but I think he talks loud and soft in different places the second time, so it doesn't sound the same at all."

**MONEY ORDERS.**

Dominion Express Money Orders are on sale in five thousand offices throughout Canada.

**Why People Slip on Ice.**

Why is ice slippery? It is not its smoothness that makes it so, for ice, as a matter of fact, is nearly always rather rough. A sheet of glass is far smoother and much harder, but you would not be able to slide far on it.

When you place the sole of your boot or the blade of a skate on the ice, the pressure caused by your weight causes a slight melting to take place.

In this way a thin film of water is formed between boot (or skate) and the surface of the ice. This film acts as a lubricant which allows your foot to glide forward almost without effort on your part.

In the long night of the Arctic regions the cold is so intense that the pressure caused by one's weight is not sufficient to melt the surface of the ice.

Explorers often report coming across sheets of ice which for this reason are hardly more slippery than an ordinary stone-flagged pavement.

**Destruction of Eider Duck.**

A considerable decrease in the number of Eider ducks, one of the most valuable of the water fowl protected under the Migratory Birds Convention Act, is reported this season by the Chief Migratory Bird Officer for the Maritime Provinces. This scarcity is more noticeable along the sea coast of Nova Scotia, one of the principal lanes in the migrations of water fowl, this official states in a recent report to the Commissioner of the Canadian National Parks. Similarly in Massachusetts the Director of the Division of Ornithology of the State Department of Agriculture in his "Notes for Observers" of November 15 remarked that Eider as well as other ducks and geese were appearing in Massachusetts water with few if any young testifying to a disastrous nesting season.

A woman's face is usually more beautiful when regarded from the left.

**"Cascarets" 10c**

**For Sluggish Liver or Constipated Bowels**

When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two Cascarets to relieve constipation. No griping—most laxative-cathartic on earth for grow-ups and children. 10c a box. Taste like candy.

The skin of a large whale is 2 feet thick.

**Dandruff?**

Rub Minard's Liniment into the scalp. It cleanses the surface, it opens the pores, it works down to the roots and stimulates them into activity. Apply four times a week, rubbing thoroughly—no dandruff.

**MRS. DAVIS NERVOUS WRECK**

Tells Women How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said he could do nothing for me. My husband's mother advised me to take the Vegetable Compound and I started it at once. I was able to do my work once more and it was a pleasure, not a burden. Now I have a fine bouncing baby and am able to nurse her and enjoy doing my work. I cannot help recommending such a medicine, and any one seeing me before I took it, and seeing me now, can see what it does for me. I am only too pleased for you to use my testimonial.—Mrs. EMILY DAVIS, 721 McGee Street, Winnipeg, Man.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ont. This book contains valuable information.
