THE GREAT GIFT  
Nature has opened her generous hands for the children of Earth; has bestowed on us—through the precious gift of Vision—more than the wealth of King Solomon's coloring; more subtle changes than all the arts and sciences of man have yet created.

The eyes are the gateway to the mind; the Expression of the Soul; the Inspiration of the Heart. By their miracle are the pages laid open—where lie vast stores of learning; where the workings of numberless minds are yours; the pulse of countless hearts, the history of all peoples. Ours is the sacred duty of conserving this precious gift; yours is the solemn obligation of keeping at its best this priceless heritage.
