It Has to Pass Our Baker First
EVERY 'milling' of Quaker Flour must satisfy our baker before it leaves the mills.
The wheat is analyzed by our chemists for protein, gluten and ash; the perfect grains are selected and cleaned. The product is tested at every stage of milling. A perfect flour is the result.
But the supreme test takes place in our own bakery. Every day's 'milling' of Quaker Flour must receive the O. K. of our expert baker. It must produce bread perfect in size, flavour, colour and texture, before it can leave the mill: Nothing is left to chance in producing Quaker. You will make far better bread and cake with Quaker.
Always the Same—Always the Best
Just try Quaker.
