At the annual 'meeting of the Bethesda & Stouffville Telephone Co. held in February, authorization was given for the issuing of \$40,-000 worth of first mortgage gold bonds, for a period of ten years, to bear, interest at 7 per cent per annum. The new issue is to take care of a payment of \$25,000 of the previous issue of bonds, falling due in March, and for the extension of the company's business. The investment looks like a good one, with splendid interest rate, and local investors would do well to pick up these debentures, in preference to investments they know little or nothing of. The annual statement presented at the meeting was most favorable. The assets were considerably increased, being advanced from \$84,-254 to \$87,607. A healthy balance is carried in the reserve account, and the company has met all its liabilities, and paid a dividend on Feb'y 15th of several thousand dol-

ISSUE LOCAL MONEY IS IN ON THIS DEAL

According to a despatch from Sun_ derland, an investigation is to be held into the investment made by Sunderland people into a certain land deal whereby thousands of dollars is believed doomed to investors in Sunderland, Uxbridge and Stouffville. Inspector Miller of the Provincial Police is in the Sunderland district now, collecting data on complaints made. It is alleged the big land scheme was represented to pay 12 per cent dividend. A doctor in the district north is said to have put \$40.000 into the scheme, while it is claimed that the combined investment of people in Stouffville and vicinity would approximate \$100 .-000. In many instances' elderly people who are to old to work, were induced into the scheme, and now find themselves without financial means with which to exist.
