LEMONVILLE
Next fall Lemonville children will be housed in a fine new school building. While the new school will not cost the ratepayers more than \$3000 the building will be worth at least \$4000 or a little more. Our energetic secretary, S. W. Hastings, is doing his part in organizing the workers of the secretary, and when the sleighing was good he had the satisfaction of having 18 teams respond to the call to haul brick from Yonge street, which were purchased at the reasonable price of \$15 per thousand. That day the total number required, 12,500 were laid on the new school site ready for the builder. They are a marblette brick and the colorings between the layers will give them a very attractive appearance. While a brick layer has not yet been employed, John Ashenhurst of Goodwood has been awarded the contract for the carpenter work. John's reputation as a builder has stood him in good stead. The site chosen for the new building is on the Mac Cook farm, where a half acre has been purchased at a very reasonable figure. Arrangements for financing this \$3000 expenditure is unique in that the money is being loaned by two of the ratepayers on note which will all be repaid in five years. The co-operative plan, or holding of "bonds" will save the section from \$1000 to \$1,500, and its a lot easier paid in that manner than in hard cash these days when it takes all a man's savings to pay taxes and other items.

The Value of Good Judgment

YOU are considering the purchase of a Car.

You are not quite sure of your judgment.

You desire to know what the judgment of other car buyers has been.

It has been the well-ordered and considered judgment of forty-seven car buyers out of every hundred who have bought cars to buy a Ford Car.

Of the remaining fifty-three, the highest number who purchased any one make of car was sixteen.

Forty-seven people will average among them better judgment than sixteen.

And it was the well-ordered and considered judgment of these people to buy Ford Cars. These people were scattered from Halifax to Vancouver—with the average transportation needs to solve for themselves and their goods. They bought Ford Cars.

Their judgment was based on—

- Lowest Initial Cost.
- Lowest Upkeep Cost.
- Lowest Prices for Repair Parts.
- Ability to obtain parts readily and anywhere.
- Ability to obtain service at any one of 3,000 Service Stations—in a straight line from Halifax to Vancouver these Service Stations would be only one mile apart.
- The knowledge that the price of car, the repair parts and service labor is standardized to the lowest possible point.

The well-ordered and considered judgment of forty-seven purchasers out of every hundred purchasers of cars to buy a Ford Car should be the determining factor on your part to buy a Ford Car.

The Price of the Touring Car is \$445.

Freight and Government Taxes extra.

And it can be bought on a monthly payment plan.
