is published THURSDAY AFTERNOON TERMS—\$2.00 a year in advance A. V. Nolan, publisher STOUFFVILLE ONT.

### EDITORIAL COMMENT

A bill is before the Dominion Parliament to make lawful the marriage of a woman to her deceased husband's brother or such brother's son.

Hon. E. C. Drury, as Premier of Ontario draws a statutory salary of \$9,000 per year. His Deputy Minister receives \$4,600, while his secretary is paid \$2,550. In addition to the \$9,000 the Premier's travelling expenses were \$750, which is small on account of free railway transportation accorded M.P.'s.

There is a good deal of complaint that rural mail carriers are not paid sufficient money for their services. From information which we gather from hansom that is quite correct, but still the mail carriers must blame themselves, for the jobs are all given by tender, and a government could not be expected to pay more for the carrying than people ask for the work. There are 1958 carriers of rural mail and the average yearly remuneration is \$814.49, which includes a number of carriers whose time varies daily, semi-weekly etc. City mail carriers of which there are 1174 in the province receive an average yearly pay of \$1335.

It has been predicted in this column that the Adolescent School Act as it relates to boys and girls sixteen to eighteen years of age would never be carried out, for public opinion is too strongly against it. Now comes the announcement on the floor of the Legislature, that the act is to be modified, as regards the ages we refer to. The Educational Dept. was overstepping the mark a bit when they attempted to force young people of eighteen years old to attend school a certain number of hours per week. According to the new announcement parents on the farm may have the option of sending the children to school between 16 and 18, or keeping them at home for farm work.

On Saturday of last week the supplementary voters' lists for the Village of Stouffville was issued from the Tribune office. It contains all the names of married women and spinsters who do not own property, as well as the men who are not property owners, and the list is now in Clerk Urquhart's office for your inspection. All whose names are on this list or the regular voter's list gotten out last June will have a vote at the next provincial election which must be this summer or fall. If your name has been omitted, you will have an opportunity to get it added when a revising board is appointed at a future date. See to it that you are on the list or you will be deprived of a vote.

The Town of Uxbridge finds itself in a peculiar position in respect to its high school. Recently the Board of Education, after great pressure from the Ontario Educational Department, asked the council for \$75,000 to erect a new high school. This was reluctantly granted. The board then purchased a lot for \$1500 and paid for it. After plans were drafted for the new building it was found tenders could not be secured at less than \$90,000. When the Board went to the council for the amount required over the \$75,000 granted, the request was refused. The town already has an excellent school, although it is overcrowded, but the Dept. of Education, are not satisfied to allow a wing to be built to the present school. Taxes in Uxbridge are almost burdensome at present, and many people wonder how they are going to meet the cost of the proposed school. We understand that Premier Drury is to be appealed to in an effort to have set aside the demands of the Educational Department. As Premier Drury and his legislators enact the laws which govern the Department of Education we cannot see what he can do in the matter. If a municipality builds a high school today the county pays 56 per cent of the costs, and as three have been built the past few years in York, Stouffville is paying well for outside schools in this county. The demands of the Provincial Department of Education are growing serious.

**AUCTION SALE OF FARM STOCK,** etc. also Household Furniture to be sold by public auction at Lot 23, Con. 10, Markham, (townline Markham and Pickering) on **SATURDAY, APRIL 7th, 1923** The property of J. ### EASTER SUGGESTIONS

Wonderful Christ, Divinely fair; A gem of light, Bright Morning Star Shed upon us Thy refulgent rays And enlighten our benighted ways. Daily to Thee our prayers ascend To Thee, our best, our truest friend; Oh guide us to that glorious place Where we shall see Thy smiling face And join in anthems of joyful praise Triumphant in song our voices raise; And these among the supremely blest Forever share an eternal rest. E. E. Percy

### MOUNT ALBERT

Mr. Borinsky of Stouffville was a recent visitor with his son here. The banquet under the auspices of the Women's Institute on Friday evening was an unqualified success. About 150 were present.

Miss McKenna and Miss McKenny were Toronto visitors on Saturday. Mr. M. Little has been confined to his home for a couple of weeks through illness.

Mrs. Clarence Pearson of Camrose, Alta., accompanied by her two young sons, are visiting for a few days with Mrs. F. Pearson, and will then go on to New Brunswick, her old home where she expects to spend the next few months.

Mr. and Mrs. Horace Ramsden and Mr. and Mrs. Stewart Terry of Toronto, attended the W. I. banquet on Friday evening and spent a couple of days visiting their numerous friends here.

We are pleased to learn that Miss Olive Williamson is making good improvement after her recent serious operation.

Mr. and Mrs. Douglas Thompson have moved from town and have taken up their abode on the farm at Zephyr.

Almer Sisler of Toronto spent the week end with his sister Mrs. Jas. Lawson.

The Ladies Aid of the Methodist church will hold an entertainment in the church on Wednesday evening April 4th. Madame Nickawa, assisted by local talent will present the program.

Mrs. Joseph Byatt is around again after an absence of a few months spent in the city and other parts of the country.

### RINGWOOD

Mr. and Mrs. Earl Drewery are getting moved to their second farm a half mile south of where they have been living. In the place vacated by them will come Mr. and Mrs. Thos. Lilly who have been on a farm adjoining Markham village. Mr. Drewery had been working the place he is moving to in conjunction with the one he vacates, and he will now have 100 acres to look after instead of 200. His helpers, Mr. and Mrs. George Sluman have leased a fruit farm at Port Stanley and leave this week. We hope they will meet with every success in the new venture. When they vacate the farm house on lot 32 Mr. and Mrs. Drewery will get permanently settled therein.

### \$500,000 FOR NEW ROADS IN YORK COUNTY

Exclusive of maintenance, \$500,000 will be spent on the Toronto and York good roads system this year. The construction programme is now being advertised. It includes widening and strengthening pavements on portions of the system close to the city, the extension of several roads northwards, completion of gaps where work has been proceeding from two directions, and the construction of over 100 culverts. Toronto and York each pay 30 per cent of this expenditure; the rest is borne by the province.

West of Toronto the programme calls for the completion of Brown's line in Etobicoke township and the portion of the Scarlett road lying in York. The Don Mills road improvement will be finished as far as Donlands. At the present time the pavement on all the old portions of the system is only 10 feet wide. The proposed improvement consists of widening the pavement to 20 feet and strengthening it.

The York road will be finished to the C.P.R. crossing at the east side of the village of Agincourt. This will provide another "loop" for city motorists. By the end of the summer the York road will be paved from Yonge street to Agincourt, and it will thus be possible for motorists to make the circle up Yonge street, east to Agincourt and back to the city along the Kennedy road on paved surface all the way, a trip of approximately 20 miles. There will soon be a circle of this kind on the east side of the county, as well as several on the west side.

The Weston road pavement will be extended from Klinburg to No. 16 and from Schomberg station a mile south. This road is now in excellent motoring condition, and in a few years will be paved its entire length in York County.

Commencing at the point reached last year, the Queensville or Sutton road will be pushed north two and a half miles. Trouble caused by the Ballantrae swamp will be obviated by deviating the Kennedy road. By-laws for purchasing the necessary land was passed by the County Council in January. At Milliken the existing pavement on the Kennedy road will be widened and strengthened a mile each way. The Vaughan road will also be improved for a mile and a quarter at Elia.

Construction of culverts on the existing system is now nearing completion which is taken, as a sign that further mileage will shortly be added. It is not likely that any bridges will be built this year.

### GOODWOOD

Mrs. James visited her daughter on Wednesday last week. Miss Avery visited her sister Mrs. Woodward over Sunday. A couple of friends from Stouffville visited Mrs. Johnson and daughter last Thursday. Robt. Wagg visited his brother Isaac for a few days, also Mr. Easton called there on Wednesday. Miss E. Johnson spent a couple of days visiting friends in Stouffville last week, and attended the Women's Institute there. Miss Lillian Dowswell was at the league last week and was called upon for a few remarks. We are pleased to greet old members as well as new. Mrs. C. Johnson and Mrs. Lane

have planned an open meeting for the community to have an opportunity to help the Mission Band of the Methodist church on Good Friday. The topic at league last week was taken by one who has had some experience in Christian work, Mrs. Johnson, subject, "Christian Influence," and for a text took "Ye are the salt of the earth." There was also a reading given by another member, which was enjoyed by all. The S. School was again reviewed by Rev. Mr. Kendall, after his opening remarks and an anecdote about the "Bad Man," and the "Good Man" of Goodwood, he proceeded to review the lessons, his talk as usual being seasoned with pointed illustrations in which several present, including the correspondent, were brought into the limelight by his comments.
