

100 LBS. OF MILK

What you can Make out of It?

The dairy industry in Canada is growing rapidly and it pays to study it. When milk is shipped to the city according to the Dairy Act, it has to contain no less than 3 1/4 per cent of butterfat. If same contains less than that, then you are shut off of sending until you are able to bring butterfat up to the standard. If same occurs too often you are liable to a fine. To avoid that, the majority of farmers are shipping milk containing 4% butterfat. But on the average we can figure 3 1/2 % of butterfat, which there is no doubt about, that 100 lbs. of milk contains 3 1/2 lbs. of butterfat. The price of such milk at the present is \$2.28 per 100 lbs. f.o.b. Toronto.

For example, 100 lbs. of milk	\$2.28	3 1/2 lbs. of butterfat is worth \$1.75
Cost of shipping at lowest price.....	18	The amount of buttermilk you get back on same is worth
Net to farmer.....	\$2.10	Total to farmer..... \$1.85

For your 96 1/2 lbs. of skim milk you are only getting 25c. when it is worth more than twice that for feed in comparison with grain. Besides the inconvenience you are having by selling milk, which you are not putting up by selling cream as shown below.

Here are the Comparisons:

SELLING MILK

1. You expose yourself in all kinds of weather.
2. You have to drive every day.
3. To every 100 lbs. of milk you are hauling.
4. You have to take orders from the Government Inspector, and do as he says.
5. When your milk goes up in butterfat you do not get the benefit.
6. When your milk goes down in test you are at once stopped from shipping.
7. There is a possibility of an overflow of milk in the summer months as it has occurred many summers.
8. The price of milk is lowest in the summer months.
9. In most cases you get paid once a month.

SELLING CREAM

1. You can bring your cream whenever convenient to you or our truck will call for same.
2. You can bring cream once or twice weekly.
3. It just takes 12 lbs. of cream on the average.
4. You are your own boss and do as you please, and can do things when convenient to you.
5. When your cream goes up in test you are benefited at once.
6. When your test goes down you are paid accordingly.
7. With cream same is impossible as it never has occurred yet.
8. So is cream with the exception of not so long a period.
9. We pay every day or as often as cream comes in.

The following facts speaks for themselves. One big fact is that CREAMERY BUTTER is taking the place of dairy butter very rapidly, and due to that it makes the exportation of butter more possible. The growing demand for CREAMERY BUTTER in all larger towns and cities makes higher prices for CREAMERY BUTTER.

We alone are making 95% of the butter that is made within eight miles of here. From economical and convenient standpoints it pays to sell cream.

IF YOU ARE NOT A SHIPPER WE WOULD BE PLEASED TO HAVE YOU AS ONE.

DEATH OF PETER MACNAB

At the private pavilion, General Hospital, Toronto, there passed to his rest on Easter Sunday, after a short illness one of Claremont's most highly respected citizens in the person of Peter Macnab, in his 69th year. Mr. Macnab was born in the old stone store in 1855 and spent practically all his life in Claremont.

At the age of 14 he entered the general store conducted by his uncles Duncan and John M. Macnab, where he worked continuously until their deceas in 1911, when he took over the business, together with the post office, where he gave most efficient service until a short time ago, on account of failing health, he retired from business and confined himself to the post office. In 1885 he married Miss Agnes Scott, of Claremont who survives him, together with an only sister, Miss Mary Macnab, of Claremont, and two daughters, Mrs. D. P. McFarlane of Harriston and Mrs. K. Renfrew, of Toronto, also three grandchildren. Mr. Macnab was a staunch, active and willing member of the Presbyterian church being Sunday School superintendent and preacher for many years. He was also a member of Brougham Union Lodge A.F. & A.M. His straightforward and honorable disposition won for him the confidence of a wide circle of friends and his genial sense of humor made him a general favorite with old and young.

Wm. Pipher had some difficulty in getting his threshing machine to Abram Raymer's where he finished threshing his grain and alike.
