

# Send For These Tested Bread Recipes

FOR housewives who want to know all about Quaker Flour, we have compiled a folder of home-made bread recipes. They were furnished by enthusiastic users of Quaker Flour and each has been thoroughly tested by our Master Baker. These recipes make bread-making easy in the home. A postcard addressed to us will bring you a copy, without charge. There is no uncertainty about the way Quaker Flour will bake, because every bag is uniform in quality. It is tested hourly in the milling process.

# CANADA PUTS STOP TO SILK SMUGGLING

## Vigilant Officials Stamp Out Illicit Traffic Along the Niagara Frontier.

A despatch from Bridgeburg says:—Collector of Customs and Excise Frank T. Pattison believes that the backbone of the silk-smuggling industry has now been broken. With additional preventive measures that have been taken, it is his belief and the belief of other officials that silk smuggling has been practically stamped out along the Niagara border—a far different condition from that which existed two years, or even a year ago at this time.

Officers stationed at this frontier port have been active and on the job 24 hours a day for some weeks in efforts to secure the upper hand of the smuggling combine.

Cigarettes are about the only problem left with which border Customs officials have to cope. This later traffic is likewise being cut down to a

minimum although it is difficult entirely to stamp it out.

The frontier port of Bridgeburg has come through, with honors, a difficult task in stopping the activities

of the silk smugglers, and it is now predicted that the textile trade, struck several bad blows through successful

coups by the rivermen who were handling the smuggling, will now re-

vive considerably. It will be impossible totally to check silk smuggling, but at the same time it is believed it is now as closely confined as it is

possible to keep it.

# The Ford Has Passed Them All

IN ten years the Ford Car has passed the street car, the horse and buggy and the locomotive as a means of transportation.

The Ford has given the public transportation which combines all the advantages which other methods offer with none of their disadvantages.

It is giving the railroads real competition in fast cross-country transportation.

It has ousted the street car in ready convenience and low mileage costs.

It has pushed the horse and buggy completely into the discard in low first cost and low maintenance costs.

The number of people who buy Ford cars will set the price of Ford cars.
