Surnames and Their Origin

KELSEY
Variation—Kelsey.
Racial Origin—English.
Source—A place name.

Here is a family name which though it is properly classified as an English one, really traces back to an ultimate Celtic origin rather than to Anglo-Saxon sources. As a family name, however, it is just as likely to be borne by descendants of the Anglo-Saxons as the Cornish-British from whom the place name comes down.

The village or town of this name, spelled Kelsey to-day, is in Lincolnshire. An older spelling, and one closer to the original name in the Cornish tongue, was "Keisyc" or "Kelsey."

"Kel," in the ancient tongue of the Cornish, signified a "neck" in the geographical sense, and the word "syc" or "syc" meant "dry."

The place name is, of course, of great antiquity, antedating the Anglo-Saxon invasion of that section of England, and like other place names in the middle ages, it became the basis of a family name indicating originally that

the bearer had come from that place or was in some way connected with it.

FENNESSY

Variations—Finnessy, O'Fennessy, O'Finnessy.
Racial Origin—Irish.
Source—A given name.

Here is an Irish family name which while perhaps not so widespread to-day as some other Irish names, carries with it much of historical romance.

This name was borne by one of the most powerful clans in Ireland during the Middle Ages, which was one of the last in its section of the country to go down before the force of English arms. The Gaelic form of the clan name was "O'Fiangusa," derived from the given name of the chieftain "Fiangus," who led it into fame at a very early period of the Middle Ages. The strong hold of the clan was near "Cashel of the Kings" in Tipperary County.

The pronunciation of the old Gaelic name is not so different from that of the modern Anglicized form as might be supposed from the spelling.

PAIN IN THE JOINTS

Is An Indication That the Blood is Thin and Watery.

The first sign of rheumatism is frequently a pain and swelling of one of the joints. If this is not treated through the blood, which is the seat of the disease, the poison spreads, affecting other joints and tissues—sometimes rheumatism attacks the heart and is fatal.

A remedy that has corrected many cases of rheumatism is Dr. Williams' Pink Pills. These pills enrich and purify the blood so that the poisonous rheumatic matter is driven out of the system as nature intended. Miss Gerie Denne, Washago, Ont., was attacked with rheumatism and found relief through Dr. Williams' Pink Pills. She says:—"About a year ago I was attacked by rheumatism and for two weeks was confined to my bed. The trouble was so painful, affecting the joints of my limbs so that I could not stand alone. Mother had a box of Dr. Williams' Pink Pills in the house and thought they might help me. I began taking them, and when I had taken these pills got a further supply, with the result that the rheumatism vanished and I was a well girl. I may add that my mother and two of my sisters have also used the pills for various ailments with equal success, and now we are never without them in the house."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or by mail, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Soliloquy.

The roads of June are paved with shadows dancing,
The flowers new magic know,
Through trees, thick-leaved, the silver moon is glancing,
The glad reeds whisper low.

Soft ivy-fingers at my pane are tapping,
When zephyrs drowsy dream,
And idle willows in the dusk are lapping,
The waters of the stream.

June's cup of loveliness my heart is quaffing—
Ah, merry sounds the surge upon the bar,
As in the moonlight lone it tumbles, laughing
At Even's loyal star.

The heartstrings of the summer night are throbbing
Like pulsing of sweet lyres,
Then laughter of the creeping Morn comes, robbing
The dream and heart desires.

—Allen Ward.

Not Shaky Enough

The Guide—"Now that you've seen the real thing, how do you like the Indian snake dance?"
"Miss Tiptoes—"Not a bit. I expected to see some sinuous wriggles that I could introduce in a hesitation."

Keep alive within yourself that spark of human greatness called sympathy. It is the voice of your Creator summoning you to the unity of common-interest in creation.

ISSUE NO. 23—23

Eastern Church to Adopt Gregorian Calendar.

On October 1, the ecclesiastical calendar of Eastern Christendom will be brought into harmony with the Gregorian calendar, instead of sticking to the Julian, the Congress of all Orthodox Churches, under the presidency of Patriarch Meletios, decided.

On October 1 thirteen days will be added to the calendar, making it October 14, the same as most of the rest of the world. The change is due to the fact that most of the Oriental countries have adopted the Gregorian calendar, the latest country to do so being Greece.

The decision unifies celebration of all fixed Christian feast days in both east and west. As for Easter, the congress decided the Gregorian method of reckoning it is erroneous. Delegates look forward to adoption of a scientific calendar everywhere that will make Easter a fixed feast.

Meanwhile the congress charged the observatories at Athens, Belgrade, Bucharest and Petrograd to draw up a table fixing Easter scientifically until the year 2000.

Giant Spiders.

A spider native of Trinidad has a body as large around as a fifty-cent piece, and eight legs, which spread themselves out to a circumference the size of a cheese plate. For months at a time these spiders, husband and wife, will live irreproachably together in a chosen corner of a cupboard or ceiling, where they stay during the hours of daylight, the wife clasping her white egg case to her body by her forelegs. After dark, when they hunt, they run all over the house, for their spin web, but get their living catching cockroaches by sheer fleetness of foot. They are seldom disturbed or killed, partly because of their very considerable running powers.

BABY'S OWN TABLETS AN EXCELLENT REMEDY

When the baby is ill—when he is constipated, has indigestion, colds, colic or simple fever or any of the other many minor ills of little ones—the mother will find Baby's Own Tablets an excellent remedy. They regulate the stomach and bowels, thus banishing the cause of most of the ills of childhood. Concerning them Mrs. E. D. Duguay, Thunder River, Que., says:—"My baby was a great sufferer from colic and cried continually. I began giving him Baby's Own Tablets and the relief was wonderful. I now always keep a supply of the Tablets in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Awakened Apple Tree.

It seems so short a space ago I stood Beside you 'neath a dark and cloudy sky,
To all appearance dead, your naked wood Raising aloft stiff branches, black and dry.
Without foreknowledge we could not conceive That you would have a resurrection new;
How soon such loveliness you would receive.
That filled with pleasure, we would gaze on you,
Knowing that God into this world of ours Had placed this wondrous miracle of Spring.
This tree awakened to a soul in flowers,
Exquisite joy into our hearts to bring.

—Christina W. Partridge.

Sell Vase-Scratched Inn Window for \$65.

"There are Three Crosses" at your door, hang up your wife and you'll count four."
A small pane of glass bearing the above couplet, scratched in a moment of chagrin by Jonathan Swift, the famous Dean of St. Patrick's Cathedral, Dublin, has just been sold by auction for \$65.

Swift was wont to sleep at an inn called "Three Crosses" at Willoughby, near Rugby, on his way to and from his deanery in Ireland. On one occasion the landlord's wife, being occupied with other visitors, offended the frascible author of "Gulliver's Travels" by paying him less than usual attention. To mark his displeasure of a hasty observation, Dean Swift scratched the couplet on the window with his diamond ring.

That was 200 years ago and since that day the name of the inn has been changed to Four Crosses.

Electric Rain Alarm.

Falling rain is likely at any time to drive into a room and damage the floor, wallpaper and furnishings. One manufacturer has devised an electric rain alarm which will give warning as rain in any quantity falls into a room. The device consists of a box containing a battery, a buzzer, a small electric light and a switching arrangement that holds what the maker calls a "rain-disc." The box is put on the window sill at night when the window is left open for ventilating purposes. The falling rain drops on the disc, switches on the current and throws both light and buzzer into circuit. The buzzer awakens the sleeper and the light shows which window needs attention.

PRICE OF A HOME SPENT IN VAIN

Mrs. Logue States Money Failed to Buy Health, But Tanlac Restored It.

"I bless the day I started on the Tanlac treatment, for it completely ended my troubles, which had kept me in misery ever since I came here from Scotland eleven years ago." Is the grateful statement of Mrs. Emily Logue, 129 N. Park St., Hamilton, Ontario.

"At times indigestion, gas bloating and heart palpitation tortured me till I thought it would drive me frantic. My appetite was so poor I scarcely ate enough to keep going, and I grew so weak and worn out I had to let my housework go. My head ached till I thought it would split, I had fearful dizzy spells, and couldn't get a good night's sleep."

"I spent enough money on medicine to buy a home, but nothing helped me until I started on Tanlac. I now have a splendid appetite, my digestion is perfect, and I always feel strong and well, for Tanlac has built me up to robust health and I will always praise it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are nature's own remedy for constipation. For sale everywhere.

MRS. ANDERSON TELLS WOMEN

How Backache and Periodic Pains Yield to Lydia E. Pinkham's Vegetable Compound

Leslie, Sask.—"For about a year I was troubled with a distressing down-bearing pain before and during the periods, and from terrible headaches and backache. I hated to go to a doctor, and as I knew several women who had taken Lydia E. Pinkham's Vegetable Compound with good results, I finally bought some and took four bottles of it. I certainly do recommend it to every woman with troubles like mine. I feel fine now and hope to be able to keep your medicine on hand at all times, as no woman ought to be without it in the house." — Mrs. OSCAR A. ANDERSON, Box 15, Leslie, Sask.

Mrs. Kelsey Adds Her Testimony. Copenhagen, N. Y.—"I read your advertisement in the papers, and my husband induced me to take Lydia E. Pinkham's Vegetable Compound to get relief from pains and weakness. I was so weak that I could not walk at times. Now I can do my housework and help my husband out doors, too. I am willing for you to publish this letter if you think it will help others." — Mrs. HENRY KELSEY, R.F.D., Copenhagen, N. Y.

Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound before they give up hope of recovery.

Light Without Heat Invented in France.

A French engineer has made a discovery which, it is believed, will cause a revolution in methods of illumination. At present most electric lamps use up 70 per cent. of their energy in giving out heat rather than light. Risler has constructed a lamp which gives out light without heat. He makes use of a vacuum tube through which a phosphorescent material is passed. As soon as the electric current is passed through this, a light is produced which is brighter than that of the largest lamps now in use.

The consumption of energy is only 15 watts an hour in a tube six metres long and seven millimetres in diameter.

No-Death by Accident on Railway in 50 Years.

There is a railroad in operation to-day which holds the remarkable record of never having had an accident so severe as to cause loss of life, says a London despatch. "It must be a toy railroad," some one will say. But even those meet with dire catastrophes sometimes.

This is a real railroad, which has been running for more than fifty years, and is still running to-day. During that time it has carried more than 1,000,000,000 passengers and not a life has been lost due to accident on the road. It is the North London Railway, begun by Robert Stephenson.

Pick and Nick.

This is the season when picnics are in full swing, but how many of the thousands who enjoy them could say why they were given their name?

The explanation is simple. When a picnic was being arranged it was the custom for those who were to be present to promise to supply food and drink.

A list of the things necessary was drawn up and passed round, each person picking out the articles he or she would supply. The name of the article was "nicked" on the list—that is to say, a mark was placed against it. The open-air entertainment thus came to be known as "Pick and nick." The custom is said to date from 1802.

Masterpieces of Music.

Many of the world's greatest masterpieces are known to have been written in an incredibly short time. The Messiah of Handel is reported to have taken the composer exactly twenty-eight days. The Barber of Seville of Rossini is said to have been the work of a fortnight. La Traviata of Verdi, if his biographers are correct, was done in less than one month. Schubert often poured out his immortal songs at the rate of three and four a day. The gift of melody seems like a kind of musical fountain—once set flowing it continues without interruption in a marvelous manner.
