Mansion House, Stouffville

Get this  
**LOUDEN**  
Bird Proof  
Barn Door Hanger

and have the barn door hang and run right for all time. This is positively the finest Barn Door Hanger on the market. As its name implies birds cannot build in the track. The track is hollow, with closed ends. No ice or snow in winter or trash in summer can possibly get in to clog it. Runs on two strong braced trolley wheels, always smooth and easy running. Hinged so as to make it flexible and to allow the door to swing outwards and upwards if occasion requires.

Ask for the Louden Line  
—over 47 years of experience and practical experiments go to make Louden goods efficient and reliable. We make

"Everything for the Barn" including Cow Stalls, Stanchions, Litter and Feed Carriers, Hay Forks and Slings.

Write for our new Catalogue.  
**THE LOUDEN MACHINERY CO.**

## EDITORIAL COMMENT

The latest style dresses this year are cut low in the back but not in price.

While not as good as a dollar, a nickel does its best. It goes to church more often.

One consolation about the long skirts says a Walkerton lady, the mosquitoes won't have such an easy time of it this summer.

An observant writer says the city man thinks himself better off than the farmer, and the farmer thinks the city man is conceited. But coming into a fortune they both move—the farmer to the city and the city man to the country.

John D. Rockefeller, Jr. has presented to the Toronto General Hospital and the Hospital for the Sick Children \$10,000 each, and to the University of Toronto \$5,000 to be used for research in insulin to be conducted by Dr. Banting discoverer of the insulin treatment of diabetes.

No sooner does the blackbird get away with the tender corn plant and the potato bug make his first of the season onslaught on the potato vine than along comes the big city fair announcement to remind the farmer where he can most easily spend his dough when he threshes his pumpkins.

In considering the Bank Act before the banking committee, criticism was offered that 15 cents was too high a charge for a collection. Mr. Fielding effectively pointed out that 15 cents was little enough for the service rendered. "Why a hotel boy will hardly accept 15 cents for a tip now," he remarked.

Will Canada be able to get along without the Chinese laundry and the Chinese restaurant? Apparently Canada will have to learn to do so. Under the new regulations only Chinese merchants and students are to be admitted, and it is not likely that either will be allowed to take in washing or serve meals.

Kincardine Reporter.—What is wrong with the people that they do not attend church? This question is a predominant one everywhere. Thinking people see in this attitude of the populace the weakening of our national life. Russia is an example of what a nation can become which allow its spiritual life to become attenuate. We need the Sunday service to help cleanse us from the worldliness and lowness that we allow to creep into our systems. It is necessary that we sit and listen to the servant of God trying to point out our weakness and giving us the right line of thought to bring us again in touch with the infinite. The man who remains away from church is a coward.

The General Assembly of the Presbyterian church has spoken on the question of organic union with the Methodist and Congregational churches. By a vote of almost three to one, the governing body of Presbyterianism in Canada decided in favor of proceeding immediately with the consummation of union. The vote, which was taken at 6 o'clock on Tuesday, June 11th, at Port Arthur was 426 for the motion and 123 against. The vote was taken just previously on the amendment introduced by Rev. Dr. Drummond was 137 for and 415 against. Thus ended a debate which probably was without parallel in the annals of the Church in Canada, and thus is a page of Church history closed and another begun.

## TRAIN TO HALIFAX

The Canadian Weekly Newspapers Association left Toronto about 175 strong on a special Canadian Pacific train equal in equipment to anything that ever travelled in Canada.

It was one of the longest special trains that has ever pulled out of Toronto Station. It included twelve coaches of which eight were standard sleepers of the most modern type. Two diners with special crews of chefs and waiters were attached and at the rear was a compartment observation coach from which the travellers were able to view the splendid scenery through which the Canadian Pacific Railway runs. These with baggage cars made up the train. The engine was a modern type high power locomotive which contributed greatly to the success of the trip by doing even better than the time schedule arranged.

The train pulled into Montreal 8 minutes ahead of the expected moment and the excellent record thus established on the first lap of the journey was kept up all the way over the line.

Leaving Montreal shortly after midnight the train passed out of Canadian Territory at about six o'clock Friday morning and the party during the night passed across the State of Maine for the ensuing hours running back across the line into Canada in the early afternoon. The distance across this corner of the United States was roughly about 220 miles from Megantic, Que., to McAdam, New Brunswick, which two little

towns are on the east and west border of Maine.

The total distance travelled by the party on the way to Halifax was approximately 1,150 miles broken up into the following stages: Toronto to Montreal 340 miles; Montreal to Fredericton, N.B. 559 miles; Fredericton to St. John 66 miles, St. John to Digby by Canadian Pacific steamer "Empress" across the Bay of Fundy and from Digby to Halifax over the Dominion Atlantic Ry. 151 miles.

The train was accompanied by a number of C. P. officials whose business it was to look after the comfort of the party. They included W. B. Howard, Assistant General Passenger Agent at Montreal; J. H. Smith, Canadian Press representative of the Company and T. L. Kellie of Toronto.

As the train passed over the various divisions, the Divisional Superintendents joined it and saw it safely over the line.

The trip from Halifax through Nova Scotia and Prince Edward Island was made by Canadian National, in an all steel train. In a future issue we hope to say something about the Maritimes their beauty and their difficulties.

## STOUFFVILLE MARKETS

Wednesday, June 27th.

### Dairy

Chickens	25 to 26
